### *Other Supplementary Information*

This section includes financial information and disclosures not required by the Governmental Accounting Standards Board and not considered a part of the basic financial statements. It may, however, include information which is required by other entities.

### *DISCRETELY PRESENTED COMPONENT UNITS*

The Rockwall Economic Development Corporation (REDC) represents the City by promoting it as a location for new business. It also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park developed by REDC.

Total Direct and Overlapping Bonded Debt	<u>\$ 527,022,264</u>		<u>\$ 347,020,213</u>
Average debt per capita			<u>\$ 8,993</u>

Source: Assessed value data used to estimate applicable percentages provided by Rockwall Central Appraisal District. Debt Outstanding data is provided by each governmental unit.

- (1) Includes all General Obligation Bonds, Contractual Obligations, and Certificates of Obligation and Capital Leases of the primary government.
- (2) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of each governmental unit's taxable value that is within the city's boundaries and dividing it by each unit's total taxable value.

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

TABLE D-18

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year									
	2012	2011	2010	2009	2008	2007	2006	2005	2004	2003

City of Rockwall  
*The New Horizon*

March 21, 2012

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Rockwall for the fiscal year ended September 30, 2011, is hereby submitted in accordance with Section 7.18 of the City Charter. The financial statements are presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

Management assumes full responsibility for both the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Rutledge, Crain & Company, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2011, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by

management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2011, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements as required by GAAP. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, county seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth International Airport and Love Field in Dallas meet the air transportation needs of the region.

The City currently has a land area of approximately 29.78 square miles and an estimated population of 36,810.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments were adopted as recently as 2005. Policy making and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; planning and zoning, parks and recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in Note 1 of the Notes to the Financial Statements.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when considered from the broader perspective of the specific environment within which the City of Rockwall operates.

## Local Economy

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. With its concentration of commercial and retail development, the City of Rockwall has long drawn shoppers from surrounding areas. As the national economy began to improve over the last year, Rockwall's economy benefitted from a mix of new businesses and the renewed success of others. Rockwall saw an increase of 6.4% in our local sales taxes. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Total property values rose by 1.56%. The most recent five-year average is 5.26% per annum. The City's largest taxpayers are varied and include retail developments, industry, and medical facilities. Table 12 in the Statistical Section provides further information on the principal taxpayers. The Rockwall Economic Development Corporation continues to market Rockwall and assist companies looking to locate their business in the City. The year's highlights included:

- SPR Packaging, worked with the Rockwall Economic Development Corporation and added 120,000 square feet to their facility which has tripled in size since their opening in 2008. In addition, the REDC completed construction of the extension of Discovery Boulevard from the Technology Park to John King Boulevard increasing access to the interstate from the Park.
- The Presbyterian Hospital of Rockwall continues to add attract medical offices and quality long term care to the surrounding area. In excess of 43,000 square feet of new space were added in the adjacent area during 2011. The Presbyterian development has added more than \$60,000,000 to the City's tax rolls.
- Downtown Rockwall benefits from the attention garnered from Rockwall's being a Texas Main Street City. A number of new retail establishments including The Fatted Calf, Candles by Carol and The Life House joined to complement the many offerings in the downtown area. The City has seen a 2.2% increase in sales taxes in the downtown area in the last year.
- The Woodmont Company completed construction of the 100,000 square foot, second phase of their "Plaza" development. They added retail draws such as Maurice's, Joann Fabrics and Home Goods and anticipate the addition of others shortly. Several restaurant spaces were added with Olive Garden opening in 2012.
- In-N-Out Burger came to town along with the new Allure Restaurant which opened in the Chandler's Landing Yacht Club. Mi Cocina opened in Plaza Phase I and Campisi's opened at the Harbor. They joined the extensive mix of restaurants to choose from including locally owned favorites and nationally recognized names.

## Long-term Planning

The City Council and staff recognize the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

## Financial Policies

The City Council adopted financial policies in 2001 which have guided the City allowing us to build a strong fund balance and reinforcing the need to budget conservatively for both revenues and expenditures. The general fund reserve policy was reviewed and updated more recently in 2009. The policy states the City should maintain no less than 3 months of reserves and will allow reserves in excess of 3.5 months of recurring operating expenditures to be transferred to a capital projects fund to be used to fund future projects. The City has maintained reserves at or above this level for many years. This allows the City to respond to emergencies or downturns while not overburdening the taxpayers. Reserves over the 3.5 month level are available to fund capital projects in 2012 which includes expansion of facilities for the Police Department and Municipal Court.

## Planning Projects

The City has completed annexation of several large tracts of land which are now incorporated into the City planning. The City Council will complete the review of the City's Comprehensive Land Use Plan in 2012 and make updates as necessary.

Having identified the downtown area as a critical component of our long range plan, the City and business and community leaders work with the City's Texas Main Street Manager to coordinate planning efforts and develop interest in locating business downtown and to bring events to the Square. The Main Street program has afforded opportunities for businesses to qualify for façade restoration grants which are funded by the City and Community Bank..

The City worked with a consulting firm to prepare an extensive conceptual plan for Planned Development 32 (PD32) which encompasses 60 acres of undeveloped land inside the City's tax increment financing zone and adjacent to the Harbor development. The city recognized the importance of having the conceptual plan ready when the economy improves. The City initiated the zoning process to establish a form based code for the area. It is expected the area will soon see the expansion of the mixed-use concept with retail, restaurants, office and residential spaces as interest from the development community is being expressed.

The Rockwall Economic Development Corporation in conjunction with their Destination 2020 plan has refined the focus and role of their planning committee as well. Their marketing program now includes social media components and targeted marketing aimed at desired industries

## Capital Improvement Planning

A Capital Improvements Committee (CIP) of citizens considered a slate of projects in 2011. The committee recommended projects for a bond election to be held in May 2012. The ballot includes propositions to provide an athletic complex and downtown accessibility projects in addition to roadway and park projects. The City hired design and construction management professionals to work with staff and City Council to develop the vision for the projects and cost estimates to ensure the projects if approved can move forward expeditiously and be completed in budget.

## Strategic Planning

Organizationally, the City uses the Balanced Scorecard Methodology for strategic planning. Bi-annually the City conducts a Citizen Satisfaction Survey to document our progress meeting the

needs of our citizens. The City employs the C3 methodology of “Customer Centered Culture” which encourages cross department teams to follow a proven course of data compilation and actions that allow the teams to develop product and process improvements. C3 recognizes that the services we provide are ultimately comprised of a number of products and processes and those must be designed to meet our customer’s needs, not what we perceive are their needs. Project teams present their reports to Council and their suggested improvements are implemented as funding allows. The City continues to receive good marks on our biannual survey completed in 2011 regarding our progress on adopted goals and strategies as well as areas of interest for future projects.

## Future Development

### Transportation

The City completed construction of “John King Boulevard” in honor of our late council member. Shortly after its completion, the Texas Department of Transportation began work on the overpass which will connect the northern and southern roadways and allow additional access to I-30. With construction progressing, it should be completed mid 2012. TxDOT, continues the project to widen FM740 in southern Rockwall. City projects underway in 2012 will include the reconstruction of Airport Road, a much traveled east-west roadway which will allow better access to John King Boulevard. Corporate Crossing, formerly FM549, will be widened to provide improved and enhanced access to the City’s light industrial area between I-30 and SH276.

The City is a member of a County-wide Consortium which allows County government officials to work with officials of each of the seven cities in the county to further transportation planning efforts. The Consortium meets monthly to discuss funding alternatives for the County’s transportation needs, which also involve planning and state participation. The County’s bond initiatives allow funding for the advance planning and design of 5 major roadway projects. This allows the projects to be ready to commence as soon as state funding is allocated for construction.

### Medical Services

Developments in the Horizon Road area have focused on medical services. With the availability of acute care at Presbyterian Hospital of Rockwall, the addition of several new medical buildings with Doctor’s suites and state of the art out-patient diagnostic imaging facilities has allowed Rockwall to become a regional medical services destination. Additional ancillary medical office buildings and long term care facilities are planned for near term development. Autumn Leaves Alzheimer’s and Memory Care Center opened in 2011.

### Retail / Entertainment

“The Harbor” development is situated on the shores of Lake Ray Hubbard at I-30. A public/private partnership provides opportunities for new retailers in the Bella Harbor development as well as public open space and a full-service Hilton Hotel and Conference Center. The Conference Center continues to attract events including numerous corporate training and retreat sessions and expect many which are scheduled for 2012.

In conjunction with the private development, the City established a tax increment financing (TIF) zone on an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The City partnered with Rockwall County, and the Rockwall Economic Development

Corporation to establish the TIF to finance the public projects. A new owner and property manager in late 2010 have focused on adding several new restaurants to the mixed use development including the highly recognized Campisi's name in 2011. Popular Willis Jewelers added a new concept store to the Harbor featuring estate and collectibles items. Sales taxes in this area grew by 8.7% this year. The City is collaborating with an office tower developer who is planning construction of a seven-story, 85,000 square foot office tower overlooking the lake. The Harbor Heights Trend Tower will offer Class-A office space to its corporate tenants.

The City's extremely successful Concert on the Lake Series managed by the City's Recreation Department draws approximately 5,000 attendees each Thursday evening for a free concert. The series extended 12 weeks in 2011. Surveys conducted during the events gather data regarding the distance from which visitors traveled and approximate retail and restaurant dollars expended while here. The term "Live Music Capital of North Texas" has been coined to describe the many opportunities available year round in both public and restaurant venues.

Founder's Day on the Downtown Square draws visitors to shop merchant's wares, see artist's exhibits, learn about city departments and enjoy free concerts all day. The event culminates with a concert by a nationally recognized artist, also free to all who attend.

A Farmer's Market brings visitors downtown Saturdays from May to October. The City sponsors an Art Fair one Saturday each month. The third annual "Rib Rub" was held in fall 2011 drawing more than 50 teams to the downtown square. The Main Street Advisory Board and "Friends of Downtown Rockwall", citizen volunteer group, are working to plan more special events downtown.

The City is fast becoming the triathlon destination as well. In addition to several locally sponsored races, the City for the second time welcomed the Toyota US Open Triathlon in fall 2011. The event saw more than 1,200 participants including a contingent of international Olympians take advantage of our lake access and terrain to complete the final event of the annual seven race series. The City has been notified the event plans to return for 2012. Early series races will be held in cities including Chicago, Miami, Minneapolis and Los Angeles culminating with the Rockwall race and the final prize standings.

#### Utilities

The water and sewer rates were last increased in 2010 and the City is implementing a 10% rate increase for 2012. The City purchases treated water as a founding member city of the North Texas Municipal Water District. Construction is nearing completion for the Squabble Creek sewer system which will connect to the regional sewer interceptor system in early 2012. A number of main extension projects continue to be undertaken to provide water and sewer service to annexed areas of the City.

The City's water system is recognized with the Texas Commission on Environmental Quality's "Superior" rating.

The City is actively working to acquire the right to serve recently annexed areas which are currently served by wholesale water supply corporations and an investor owned utility. It remains the City's desire to be the provider for all residents in our city limits.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below. Revenue debt has been excluded since system charges are used to retire the debt.

Outstanding General Obligation Debt at 9-30-11(net of Debt Service)	\$110,097,474
Estimated Population	36,810
G.O. Debt Per Capita	\$2,991
Net G.O. Debt per Assessed Value	3.52%

The City seeks a bond rating update as new debt is issued. The current ratings are shown below:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	AA-	A-	A-
Moody's Investor Service Inc.	Aa2	Aa3	A1

## **AWARDS AND ACKNOWLEDGEMENTS**

### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2010. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

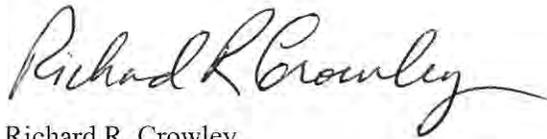

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for each of the last twenty-one consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Richard R. Crowley  
Interim City Manager

Mary P. Smith, CPA  
Director of Finance

## INDEPENDENT AUDITORS' REPORT

To the City Council  
City of Rockwall, Texas

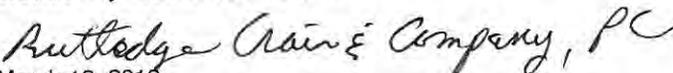

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of and for the year ended September 30, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Rockwall, Texas' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of September 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 19 through 29 and 75 through 76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Rockwall, Texas' financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The required supplementary information, and the combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The combining financial statements and individual fund budgetary comparison schedules have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## MANAGEMENT’S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall’s financial performance provides an overview and analysis of the City’s financial activities for the fiscal year ended September 30, 2011. Please read it in conjunction with the City’s financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City’s total net assets were \$173,517,124 at September 30, 2011.
- During the year, the City’s expenses were \$1,061,378 less than the \$40,818,475 generated in taxes, other revenues and transfers for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2011 by \$106,259,888 (net assets). Of this amount \$13,400,417 (unrestricted net assets) may be used to meet the government’s ongoing obligations to citizens and creditors.
- At the end of this fiscal year, the unassigned fund balance for the general fund was \$10,085,001 or approximately 41.25 percent of the total general fund operating expenditures and transfers out.
- The City’s total outstanding general obligation bonds and certificates of obligation (excluding enterprise and component unit debt) increased by \$7,376,962 during fiscal year 2011. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management’s discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City’s overall financial status.

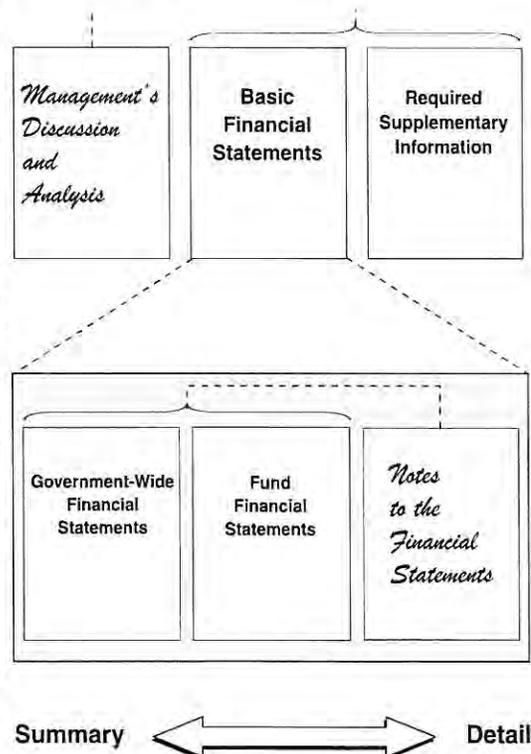

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City’s operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City’s Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City of Rockwall’s Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>		
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>
<i>Scope</i>	Entire City government (except fiduciary funds) and the City's component units	Activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private business.
<i>Required financial statements</i>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>◆ Balance Sheet</li> <li>◆ Statement of revenues, expenditures &amp; changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of revenues, expenses &amp; changes in fund net assets</li> <li>◆ Statement of cash flows</li> </ul>
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<i>Type of asset liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

### **Government-wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall’s finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the city of Rockwall’s assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City’s property tax base and the condition of the City’s infrastructure, to assess the overall health or financial condition of the City.

The *statement of activities* presents information showing how the City’s net assets changed during the most recent fiscal year. All of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City’s basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services provide funds for most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City’s water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City’s Type A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit’s Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements can be found on pages 33-35 of this report.

## **Reporting the City’s Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City’s most significant funds—not the City as a whole. *Funds* are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City’s basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City’s programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government’s near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 21 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General fund, Debt Service fund, Harbor/TIF Projects fund, and G.O. Bonds Capital Projects fund, which are considered major funds. Data from the other 17 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City’s enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City’s self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City’s retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City’s intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City’s fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City’s government-wide financial statements because the City cannot use these assets to finance its operations.

*Notes to the financial statements*-The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report presents certain *required supplementary information* concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2011, the City's net assets (assets exceeding liabilities) totaled \$173,517,124. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

The largest portion of the City's net assets (86.0% percent) reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets which is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1  
Net Assets

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010
<b>Current and other assets</b>	\$ 37,436,167	\$ 215,690,227	\$ 16,369,447	\$ 22,378,392	\$ 53,805,614	\$ 238,068,619

<b>Unrestricted</b>	<u>13,400,417</u>	<u>4,308,457</u>	<u>6,124,975</u>	<u>5,340,103</u>	<u>19,525,392</u>	<u>9,648,560</u>
<b>Total net assets</b>	<u>\$ 106,259,888</u>	<u>\$ 105,198,540</u>	<u>\$ 67,257,236</u>	<u>\$ 65,849,918</u>	<u>\$ 173,517,124</u>	<u>\$ 171,048,458</u>

An additional portion of the City of Rockwall's net assets, \$1,774,913 or 1.66% represents resources that are subject to external restrictions on how they may be used. The remaining unrestricted net assets, \$13,400,417, may be used to meet the government's ongoing obligations to citizens and creditors.

The following table will document key elements of the increase in total net assets for the year ended September 30, 2011.

## Governmental Activities

The City's total revenues of governmental activities were \$39,855,264. A significant portion 43.2% of the City's revenues came from property taxes. Another 28.9% of revenue came from sales taxes. Ad valorem property tax revenues as a percent of revenues continue to increase each year due to the addition of new properties and increased valuation throughout the City. Assessed values of the properties in the City increased by \$48,024,470 or 1.56%. The City adopted a property tax rate of 50.31 cents per \$100 of assessed valuation for fiscal year 2011. The rate has remained steady for three years. Sales tax revenue increased over the prior year by 6.4% and was reflective of the addition of more than 100,000 square feet of new retail businesses as well as an improving economy. The national decline in new housing starts had been felt on the local level with 2011 showing a 14.6% decrease in residential building permits but still higher than seen in years 2008-2009. Commercial development in 2011 increased with permit revenues increasing 17.6% over the prior years. Over the

past several years, Rockwall County, of which the City of Rockwall is the County seat, was one of the fastest growing counties in America, and the fastest growing county in Texas. The City’s investment earnings included in the “other” revenues above were reflective of today’s interest rate environment.

**Comparative Expenses – Governmental Activities**

The total cost of all programs and services were \$39,757,127. Of these costs \$8,422,736 (21.2%) was for the Police Department. The department brought the city’s drug enforcement efforts in house after participation in a county-wide enforcement task force. Public Works costs were \$8,009,435 (20.2%) and reflected ongoing street and park maintenance focused projects. Administrative departments including Administration, Human Resources, and Internal Operations had combined costs of \$7,183,587 (18.1%).

**Business-Type Activities**

The City’s business-type activities recorded a decrease of \$1,407,774 in net assets. Retail water sales increased by 23.2% over the prior year due to an extremely hot and dry weather pattern in the area for most of 2011. The City’s rates were last increased in 2010 but an increase is expected for 2012. The City implemented conservation water rates in 2001 and increases them each time new rates are adopted. Sewer charges were not affected significantly because the City uses winter averaging to calculate sewer billing. Water and sewer charges were \$14,706,570. The ending working capital, excluding restricted assets and liabilities payable from restricted assets, for the water and sewer fund was \$3,528,649.

Water and sewer impact fees (Capital recovery fees) revenue totaled \$494,357 for the fiscal year. Impact fees, paid by developers, are designed to reduce the system’s initial costs in building assets. Residential development is assessed an impact fee at the building permit stage while commercial projects are assessed at the beginning of site development.

The City’s water system maintains the “Superior” rating by the Texas Commission on Environmental Quality.

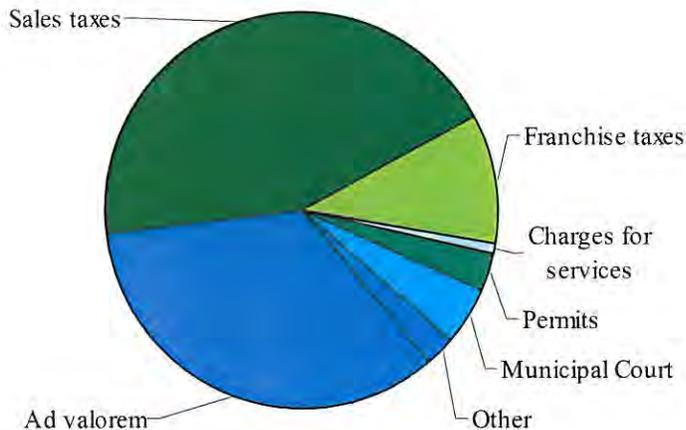

## Component Units

The Rockwall Economic Development Corporation (REDC) reported revenues primarily from a ½ cent sales tax, authorized under the Type A Corporation statutes, of \$3,702,718. Assets managed by the corporation include an inventory of over 310 acres of land, zoned for light industrial uses and available for sale. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's *General Fund* reported an ending unassigned fund balance of \$10,085,001. The largest source of general fund revenue is sales tax, it accounted for \$10,972,918 (44.2%) of total general fund revenue. Ad valorem property taxes account for \$8,465,295 (34.1%) of general fund revenues. The City maintains the unassigned fund balance at or above acceptable levels as defined within the City's financial policies. This "reserve" balance allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

### Revenues by Source – General Fund

The City's *Debt Service Fund* reported an increase in fund balance of \$331,242. Property tax collections for debt service requirements were \$8,182,218. This is required in order to pay debt service payments on bonds issued to construct numerous road and parks projects completed since the City's bond election in 2005 authorized more than \$65,031,000 in projects. After extensive study, the City adopted a Roadway Impact Fee which provided \$324,839 in new revenue to this fund in fiscal year 2011.

The *Harbor/TIF Projects Fund* reported an assigned fund balance of \$2,653,717. Certificates of Obligation in the principal amount of \$4,283,000 were issued in 2011 to allow the construction of streets and utility improvements in a portion of the City's Tax Increment Reinvestment Zone in conjunction with the development of an office tower. The *G.O. Bonds Capital Projects Fund* reported an assigned fund balance of \$8,932,608 including the \$7,135,000 proceeds from the issuance of city debt to fund the final stages of projects remaining from the 2005 bond election. This includes the reconstruction of Airport Road underway at this time and the anticipated start of the reconstruction of Corporate Crossing in early 2012.

## GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2011, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases or decreases in revenues when compared to original projections. With the adjustments made to the budget, the original budgeted expenditures of \$22,157,000 increased to \$22,976,450 while revenues increased from \$23,335,700 to \$24,277,900. The City of Rockwall had originally estimated the ending general fund unassigned balance to be \$9,208,584 however due to the budget adjustments mentioned above and a planned reduction in fund balance for equipment for the police department, the fund balance was re-estimated to be \$8,970,234.

General fund revenues were \$24,823,994, an increase of \$546,094 over the amended budget estimate, reflecting strong sales tax collections in the latter months of the budget year. Actual general fund total expenditures were \$22,591,761 a decrease of \$384,689 less than final projections. This allowed the City to end the year with an unassigned fund balance of \$10,087,117, an increase of \$1,116,883 over the projected balance. The higher fund balance is attributable to management's conservative projections of both revenues and expenditures.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At the end of the fiscal year 2011 the City had \$279,561,833 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines. The balances shown below are net of accumulated depreciation.

**Table 3**  
**Capital Assets at Year-End**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010
Land	\$ 14,102,412	\$ 13,867,438	\$ 799,533	\$ 799,533	\$ 14,901,945	\$ 14,666,971
Buildings	13,451,182	14,025,618	84,234	89,668	13,535,416	14,115,286
Improvements other than buildings	20,297,789	21,754,264	71,447,673	70,870,766	91,745,462	92,625,030
Machinery & Equipment	4,358,962	5,020,277	1,064,379	714,704	5,423,341	5,734,981
Infrastructure	123,244,231	126,863,500	-	-	123,244,231	126,863,500
Construction in Progress	11,820,588	5,028,343	11,286,154	7,904,039	23,106,742	12,932,382
Sewage treatment facilities	-	-	7,604,746	7,853,592	7,604,746	7,853,592
	<u>\$ 187,275,164</u>	<u>\$ 186,559,440</u>	<u>\$ 92,286,719</u>	<u>\$88,232,302</u>	<u>\$279,561,883</u>	<u>\$274,791,742</u>

The City's ongoing capital improvement program included a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were completed prior to 2011. New projects underway in 2011 and reflected in the increase in construction in progress above include the widening of Airport Road and the design of Corporate Crossing. A number of drainage projects were anticipated during the five-year planned capital improvement period and continue in various stages of progress.

The City held a bond election in November 2005 which funded road, park and fire projects in excess of \$65,031,000. In addition to the 205 Bypass project, the City was authorized to move forward with several neighborhood parks projects and the acquisition of land for two large regional parks. Progress was made and includes the purchase of land for a large park in the northern area of the City, and completed construction on all of the neighborhood parks.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extension of sanitary sewers into new areas of the city. Work commenced on a project to connect the Squabble Creek treatment plan to the regional wastewater interceptor project and will continue into 2011.

Additional information regarding the City's capital assets is found in note IV-D on pages 57-59.

Debt

At year end, the City had \$151,981,669 in bonds and capitalized leases shown in Table 4.

**Table 4  
City of Rockwall Outstanding Debt**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2011	2010	2011	2010	2011	2010

Revenue bonds	-	-	5,215,000	10,775,000	5,215,000	10,775,000
Capital Lease obligations	236,589	278,034	6,710,080	7,080,084	6,946,669	7,358,117
	<u>\$ 111,760,335</u>	<u>\$ 104,424,818</u>	<u>\$ 40,221,334</u>	<u>\$ 43,880,261</u>	<u>\$ 151,981,669</u>	<u>\$ 148,305,079</u>

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported bonded debt to assessed value of all taxable property is 3.52% or \$2,991 per capita. This is an increase from the prior year due to issuance of debt in 2011. The City completed an advance refunding of certain obligations to restructure repayment terms and lower interest costs.

The City's bond ratings at September 30, 2011 were as follows:

	General Obligation	Revenue	Sales Tax(REDC)
Standard & Poor's Rating Group	AA-	A-	A-
Moody's Investor Service Inc.	Aa2	Aa3	A1

Additional information on the City of Rockwall's long-term debt can be found in note IV-F, on pages 60-67 of this report.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials considered many factors when setting the fiscal year 2012 budget, tax rate, and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the slowed growth in our community and the impact of recovering national economy. Rockwall saw a number of new commercial/retail business openings in 2011 which would positively impact sales tax revenues in fiscal year 2012. With this in mind but to continue the City's conservative budget philosophy, sales tax projections were increased by only 2%. Slowed development caused the City to be very conservative in projecting building permit revenues as well. Commercial building starts were better in 2011 and a number of new projects are in the early planning stages which should positively impact permit revenues in 2012. Interviews with local builders led the City to project

continued slow home starts for the coming year but developers are anticipating the start of new subdivision phases in the coming year.

The City of Rockwall's citizens enjoy above-average income levels per household. This combined with the City's proximity to major highways, and the Dallas-Ft.Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and "hometown" atmosphere. The Rockwall Economic Development Corporation works to attract businesses with relocation incentives as well as business retention incentives such as workforce training opportunities. The City's unemployment rate was 6.7%, well below the national levels.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2012. The budgeted revenues for fiscal year 2012 total \$24,393,000 for the general fund. Ad valorem tax revenue is determined by two factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. While new debt was issued in 2011, the issuance will be significantly less than in years 2006 – 2009 due to completion of the majority of voter approved projects. The property tax rate was maintained at 50.31 cents per hundred dollars of assessed value.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. These policies were reviewed by the City Council in 2009 and certain provisions related to the City's fund balance were changed. The amended policy provides that the General Fund reserves should be no less than 3 months of recurring operating appropriations. In addition, the policies provide that should an audited fund balance at the end of the fiscal year exceed 3.5 months, the City Council may elect to transfer a portion to a Capital Projects Fund. The budget as adopted for fiscal year 2012 projects a fund balance of approximately 4.9 months of recurring operating expenditures. The City anticipates the purchase and renovation of property to relocate our municipal court operations and the expansion/remodel of the police building with a portion of these available reserves.

The 2012 budget expenditures includes absorbing the increasing costs of employee health and retirement costs as well as increasing street maintenance expenditures and re-implementing the previously frozen employee merit system. Facility projects to install energy efficient lighting will be undertaken with grant funding. The budget did not include other significant new programs due to budgetary constraints.

The water and sewer rate study has been updated and the budget anticipates a 10% increase in those rates. A number of capital projects to continue system expansion and the system are being planned for fiscal year 2012. The City will closely monitor revenues due to the conservation measures now in effect due to drought conditions and water shortages. This will have a significant effect on revenues if it continues into the summer months of 2012. Operational costs will be closely monitored and controlled to reflect this anticipated reduction in available revenues.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. **CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City of Rockwall, Texas, was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer service as a proprietary function of the City.

The accounting policies of the City of Rockwall, Texas, conform to generally accepted accounting principals issued by the Governmental Accounting Standards Board which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City of Rockwall is a home rule municipality governed by an elected mayor and six member City Council who appoint a City Manager. The City's (primary government) financial statements include its component units. The accompanying basic financial statements comply with the provisions of the GASB Statement No. 14, "The Financial Reporting Entity," in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the City's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to or impose a financial burden on the City.

**Discretely Presented Component Units**

The Rockwall Economic Development Corporation (REDC) is governed by a nine member board of directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half cent sales tax to support its activities.

The Rockwall Technology Park (RTP) provides repair and maintenance of the common area within the park being developed by REDC. RTP's board of directors is composed of representatives of the landowners. At September 30, 2011, REDC owned the majority of the land and the board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. Until then, it is controlled by REDC, a discrete component unit of the City.

The funds of both REDC and RTP are composed of governmental fund types. Stand alone financial statements for RTP as of and for the fiscal year ended September 30, 2011 are not prepared.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e. the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic *resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *G.O. Bonds Capital Projects Fund* was established to account for street and drainage projects using proceeds from the issuance of bonds.

The *Harbor/TIF Capital Projects Fund* was established to account for improvements in a Tax Incremental Reinvestment Zone using proceeds from the issuance of bonds.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance, and worker's compensation coverage services provided to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Capital Projects Funds account for the acquisition of capital assets or the construction of major capital projects (such as streets and sidewalks) not being financed by proprietary funds.

Fiduciary funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and wastewater function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and worker compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than 5 years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.

## CITY OF ROCKWALL, TEXAS

### NOTES TO THE FINANCIAL STATEMENTS

Year Ended September 30, 2011

- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.
- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.
- e. Certificates of deposit issued by a state or national bank domiciled in the state of Texas or a savings bank domiciled in the state of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items 1 – 4. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least of the 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the state of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net assets value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

The City holds various mortgage backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

Investments having a maturity of 1 year or more, when purchased, are stated at fair value. Short term investments are stated at cost or amortized cost.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter fund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1 by the City based on the January 1 property values as assessed by the Rockwall County Central Appraisal District. Taxes are due without penalty until January 31, of the next calendar year. After January 31 the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

3. Inventories and prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

# CITY OF ROCKWALL, TEXAS

## NOTES TO THE FINANCIAL STATEMENTS

Year Ended September 30, 2011

Capital assets of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Buildings	20 - 30 years
Building Improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

### 6. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 6.67 hours per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of 3 days sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of 3 days sick leave to one day vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of 3 days sick leave to one day vacation leave and shall be paid to the employee if he/she has 10 or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. Compensated absences are reported in governmental funds only if they have matured for example, as a result of employee's resignation and retirement.

### 7. Long-term obligations

In the government-wide financial statements, and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### 8. Fund equity

Nonspendable Fund Balance Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed Fund Balance - Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council through legislation, resolution or ordinance, unless the City Council removes or changes the specified use by taking the same type of action used to commit the amounts.

Assigned Fund Balance - Amounts that are constrained by the City Council, or by another City official or the finance division to which the City has delegated authority, that are to be used for specific purposes but are neither restricted nor committed.

Unassigned Fund Balance - Amounts that are available for any purpose; these amounts can be reported only in the City's General Fund.

Fund balance amounts represent the nature of the net resources that are reported in a governmental fund. The City fund balance classifications include non-spendable resources, restricted, and non-restricted (committed, assigned and unassigned) amounts. When the City incurs an expenditure and both restricted and unrestricted amounts are available, the City considers restricted amounts to have been spent. When the City incurs an expenditure for an unrestricted amount, committed amounts are reduced first, followed by assigned amounts and then unassigned amounts for purposes in which any of those unrestricted fund balance classifications could be used.

## II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets - governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and are deferred in the funds." The details of this \$1,566,470 difference are as follows:

Bonds issuance costs:	
City	<u>\$1,566,470</u>

## III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

### A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain Special Revenue Funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During 2011, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.
6. The City did not adopt budgets for certain Special Revenue Funds. These unbudgeted Special Revenue Funds were as follows:

- Emergency Siren Fund
- Downtown Improvement Fund
- Art in Public Places Fund
- Special Crimes Unit Fund

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

7. Capital Project funds were not budgeted. Since project length financial plans usually extend into two or more fiscal years, this makes comparisons confusing and misleading.

B. Deficit fund equity

The following fund had a deficit fund balance at September 30, 2011:

Employee Benefits Internal Service Fund	\$536,851
---	-----------

The deficit in the Employee Benefits fund was caused by unanticipated health care cost increases, and will be covered by additional transfers from the general fund.

**IV. DETAILED NOTES ON ALL FUNDS**

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2011, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$1,099,365 which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2011, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

Investments

At September 30, 2011, the City's investments were:

	Carrying Value	Maturity (months)			
		Less than 1	2-6	7-12	13-18
<b>Primary Government</b>					
U.S. Government Agencies					
Federal Home Loan Mortgage Corp.	\$3,262,107	\$ --	\$ --	\$ --	\$3,262,107

Other receivables	\$226,234	\$11,628	\$ --	\$4,375	\$ --	\$63,043

C. Deferred/Unearned Revenue

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unavailable	Unearned
Delinquent property taxes receivable (General Fund)	\$181,832	\$ --
Contract receivable not yet due (General Fund)	216,581	--
Fines receivable (General Fund)	141,139	--
Delinquent property taxes receivable (Debt Service Fund)	205,431	--
Delinquent property taxes receivable (Harbor Debt Service)	30,433	--
Assessments receivable not yet due (Street improvements)	96,116	--
Contributions not yet received (Street Improvements)	118,412	--
Seizures not awarded (Special Crimes Unit)	38,979	38,979
Total deferred/unearned revenue for governmental funds	\$1,028,923	\$38,979

NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

E. Interfund receivables, payables, and transfers

The composition of interfund balances as of September 30, 2011, is as follows:

Fund	Receivable	Payable
General Fund	\$256,957	\$ --
Debt Service Fund	192,111	--
Nonmajor governmental funds	--	192,111
Internal Service Funds	--	256,957
Total Internal Service Funds	449,068	449,068
Totals	\$449,068	\$449,068

The outstanding balances between funds result primarily from the time delay between the dates that interfund goods and services are provided and payments between funds are made. These are expected to be collected within one year.

The composition of interfund transfers for the year ended September 30, 2011, is as follows:

Fund	Transfer In	Transfer Out
Major Governmental Funds		
General Fund	\$693,900	\$1,998,350
G.O. Bonds Capital Projects	224,000	--
Nonmajor Governmental Funds	238,550	915,237
Water and Sewer Enterprise Fund	564,837	--
Internal Service Funds	2,737,000	1,544,700
Totals	\$4,458,287	\$4,458,287

Transfers are used to move unrestricted revenues to finance various programs or capital projects that the City must account for in other funds in accordance with budgetary authorizations.

F. Long-term debt

The City issues general obligation debt ( in the form of general obligation bonds, certificates of obligation, contractual obligations, and notes payable) to provide funds for the acquisition and construction of major capital facilities. General obligation debt has been issued for both governmental and business-type activities. These issues are direct obligations and pledge the full faith and credit of the City.

For the governmental activities, claims and judgements and compensated absences are generally liquidated by the general fund. The government-wide statement of activities includes \$665,000 of revenue bonds and \$388,338 of capital leases due within one year for business-type activities in "liabilities payable from restricted assets" on that same statement.

**Conduit Debt Obligations**

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial and housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2011, there was one series of revenue bonds outstanding. The aggregate principal amount payable for the issue was \$1,700,000. This bond was called for optional redemption on October 19, 2011.

**Authorized and Unissued Debt**

The following tables detail the status of all authorized general obligation and revenue bonded debt as of September 30, 2011:

Year Authorized	General Obligation Bonds		Balance

V. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of the City employees and their covered dependents and minimize the total cost of annual medical insurance to the municipality. Medical claims in any one year exceeding \$75,000 per covered individual or, approximately \$3,238,610 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2011.

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers compensation plan. Under this plan, worker compensation insurance is provided in accordance with State statutes to all City employees. To protect the assets of the plan from a catastrophic claim the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a cap of \$600,000 per year.

The Worker's Compensation fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported, are not believed to be significant to the City's financial statements.

	Employee Benefits		Worker's Compensation	
	2011	2010	2011	2010
Claims payable beginning of the year	\$148,015	\$173,703	\$15,403	\$17,454
Claims incurred	2,633,737	2,717,990	160,788	64,996
Payment on claims	(2,563,187)	(2,743,678)	(142,784)	(67,047)
	\$218,565	\$148,015	\$33,407	\$15,403

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

Commercial insurance is purchased for the other risks of losses to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

B. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney and Royse City (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment processing and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams and underground water, for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest equity investments and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek and, in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable NTMWD to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the Annual Budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the Paying Agent and the Registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2011, is \$6,710,080. See Note IV F for the annual requirements to amortize the bonds as of September 30, 2011.

With respect to the ground storage reservoir discussed above, the Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of the related operating expenses and debt service payments. While the City anticipates its share of these payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2011

C. Contingent Liabilities and Commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 5 above, the general revenues of the City are contingently liable for the \$28,296,254 payable in General Obligation Bonds which are currently outstanding and recorded as obligations of the Enterprise Fund.

The City contracts for garbage disposal with a third party. Under the terms of the agreement the city bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2011, these commitments totaled \$1,963,020.

E. Employee retirement systems and pension plans

1. Plan Description

The City provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 827 currently administered by TMRS, an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the city are within the options available within the options available in the governing state statutes of TMRS.

TMRS issues a publically available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the system. This report may be obtained by writing to TMRS, P.O. Box 149153, Austin, Texas 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at [www.TMRS.com](http://www.TMRS.com).

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant as often as annually another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2011

Members can retire at ages 60 and above with 5 or more years of service or with 20 years of service regardless of age. A member is vested after 5 years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

2. Contributions

The contribution rate for the employees is 7%, and the City matching ratio is currently 2 to 1, both as adopted by the governing body of the City. Under the state law governing TMRS, the actuary annually determines the City contribution rate. This rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (over funded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance to budget for it, there is a one-year delay between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2009 valuation is effective for rates beginning January 2011.

<u>Actuarial Assumptions</u>	
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Percent of Payroll
GASB 25 Equivalent Single Amortization Period	27.2 Years - Closed Period

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$50,500 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a board of directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 38 active participants currently covered by the Fund and payments are being made to 24 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments, however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P. O. Box 12577, Austin, Texas, 78711.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

September 30, 2011

(Unaudited)

---

Information concerning the budget and budget calendar are detailed in footnote III.A. The General Fund budget is presented on a generally accepted accounting principles basis.

*Combining Statements and Budget Comparisons  
as Supplementary Information*

This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

## NONMAJOR GOVERNMENTAL FUNDS

### SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Cemetery - established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation - established to account for donations, court security fees, and forfeitures.

Recreational Development - established to account for the annual lease income from marinas and golf course.

Radio System - established to account for revenues and expenditures for the support of the City's radio system.

Street Improvements - established to account for the proceeds of street improvement assessments.

Hotel Motel Tax - established to account for the annual income from hotel motel taxes.

Fire Equipment - established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation - established to account for funds received from airport operations and related expenses.

Recycling - established to account for funds to be used for the City's recycling program.

Emergency Siren — established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Downtown Improvement - established to account for revenues and expenditures related to the City's efforts to revitalize the downtown square.

Art in Public Places - established to account for donations received for developing art displays in public areas such as parks.

Special Crimes Unit - established to account for revenues and expenditures related to a county-wide crime task force.

### *DEBT SERVICE FUNDS*

Debt Service Funds are used to account for the accumulation of resources and payment of general, certificate, & contractual obligation bond principal and interest from governmental resources.

NONMAJOR GOVERNMENTAL FUNDS  
(Continued)

*CAPITAL PROJECTS FUNDS*

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital Projects - established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

Equipment Acquisition — established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

205 Bypass Project — established to account for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

*INTERNAL SERVICE FUNDS*

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Employee Benefits Fund — established to account for the financing of a medical self-insurance fund to pay medical and dental claims of the City's employees and their covered dependents.

Workers' Compensation Fund — established to account for the costs of the workers' compensation self-insurance program for the City.

*AGENCY FUND*

Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Special Escrow Agency Fund - established to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

### *Other Supplementary Information*

This section includes financial information and disclosures not required by the Governmental Accounting Standards Board and not considered a part of the basic financial statements. It may, however, include information which is required by other entities.

### *DISCRETELY PRESENTED COMPONENT UNITS*

The Rockwall Economic Development Corporation (REDC) represents the City by promoting it as a location for new business. It also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park developed by REDC.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF DISCRETE COMPONENT UNIT GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2011

Net change in fund balances - total governmental funds	\$ (1,997,012)
Amounts reported for governmental activities in the Statement of Activities ("SOA") are different because:	
Capital outlays are not reported as expenses in the SOA.	3,158
The depreciation of capital assets used in governmental activities is not reported in the funds.	(2,256)
Repayment of bond principal is an expenditure in the funds but is not an expense in the SOA.	1,135,000
Bond issuance costs and similar items are amortized in the SOA but not in the funds.	(12,060)
(Increase) decrease in accrued interest from beginning of period to end of period.	18,691
Special termination benefits are reported as the amount earned in the SOA but as the amount paid in the funds	(4,980)
Change in net assets of governmental activities - Statement of Activities	\$ (859,459)

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year									
	2011	2010	2009	2008	2007	2006	2005	2004	2003	2002

City of Rockwall  
*The New Horizon*

March 2, 2011

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Rockwall for the fiscal year ended September 30, 2010, is hereby submitted in accordance with Section 7.18 of the City Charter. The financial statements are presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

Management assumes full responsibility for both the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Rutledge, Crain & Company, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by

management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2010, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements as required by GAAP. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, county seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth International Airport and Love Field in Dallas meet the air transportation needs of the region.

The City currently has a land area of approximately 29.62 square miles and an estimated population of 35,050.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments were adopted as recently as 2005. Policy making and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; planning and zoning, parks and recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in Note 1 of the Notes to the Financial Statements.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when considered from the broader perspective of the specific environment within which the City of Rockwall operates.

## Local Economy

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. With its concentration of commercial and retail development, the City of Rockwall has long drawn shoppers from surrounding areas. In spite of the continued slow economy throughout the nation, Rockwall saw some new businesses open in 2010 and others break ground. The city's revenues increased over the prior year due in part to the new businesses which are described below. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Total property values rose by 2.48%. The most recent five-year average is 6.73% per annum. The City's largest taxpayers include a number of commercial developments. Table 12 in the Statistical Section provides further information on the principal taxpayers. The Rockwall Economic Development Corporation continues to market Rockwall and assist companies looking to locate their business in the City. The year's highlights included:

- Tom Thumb opened a 59,000 square foot "lifestyle" store in May 2010. This marked the first new store for Tom Thumb in several years and the first full service grocery store in the northern area of the city. It opened as the anchor tenant for the Shops at Stone Creek which added an additional 15,000 square feet of neighborhood services retail space. Out parcel development is expected to kick off in 2011.
- After welcoming Presbyterian Hospital of Rockwall in late 2008, more than 78,000 square feet of medical office space has been added in the adjacent area. In addition, a 54,000 square foot assisted living development opened in early 2010. The Presbyterian development has added more than \$55,000,000 to the City's tax rolls.
- Downtown Rockwall benefited from the attention garnered as Rockwall has been named a Texas Main Street City. A number of new retail establishments including Candles by Carol and Bella's House on the Square and the Candy Jar Malt Shop joined to complement the many offerings in the downtown area. The City has seen a 25% increase in sales taxes in the downtown area in the last year.
- Half Price Books joined the retail mix in April 2010 allowing the City to meet a long standing goal of a book store opening in the City.
- The Woodmont Company broke ground on the 100,000 square foot, second phase of their "Plaza" development. They will add retail draws such as Maurice's, Joann Fabrics and Home Goods as well as several restaurant favorites including Freebirds in 2011.
- The City completed annexation of more than 1,000 acres of largely agricultural land in the southeastern quadrant. This area is expected to include frontage on the TxDOT proposed "Outer Loop" project.

## Long-term Planning

The City Council and staff recognize the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

## Financial Policies

The City Council adopted financial policies in 2001 which have guided the City allowing us to build a strong fund balance and reinforcing the need to budget conservatively for both revenues and expenditures. The general fund reserve policy was reviewed and updated more recently in 2009. The policy states the City should maintain no less than 3 months of reserves and will allow reserves in excess of 3.5 months of recurring operating expenditures to be transferred to a capital projects fund to be used to fund future projects. The City has maintained reserves at or above this level for many years. This allows the City to respond to emergencies or downturns while not overburdening the taxpayers. Reserves over the 3.5 month level will be available to fund capital projects in coming years.

## Planning Projects

Having identified the downtown area as a critical component of our long range plan, the City and business and community leaders work with the City's Texas Main Street Manager to coordinate planning efforts and develop interest in locating business downtown and to bring events to the Square. The structured Main Street program provides planning and design opportunities.

The City worked with a consulting firm to prepare an extensive conceptual plan for Planned Development 32 (PD32) which encompasses 60 acres of undeveloped land inside the City's tax increment financing zone and adjacent to the Harbor development. The city recognized the importance of having the conceptual plan ready when the economy improves. The City initiated the zoning process to establish a form based code for the area. It is expected the area will soon see the expansion of the mixed-use concept with retail, restaurants, office and residential spaces as interest from the development community is being expressed.

The Rockwall Economic Development Corporation in conjunction with their Destination 2020 plan has refined the focus and role of their planning committee as well. Their marketing program now includes social media components and targeted marketing aimed at desired industries

## Capital Improvement Planning

Having accepted the report from a street condition study designed to evaluate the condition of and prioritize street repairs; the City increased budgeted funding and began a capital improvement planning process.

Planning is underway for a bond election to be held in November 2011. The ballot will include propositions to provide an athletic complex and downtown accessibility projects in addition to roadway and park projects. The City will hire design and construction management professionals to work with staff and City Council to develop the vision for the projects and cost estimates to ensure the projects if approved can move forward expeditiously and in budget.

## Strategic Planning

Organizationally, the City uses the Balanced Scorecard Methodology for strategic planning. Bi-annually the City conducts a Citizen Satisfaction Survey to document our progress meeting the needs of our citizens. The City employs the C3 methodology of "Customer Centered Culture" which encourages cross department teams to follow a proven course of data compilation and actions that allow the teams to develop product and process improvements. C3 recognizes that the services we provide are ultimately comprised of a number of products and processes and

those must be designed to meet our customer's needs, not what we perceive are their needs. Two project teams presented their reports to Council in 2010 and many of their suggested improvements have been implemented. The City will move ahead with a biannual survey of our residents' opinions regarding our progress on adopted goals and strategies as well as areas of interest for future projects.

## Future Development

### Transportation

The City completed construction of the 205 Bypass roadway project which is officially named "John King Boulevard" in honor of our late council member. Shortly after completion of the final railroad crossing in spring 2010, the Texas Department of Transportation began work on the overpass which will connect the northern and southern roadways and allow additional access to I-30. With construction progressing, it should be completed mid 2012. TxDOT, having completed widening of SH205 (Goliad Street) through the City in early 2010, began the widening project for FM740 through southern Rockwall. City projects underway in 2011 will include the reconstruction of Airport Road, a much traveled east-west roadway which will allow better access to John King Boulevard. Having obtained the release of a segment of FM549 from the State, the roadway renamed "Corporate Crossing" will be widened to provide improved and enhanced access to the City's light industrial area between I-30 and SH276.

The City is a member of a County-wide Consortium which allows County government officials to work with officials of each of the seven cities in the county to further transportation planning efforts. The Consortium meets monthly to discuss funding alternatives for the County's transportation needs, which also involve planning and state participation. The County's bond initiatives allow funding for the advance planning and design of 5 major roadway projects. This will allow those projects to be ready to commence as soon as state funding is allocated for construction.

### Medical Services

Developments in the Horizon Road area have focused on medical services. With the availability of acute care with the opening of Presbyterian Hospital of Rockwall in 2008, and the addition of several new medical buildings with Doctor's suites and state of the art out-patient diagnostic imaging facilities in the past two years, Rockwall has become a regional medical services destination. Additional ancillary medical office buildings and long term care facilities are planned for near term development. Arbor House Assisted Living Center opened in 2010 and will be joined by another such facility in 2011.

### Retail / Entertainment

"The Harbor" public improvements, situated on the shores of Lake Ray Hubbard at I-30, were completed in 2007. A public/private partnership provided opportunities for new retailers in the Bella Harbor development as well as public open space and a full-service Hilton Hotel and Conference Center. The Conference Center has been busy with many more events scheduled for 2011. The development has become a regional entertainment destination.

In conjunction with the private development, the City established a tax increment financing (TIF) zone on an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The City partnered with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF to finance the public projects. A new owner and property manager in late 2010 have focused on adding several new restaurants to the mixed use development including Paradise Burgers, Urban Slice and Luna De Noche. The City completed construction of new boat docks to enhance the development and allow boaters easy access to come into the entertainment area after spending time on the lake.

The City's extremely successful Concert on the Lake Series managed by the City's Recreation Department draws approximately 5,000 attendees each Thursday evening for a free concert. The series extended 16 weeks in 2010. Surveys conducted during the events gathered data regarding the distance from which visitors traveled and approximate retail and restaurant dollars expended while here. The term "Live Music Capital of North Texas" has been coined to describe the many opportunities available year round.

Founder's Day on the Downtown Square draws visitors to shop merchant's wares, see artist's exhibits, learn about city departments and enjoy free concerts all day. The event culminates with a concert by a nationally recognized artist, also free to all who attend.

A Farmer's Market brings visitors downtown Saturdays from May to October. In 2010 the City added an Art Fair each month. The second annual "Rib Rub" was held in fall 2010 drawing more than 50 teams to the downtown square. The Main Street Advisory Board and "Friends of Downtown Rockwall", citizen volunteer group, are working to plan more special events downtown.

The City is fast becoming the triathlon destination as well. In addition to several locally sponsored races, the City welcomed the Toyota US Open Triathlon in fall 2010. The event saw more than 1,200 participants including a contingent of international Olympians take advantage of our lake access and terrain to complete the final event of the annual seven race series. The City has been notified the event will return for 2011. Early series races will be held in cities including Chicago, Miami and Los Angeles culminating with the Rockwall race and the final prize standings.

### Utilities

The water and sewer rates were increased in 2010 and staff will not be recommending a rate increase for 2011. The City purchases treated water as a founding member city of the North Texas Municipal Water District. Construction is ongoing for the Squabble Creek sewer system which will connect to the regional sewer interceptor system. A number of main extension projects are being undertaken to provide water and sewer service to annexed areas of the City.

The City's water system is recognized with the Texas Commission on Environmental Quality's "Superior" rating.

The City is actively working to acquire the right to serve recently annexed areas which are currently served by wholesale water supply corporations and an investor owned utility. It remains the City's desire to be the provider for all residents in our city limits.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below. Revenue debt has been excluded since system charges are used to retire the debt.

Outstanding General Obligation Debt at 9-30-10(net of Debt Service)	\$101,747,179
Estimated Population	35,050
G.O. Debt Per Capita	\$2,903
Net G.O. Debt per Assessed Value	3.30%

The City seeks a bond rating update as new debt is issued. The current ratings are shown below:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	AA-	A-	A-
Moody's Investor Service Inc.	Aa2	Aa3	A1

## **AWARDS AND ACKNOWLEDGEMENTS**

### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2009. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for each of the last twenty consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

  
Julie Couch  
City Manager

Mary Smith, CPA

**Independent Auditors' Report on Financial Statements**

To the City Council  
City of Rockwall, Texas

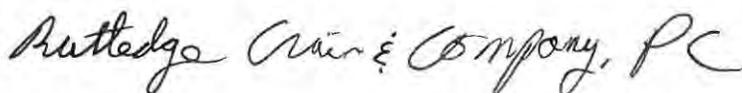

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Rockwall, Texas' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 19 through 29 and 71 through 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Rockwall, Texas financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## Management's Discussion and Analysis

This page is left blank intentionally.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2010. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total net assets were \$171,048,458 at September 30, 2010.
- During the year, the City's expenses were \$1,568,653 less than the \$39,949,481 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2010 by \$105,198,540 (net assets). Of this amount \$4,308,457 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$9,159,333 or approximately 38.80 percent of the total general fund operating expenditures and transfers out.
- The City's total outstanding general obligation bonds and certificates of obligation (excluding enterprise and component unit debt) decreased by \$4,458,038 during fiscal year 2010. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

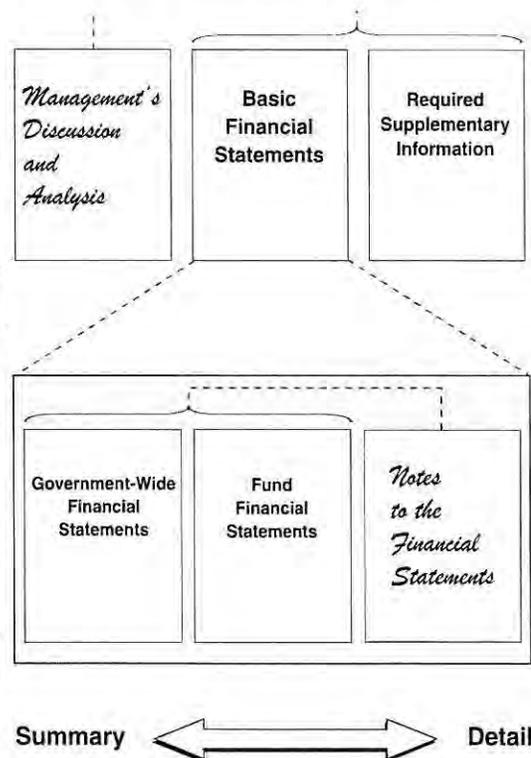

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City of Rockwall’s Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>		
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>
<i>Scope</i>	Entire City government (except fiduciary funds) and the City's component units	Activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private business.
<i>Required financial statements</i>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>◆ Balance Sheet</li> <li>◆ Statement of revenues, expenditures &amp; changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of revenues, expenses &amp; changes in fund net assets</li> <li>◆ Statement of cash flows</li> </ul>
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

### **Government-wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall’s finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the city of Rockwall’s assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City’s property tax base and the condition of the City’s infrastructure, to assess the overall health or financial condition of the City.

The *statement of activities* presents information showing how the City’s net assets changed during the most recent fiscal year. All of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City’s basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services provide funds for most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City’s water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City’s Type A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit’s Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements can be found on pages 33-35 of this report.

## **Reporting the City’s Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City’s most significant funds—not the City as a whole. *Funds* are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City’s basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City’s programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government’s near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 20 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General fund and Debt Service fund are considered major funds. Data from the other 18 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City’s enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City’s self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City’s retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City’s intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City’s fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City’s government-wide financial statements because the City cannot use these assets to finance its operations.

*Notes to the financial statements*-The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report presents certain *required supplementary information* concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2010, the City's net assets (assets exceeding liabilities) totaled \$171,048,458. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

The largest portion of the City's net assets (83.82% percent) reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets which is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1  
Net Assets

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2010	2009	2010	2009	2010	2009
Current and other assets	\$ 29,132,797	\$ 35,699,050	\$ 22,378,392	\$ 30,640,868	\$ 51,511,189	\$ 66,339,918

Total net assets	<u>\$105,198,540</u>	<u>\$103,629,886</u>	<u>\$ 65,849,918</u>	<u>\$ 67,149,256</u>	<u>\$ 171,048,458</u>	<u>\$170,779,142</u>

An additional portion of the City of Rockwall's net assets, \$18,010,342 or 10.53% represents resources that are subject to external restrictions on how they may be used. The net assets which are *Restricted for capital projects* are due to debt which was issued as projects are designed and construction is beginning. The remaining unrestricted net assets, \$9,648,560, may be used to meet the government's ongoing obligations to citizens and creditors.

The following table will document key elements of the increase in total net assets for the year ended September 30, 2010.

**Table 2**

## Governmental Activities

The City's total revenues of governmental activities were \$38,437,698. A significant portion 43.6%, of the City's revenues came from property taxes. Another 28.2% of revenue came from sales taxes. Ad valorem property tax revenues as a percent of revenues continue to increase each year due to the addition of new properties and increased valuation throughout the City as well as increases in the tax rate to pay debt service. Assessed values of the properties in the City increased by \$74,671,525 or 2.48%. The City adopted a property tax rate of 50.31 cents per \$100 of assessed valuation for fiscal year 2010. The rate did not increase over the prior year's rate. Sales tax revenue increased over the prior year by 5.54% and was reflective of the addition of Costco Wholesale and other new retail business openings.

The economy while slower than in years past began to improve. The national decline in new housing starts had been felt on the local level but 2010 saw a 25% increase in residential building permits. This represented the largest number of housing starts since 2006. The City experienced little commercial development during the fiscal year but revenues were in line with prior years. Over the past several years, Rockwall County, of which the City of Rockwall is the County seat, was one of the fastest growing counties in America, and the fastest growing county in Texas. The City's investment earnings included in the "other" revenues above were reflective of today's interest rate environment.

### Comparative Expenses – Governmental Activities

The total cost of all programs and services were \$38,380,829. Of these costs \$8,609,827 (22.4%) was for the Police Department. The department added a new officer and a dispatcher in fiscal year 2010 and upgraded their dispatch and mobile reporting software. Administrative departments including Administration, Human Resources, and Internal Operations had combined costs of \$6,862,780 (17.9%). Public Works costs were \$6,669,448 (17.4%) and reflected ongoing maintenance focused projects.

### Business-Type Activities

The City's business-type activities recorded a decrease of \$1,299,338 in net assets. Retail water sales increased by 4.78% over the prior year but are not back to the consumption levels seen before the extended period of near record drought conditions in 2007-08. The City's rates were increased in January 2010 which led to the additional revenue this year. The City implemented conservation water rates in 2001 and increases them each time new rates are adopted. Sewer charges were not affected significantly because the City uses winter averaging to calculate sewer billing. Water and sewer charges were \$11,932,337. The ending working capital, excluding restricted assets and liabilities payable from restricted assets, for the water and sewer fund was \$3,590,491.

Water and sewer impact fees revenue totaled \$508,124 for the fiscal year. Impact fees, paid by developers, are designed to reduce the system's initial costs in building assets. Residential development is assessed an impact fee at the building permit stage while commercial projects are assessed at the start of site development.

The City's water system has achieved the "Superior" rating by the Texas Commission on Environmental Quality.

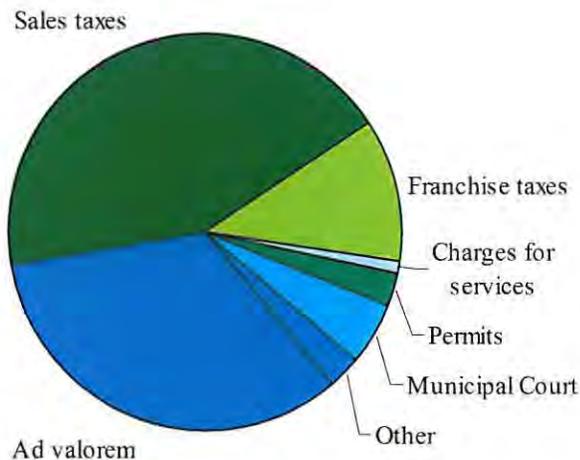

**Component Units**

The Rockwall Economic Development Corporation (REDC) reported revenues primarily from a ½ cent sales tax, authorized under the Type A Corporation statutes, of \$3,493,708. Assets managed by the corporation include an inventory of over 310 acres of land, zoned for light industrial uses and available for sale and an industrial building currently leased and also available for sale. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

**ANALYSIS OF INDIVIDUAL FUNDS**

The City's *General Fund* reported an ending unreserved fund balance of \$9,159,333. The largest source of general fund revenue is sales tax, it accounted for \$10,366,522 (43.7%) of total general fund revenue. Ad valorem property taxes account for \$7,917,126 (33.4%) of general fund revenues. The City maintains the unreserved fund balance at or above acceptable levels as defined within the City's financial policies. This "reserve" balance allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

**Revenues by Source – General Fund**

The City's *Debt Service Fund* reported an increase in fund balance of \$17,734. Property tax collections for debt service requirements were \$8,317,432. This is required in order to pay debt service payments on bonds issued to construct numerous road and parks projects completed in 2009 or underway in 2010. After extensive study, the City adopted a Roadway Impact Fee in fiscal year 2009 which provided \$232,702 in new revenue to this fund in fiscal year 2010.

## GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2010, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases or decreases in revenues when compared to original projections. With the adjustments made to the budget, the original budgeted expenditures of \$21,875,100 increased to \$21,951,150 while revenues increased from \$22,829,800 to \$23,200,650. The City of Rockwall had originally estimated the ending general fund balance to be \$8,331,129 however due to the budget adjustments mentioned above and a planned reduction in fund balance for equipment for the police department, the fund balance was re-estimated to be \$8,209,929.

General fund revenues were \$23,731,553, an increase of \$530,903, reflecting strong sales tax collections in the latter months of the budget year. Actual general fund total expenditures were \$21,863,517 a decrease of \$87,633 less than final projections. This allowed the City to end the year with a fund balance of \$9,159,333, an increase of \$949,406 over the projected balance. The higher fund balance is attributable to management's conservative projections of both revenues and expenditures.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At the end of the fiscal year 2010 the City had \$274,791,741 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines. The balances shown below are net of accumulated depreciation.

**Table 3**  
**Capital Assets at Year-End**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2010	2009	2010	2009	2010	2009
Land	\$13,867,438	\$ 5,692,561	\$ 799,533	\$ 799,533	\$ 14,666,971	\$ 6,492,094
Buildings	14,025,618	9,288,285	89,668	95,102	14,115,286	9,383,387
Improvements other than buildings	21,754,264	21,622,268	70,870,766	60,685,467	92,625,030	82,307,735
Machinery & Equipment	5,020,277	5,263,317	714,704	708,000	5,734,981	5,971,317
Infrastructure	126,863,500	79,401,906	-	-	126,863,500	79,401,906
Construction in Progress	5,028,343	61,559,536	7,904,039	12,921,047	12,932,382	74,480,583
Wastewater treatment facilities	-	-	7,853,592	8,102,439	7,853,592	8,102,439
	<u>\$186,559,440</u>	<u>\$182,827,873</u>	<u>\$ 88,232,302</u>	<u>\$ 83,311,588</u>	<u>\$274,791,742</u>	<u>\$266,139,461</u>

The City's capital improvement program included a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were completed in 2010 reflected in the reduction of construction in progress above. A number of drainage projects were anticipated during the five-year planned capital improvement period.

The City held a bond election in November 2005 which funded road, park and fire projects in excess of \$64,000,000. In addition to the 205 Bypass project, the City was authorized to move forward with several neighborhood parks projects and the acquisition of land for two large regional parks. Progress was made and includes the purchase of land for a large park in the northern area of the City, and completed construction on all of the neighborhood parks.

Construction in progress at September 30, 2010 for governmental activities included the ongoing construction costs associated with the Airport Road and Discovery Boulevard projects, the addition of a public safety radio tower which is nearing completion and various other improvements.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extension of sanitary sewers into new areas of the city. Work commenced on a project to connect the Squabble Creek treatment plan to the regional wastewater interceptor project and will continue into 2011.

Additional information regarding the City's capital assets is found in note IV-C on pages 54-56.

Debt

At year end, the City had \$148,305,079 in bonds and capitalized leases shown in Table 4.

**Table 4  
City of Rockwall Outstanding Debt**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2010	2009	2010	2009	2010	2009
General obligation bonds	\$ 83,271,784	\$ 86,179,822	\$ 135,178	\$ 135,178	\$ 83,406,962	\$ 86,315,000
Certificates of obligation	20,875,000	22,425,000	25,890,000	25,890,000	46,765,000	48,315,000
Revenue bonds	-	-	10,775,000	11,670,000	10,775,000	11,670,000
Capital Lease obligations	278,034	-	7,080,083	7,431,754	7,358,117	7,431,754
	<u>\$ 104,424,818</u>	<u>\$108,604,822</u>	<u>\$ 43,880,261</u>	<u>\$ 45,126,932</u>	<u>\$148,305,079</u>	<u>\$153,731,754</u>

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 3.30% or \$2,903 per capita. This is a reduction from the prior year due to the approximately 9.2% population increase experienced as a result of annexation efforts.

The City's bond ratings at September 30, 2010 were as follows:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	A+	A-	A-
Moody's Investor Service Inc.	Aa2	Aa3	A1

Additional information on the City of Rockwall's long-term debt can be found in note IV-E, on pages 58-64 of this report.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials considered many factors when setting the fiscal year 2011 budget, tax rate, and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the slowed growth in our community and the impact of the national economic recession. Rockwall saw only a few new commercial/retail business openings in 2010 which would positively impact sales tax revenues in fiscal year 2011. With this in mind and to continue the City's conservative budget philosophy,

sales tax projections were flat. Slowed development caused the City to be very conservative in projecting building permit revenues as well. Commercial building starts were strong in late 2010 but are not expected to impact new year revenues. Interviews with local builders led the City to project continued slow home starts for the coming year.

The City of Rockwall's citizens enjoy above-average income levels per household. This combined with the City's proximity to major highways, and the Dallas-Ft.Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and "hometown" atmosphere. The Rockwall Economic Development Corporation works to attract businesses with relocation incentives as well as business retention incentives such as workforce training opportunities. The City's unemployment rate was 6.6%, well below the national totals.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2011. The budgeted revenues for fiscal year 2011 total \$23,335,700 for the general fund. Ad valorem tax revenue is determined by two factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. New debt was not issued in 2010 and the 2011 issuance will be significantly less than in years 2006 – 2009 due to completion of the majority of voter approved projects. The property tax rate was maintained at 50.31 cents per hundred dollars of assessed value.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. These policies were reviewed by the City Council in 2009 and certain provisions related to the City's fund balance were changed. The amended policy provides that the General Fund reserves should be no less than 3 months of recurring operating appropriations. In addition, the policies provide that should an audited fund balance at the end of the fiscal year exceed 3.5 months, the City Council may elect to transfer a portion to a Capital Projects Fund. The budget as adopted for fiscal year 2011 projects a fund balance of approximately 4.9 months of recurring operating expenditures.

The 2011 budget expenditures includes absorbing the increasing costs of employee health and retirement costs as well as increasing police patrol overtime and street maintenance expenditures. The budget did not include significant new programs due to budgetary constraints.

The water and sewer rate study has been updated and the budget does not anticipate an increase in those rates. A number of capital projects to continue system expansion and the system are being planned for fiscal year 2011 while operational costs will be slightly reduced from prior year levels.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087, Email [msmith@rockwall.com](mailto:msmith@rockwall.com).

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City of Rockwall, Texas, was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer service as a proprietary function of the City.

The accounting policies of the City of Rockwall, Texas, conform to generally accepted accounting principals issued by the Governmental Accounting Standards Board which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City of Rockwall is a home rule municipality governed by an elected mayor and six member City Council who appoint a City Manager. The City's (primary government) financial statements include its component units. The accompanying basic financial statements comply with the provisions of the GASB Statement No. 14, "The Financial Reporting Entity," in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the City's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to or impose a financial burden on the City.

**Discretely Presented Component Units**

The Rockwall Economic Development Corporation (REDC) is governed by a nine member board of directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half cent sales tax to support its activities.

The Rockwall Technology Park (RTP) provides repair and maintenance of the common area within the park being developed by REDC. RTP's board of directors is composed of representatives of the landowners. At September 30, 2010, REDC owned the majority of the land and the board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City.

The funds of both REDC and RTP are composed of governmental fund types. Stand alone financial statements for RTP as of and for the fiscal year ended September 30, 2010 are not prepared.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e. the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic *resources measurement focus* and the accrual *basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance, and worker's compensation coverage services provided to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

Capital Projects Funds account for the acquisition of capital assets or the construction of major capital projects (such as streets and sidewalks) not being financed by proprietary funds.

Fiduciary funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and wastewater function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating revenues* and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and worker compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than 5 years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.
- e. Certificates of deposit issued by a state or national bank domiciled in the state of Texas or a savings bank domiciled in the state of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items 1 – 4. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least of the 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the state of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net assets value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

The City holds various mortgage backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of 1 year or more, when purchased, are stated at fair value. Short term investments are stated at cost or amortized cost.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter fund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1 by the City based on the January 1 property values as assessed by the Rockwall County Central Appraisal District. Taxes are due without penalty until January 31, of the next calendar year. After January 31 the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

3. Inventories and prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2010

Capital assets of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Buildings	20 - 30 years
Building Improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

6. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 6.67 hours per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of 3 days sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of 3 days sick leave to one day vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of 3 days sick leave to one day vacation leave and shall be paid to the employee if he/she has 10 or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. Compensated absences are reported in governmental funds only if they have matured for example, as a result of employee's resignation and retirement.

7. Long-term obligations

In the government-wide financial statements, and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and are deferred in the funds." The details of this \$1,526,537 difference are as follows:

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

Bonds issuance costs:  
City

\$1,526,537

**III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain Special Revenue Funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During 2010, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.
6. The City did not adopt budgets for certain Special Revenue Funds. These unbudgeted Special Revenue Funds were as follows:  
  
Emergency Siren Fund  
Downtown Improvement Fund  
Art in Public Places Fund
7. Capital Project funds were not budgeted. Since project length financial plans usually extend into two or more fiscal years, this makes comparisons confusing and misleading.

B. Deficit fund equity

The following funds had deficit fund balances at September 30, 2010:

Harbor Debt Service Fund	\$164,739
Employee Benefits Internal Service Fund	\$750,207

The deficit in the Harbor Debt Service Fund was caused by property tax revenue delays, and will be covered by additional revenues in the future. The deficit in the Employee Benefits fund was caused by unanticipated health care cost increases, and will be covered by additional transfers from the general fund.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

**IV. DETAILED NOTES ON ALL FUNDS**

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2010, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$1,235,723 which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2010, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of September 30, 2010, is as follows:

Fund	Receivable	Payable
General Fund	\$1,036,953	\$14,500
Nonmajor governmental funds	--	504,979
Internal Service Funds	--	517,474
Total Internal Service Funds	1,036,953	1,036,953
Totals	\$1,036,953	\$1,036,953

The outstanding balances between funds result primarily from the time delay between the dates that interfund goods and services are provided and payments between funds are made. These are expected to be collected within one year.

The composition of interfund transfers for the year ended September 30, 2010, is as follows:

Fund	Transfer In	Transfer Out
Major Governmental Funds		
General Fund	\$721,200	\$2,056,750
Debt Service Fund	--	125,000
Nonmajor Governmental Funds	757,635	122,300
Water and Sewer Enterprise Fund	--	1,511,785
Internal Service Funds	2,337,000	--
Totals	\$3,815,835	\$3,815,835

Transfers are used to move unrestricted revenues to finance various programs or capital projects that the City must account for in other funds in accordance with budgetary authorizations.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

E. Long-term debt

The City issues general obligation debt ( in the form of general obligation bonds, certificates of obligation, contractual obligations, and notes payable) to provide funds for the acquisition and construction of major capital facilities. General obligation debt has been issued for both governmental and business-type activities. These issues are direct obligations and pledge the full faith and credit of the City.

General Obligation Debt Outstanding as of September 30, 2010, is as follows:

Purpose	Original Amount	Year of Issue	Final Maturity	Interest Rate	Balance 9/30/10
<b>Governmental Activities</b>

Revenue bonds	11,670,000	--	(895,000)	10,775,000	740,000
Less deferred premium (discount)	46,741	--	(14,216)	32,525	2,639
Total bonds payable	37,741,919	--	(1,816,178)	35,925,741	1,694,601
Capital lease obligations	7,431,754	--	(351,671)	7,080,083	370,004
Compensated absences	91,731	147,663	(129,201)	110,193	11,599
<b>Business-type activities</b>	<b>\$45,265,404</b>	<b>\$147,663</b>	<b>(\$2,297,050)</b>	<b>\$43,116,017</b>	<b>\$2,076,204</b>

For the governmental activities, claims and judgements and compensated absences are generally liquidated by the general fund. The government-wide statement of activities includes \$740,000 of revenue bonds and \$370,004 of capital leases due within one year for business-type activities in "liabilities payable from restricted assets" on that same statement.

**Conduit Debt Obligations**

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial and housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2010, there was one series of revenue bonds outstanding. The aggregate principal amount payable for the issue was \$1,700,000.

V. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of the City employees and their covered dependents and minimize the total cost of annual medical insurance to the municipality. Medical claims in any one year exceeding \$75,000 per covered individual or, approximately \$3,238,610 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2010.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers compensation plan. Under this plan, worker compensation insurance is provided in accordance with State statutes to all City employees. To protect the assets of the plan from a catastrophic claim the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a cap of \$600,000 per year.

The Worker's Compensation fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported, are not believed to be significant to the City's financial statements.

	Employee Benefits		Worker's Compensation	
	2010	2009	2010	2009
Claims payable beginning of the year	\$173,703	\$176,172	\$17,454	\$10,697
Claims incurred	2,717,990	2,427,029	64,996	90,752
Payment on claims	(2,743,678)	(2,429,498)	(67,047)	(83,995)
	<u>\$148,015</u>	<u>\$173,703</u>	<u>\$15,403</u>	<u>\$17,454</u>

Commercial insurance is purchased for the other risks of losses to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

**B. North Texas Municipal Water District**

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney and Royse City (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment processing and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams and underground water, for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest equity investments and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek and, in 1978 entered into an agreement with the District for the

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2010

construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable NTMWD to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the Annual Budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the Paying Agent and the Registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2010, is \$7,080,084. See Note IV E for the annual requirements to amortize the bonds as of September 30, 2010.

With respect to the ground storage reservoir discussed above, the Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of the related operating expenses and debt service payments. While the City anticipates its share of these payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

**C. Contingent Liabilities and Commitments**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 5 above, the general revenues of the City are contingently liable for the \$25,118,216 payable in General Obligation Bonds which are currently outstanding and recorded as obligations of the Enterprise Fund.

The City contracts for garbage disposal with a third party. Under the terms of the agreement the city bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2010, these commitments totaled \$2,173,020.

**E. Employee retirement systems and pension plans**

**1. Plan Description**

The City provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 827 currently administered by TMRS, an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the city are within the options available within the options available in the governing state statutes of TMRS.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2010

TMRS issues a publically available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the system. This report may be obtained by writing to TMRS, P.O. Box 149153, Austin, Texas 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at [www.TMRS.com](http://www.TMRS.com).

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant as often as annually another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

Members can retire at ages 60 and above with 5 or more years of service or with 20 years of service regardless of age. A member is vested after 5 years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

2. Contributions

The contribution rate for the employees is 7%, and the City matching ratio is currently 2 to 1, both as adopted by the governing body of the City. Under the state law governing TMRS, the actuary annually determines the City contribution rate. This rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (over funded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance to budget for it, there is a one-year delay between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2008 valuation is effective for rates beginning January 2010.

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$50,500 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a board of directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 38 active participants currently covered by the Fund and payments are being made to 22 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments, however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P. O. Box 12577, Austin, Texas, 78711.

## Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

## Combining Statements and Budget Comparisons as Supplementary Information

This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

## NONMAJOR GOVERNMENTAL FUNDS

### SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Cemetery - established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation - established to account for donations, court security fees, and forfeitures.

Recreational Development - established to account for the annual lease income from marinas and golf course.

Radio System - established to account for revenues and expenditures for the support of the City's radio system.

Street Improvements - established to account for the proceeds of street improvement assessments.

Hotel Motel Tax - established to account for the annual income from hotel motel taxes.

Fire Equipment - established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation - established to account for funds received from airport operations and related expenses.

Recycling - established to account for funds to be used for the City's recycling program.

Emergency Siren — established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Downtown Improvement - established to account for revenues and expenditures related to the City's efforts to revitalize the downtown square.

Art in Public Places - established to account for donations received for developing art displays in public areas such as parks.

Special Crimes Unit - established to account for revenues and expenditures related to a county-wide crime task force.

### *DEBT SERVICE FUNDS*

Debt Service Funds are used to account for the accumulation of resources and payment of general, certificate, & contractual obligation bond principal and interest from governmental resources.

NONMAJOR GOVERNMENTAL FUNDS  
(Continued)

*CAPITAL PROJECTS FUNDS*

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital Projects - established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

Equipment Acquisition — established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

205 Bypass Project — established to account for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

G.O. Bonds Capital Projects — established to account for street and drainage projects using proceeds from the issuance of bonds.

*INTERNAL SERVICE FUNDS*

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Employee Benefits Fund — established to account for the financing of a medical self-insurance fund to pay medical and dental claims of the City's employees and their covered dependents.

Workers' Compensation Fund — established to account for the costs of the workers' compensation self-insurance program for the City.

*AGENCY FUND*

Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Special Escrow Agency Fund - established to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

## Other Supplementary Information

This section includes financial information and disclosures not required by the Governmental Accounting Standards Board and not considered a part of the basic financial statements. It may, however, include information which is required by other entities.

### *DISCRETELY PRESENTED COMPONENT UNITS*

The Rockwall Economic Development Corporation (REDC) represents the City by promoting it as a location for new business. It also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park developed by REDC.

**CITY OF ROCKWALL, TEXAS**

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2010

Net change in fund balances - total governmental funds	\$	276,794
Amounts reported for governmental activities in the Statement of Activities ("SOA") are different because:		
Capital outlays are not reported as expenses in the SOA.		1,475
The depreciation of capital assets used in governmental activities is not reported in the funds.		(2,950)
Repayment of bond principal is an expenditure in the funds but is not an expense in the SOA.		1,085,000
Bond issuance costs and similar items are amortized in the SOA but not in the funds.		(12,060)
(Increase) decrease in accrued interest from beginning of period to end of period.		18,186
Compensated absences are reported as the amount earned in the SOA but as the amount paid in the funds.		4,719
Change in net assets of governmental activities - Statement of Activities	\$	<u>1,371,164</u>

The accompanying notes are an integral part of this statement.

# STATISTICAL SECTION

This part of the City of Rockwall, Texas's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<b>Contents</b>	<b>Page</b>
Financial Trends	121
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	130
These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.	
Debt Capacity	138
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	143
These schedules offer demographic and economic indicators to help the reader understand how the City's financial activities take place and to help make comparisons over time and with other governments.	
Operating Information	146
These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

TABLE D-18

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year									
	2010	2009	2008	2007	2006	2005	2004	2003	2002	2001
Maximum Rate	2.50	2.50	2.50	2.50	2.50	2.50	2.50	2.50	2.50	2.50

City of Rockwall  
*The New Horizon*

March 18, 2010

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Rockwall for the fiscal year ended September 30, 2009, is hereby submitted in accordance with Section 7.18 of the City Charter. The financial statements are presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

Management assumes full responsibility for both the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Rutledge, Crain & Company, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2009, are free of material misstatement. The independent audit

involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2009, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements as required by GAAP. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, county seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth International Airport and Love Field in Dallas meet the air transportation needs of the region.

The City currently has a land area of approximately 28.09 square miles and an estimated population of 32,103.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments have been adopted as recently as 2005. Policymaking and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; planning and zoning, parks and recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in Note 1 of the Notes to the Financial Statements.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when considered from the broader perspective of the specific environment within which the City of Rockwall operates.

### **Local Economy**

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. With its concentration of commercial and retail development, the City of Rockwall has long drawn shoppers from surrounding areas. In spite of the down economy throughout the nation, Rockwall saw some new businesses open in 2009. The city's revenues were flat where they may otherwise have fallen if not for the new businesses which are described below. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Total property values rose by 4.06%. The most recent five-year average is 6.75% per annum. The City's largest taxpayers include a number of commercial developments. Table 12 in the Statistical Section provides further information on the principal taxpayers. The Rockwall Economic Development Corporation continues to market Rockwall and assist companies looking to locate their business in the City. The year's highlights included:

- Costco Corporation completed construction on a Costco Wholesale store in Rockwall. The 149,000 square foot store enhanced Rockwall's role as a regional shopping destination.
- Presbyterian Hospital of Rockwall having opened their acute care facility in December 2008, completed construction of approximately 40,000 square feet of medical office space in the adjacent area in 2009. Other similarly sized private medical offices were constructed during the year.
- Shenaniganz, calling itself an "eater-tainment destination opened in late in 2008 and includes bowling, laser tag, an arcade, rock climbing, go carts and restaurant areas.
- Downtown Rockwall benefited from the attention garnered as Rockwall was named a Texas Main Street City in October 2008. The program officially kicked off with a visit by the First Lady of Texas in spring 2009. A number of new restaurants including Restaurant Ava, Bin303, El Cayote Rojo and Texas Roast joined the downtown area. Zanata's Restaurant doubled their seating area.
- Ground was broken for the Shops at Stone Creek and their anchor tenant, Tom Thumb. The approximately 59,000 square foot "lifestyle" format store is expected to open in May 2010. The store is expected to draw customers from surrounding towns as well. More than 15,000 square feet of retail space adjoins the store with out-parcels available.
- Half Price Books will join the retail mix in April 2010, opening a location in the Rockwall Crossing shopping center. This announcement allowed the City to meet a long standing goal of a book store opening in the City.
- The City completed the annexation process, after three years of planning, for the Lake Rockwall Estates area. This area includes over 3,000 residents who will now receive city services. In anticipation of this annexation, the City conducted studies and worked with residents to address long standing needs and plan for improvements to the area in the near and long-term.

## Long-term Planning

The City Council and staff recognize the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

## Financial Policies

The City Council adopted financial policies in 2001 which have guided the City allowing us to build a strong fund balance and reinforcing the need to budget conservatively for both revenues and expenditures. The general fund reserve policy was reviewed and updated in 2009. The policy states the City should maintain no less than 3 months of reserves and will allow reserves in excess of 3.5 months of recurring operating expenditures to be transferred to a capital projects fund to be used to fund future projects. The City has consistently maintained reserves at or above this level for many years. This allows the City to respond to emergencies or downturns while not overburdening the taxpayers. Reserves over the 3.5 month level will be available to fund capital projects in coming years.

## Planning Projects

Having identified the downtown area as a critical component of our long range plan, the City working with business and community leaders coordinated an effort to be named a Texas Main Street City and is pursuing the planning and design opportunities this program provides.

The City worked with a consulting firm to prepare an extensive conceptual plan for Planned Development 32 (PD32) which encompasses 60 acres of undeveloped land inside the City's tax increment financing zone and adjacent to the Harbor development. The city recognizes the importance of having the conceptual plan ready when the economy improves. The area is expected to include an expansion of the mixed-use concept with retail, restaurants, office and residential spaces.

The city accepted the report from a street condition study to better evaluate the priorities for needed street repairs. The study results will be employed as the City develops future maintenance budgets and capital improvement programs.

The Rockwall Economic Development Corporation refined their vision in their Destination 2020 plan in 2008. This comprehensive document includes demographics, target industries, marketing strategies, competition, site selection criteria, and alliances among its parameters. The REDC hired a Marketing Manager in 2009 to better position them to attract and retain industry.

## Strategic Planning

Organizationally, the City uses the Balanced Scorecard Methodology for strategic planning. Bi-annually the City conducts a Citizen Satisfaction Survey to document our progress meeting the needs of our citizens. The City employs the C3 methodology of "Customer Centered Culture" which encourages cross department teams to follow a proven course of data compilation and actions that allow the teams to develop product and process improvements. C3 recognizes that the services we provide are ultimately comprised of a number of products and processes and those must be designed to meet our customer's needs, not what we perceive are their needs. Two project teams presented their reports to Council in 2009 and many of their suggested improvements have been implemented, with more teams starting in late 2009.

## Future Development

### Transportation

The City has nearly completed the construction of the 205 Bypass roadway project which is officially named "John King Boulevard" in honor of our late council member. The road includes one railroad crossing which is expected to be completed in spring 2010. Texas Department of Transportation has begun work on the overpass which will connect the northern and southern roadways and allow additional access to I-30. It is expected to be completed mid 2012. TxDot will complete work on the widening of SH205 (Goliad Street) through the City in early 2010. The construction of FM740 through southern Rockwall will commence in 2010 also. City projects under construction in 2010 will include the reconstruction of Airport Road, a much traveled east-west roadway which will allow better access to John King Boulevard and the widening of a section of FM549.

The City is a member of a County-wide Consortium which allows County government officials to work with officials of each of the seven cities in the county to further transportation planning efforts. The Consortium meets monthly to discuss funding alternatives for the County's transportation needs, which also involve planning and state participation. The County bond initiative which met with positive voter approval allows funding for the advance planning and design of 5 major roadway projects. This will allow those projects to be ready to commence as soon as state funding is allocated for construction.

### Medical Services

Developments in the Horizon Road area have focused on medical services. With the opening of Presbyterian Hospital of Rockwall in 2008, acute care is available in the City. Several new medical buildings with Doctor's suites joined state of the art out-patient diagnostic imaging facilities in the past two years. Ancillary medical office buildings and long term care facilities are planned for near term development. This corridor has developed into a regional medical destination. Arbor House Assisted Living Center opened in

### Retail / Entertainment

"The Harbor" public improvements, situated on the shores of Lake Ray Hubbard at I-30, were completed in 2007. A public/private partnership provided opportunities for new retailers in the Bella Harbor development as well as public open space and a full-service Hilton Hotel and Conference Center. A number of conferences have used the facilities with many more scheduled for 2010. The development has become a regional entertainment destination.

In conjunction with the private development, the City established a tax increment financing (TIF) zone in an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The City partnered with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF to finance the public projects.

The City's Concert on the Lake Series managed by the City's Recreation Department draws approximately 5,000 attendees each Thursday evening for a free concert. The series was extended to 22 weeks in 2009. Surveys conducted during the events gathered data regarding the distance from which visitors traveled and approximate retail and restaurant dollars expended while here.

Founder's Day on the Downtown Square draws visitors to shop merchant's wares, see artist's exhibits, learn about city departments and enjoy free concerts all day. The event culminates with a concert by a nationally recognized artist, also free to all who attend.

A Farmer's Market brings visitors downtown weeks during the year. In 2010 the City will be adding an Art Fair each month. The first annual "Rib Rub" was held in fall 2009. The Main Street Advisory Board and "Friends of Downtown Rockwall", citizen volunteer group, are working to plan special events downtown.

### Facilities

Construction was completed on Fire Stations 3 and 4, approved by voters in 2005. The stations were dedicated to two long time volunteer firefighters, Mr. Bennie Tanner and Mr. Paul Merritt respectively. With the addition of these stations the City continued the transition to a combination paid/volunteer department by adding several fully paid shift positions.

The Rockwall Police Community Services Office was rededicated in memory of long time volunteer and supporter John Fitzwater Sr.

### Utilities

The water and sewer rates which were increased in 2009 are being reviewed and staff will be recommending a rate increase for early 2010. The City purchases treated water as a founding member city of the North Texas Municipal Water District. Construction is ongoing for the Squabble Creek sewer system which will connect to the regional sewer interceptor system. A number of main extension projects are being undertaken to provide water and sewer service to annexed areas of the City.

The City's water system was recognized with the Texas Commission on Environmental Quality's "Superior" rating in 2008.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below. Revenue debt has been excluded since system charges are used to retire the debt.

Outstanding General Obligation Debt at 9-30-09(net of Debt Service)	\$107,527,586
Estimated Population	32,103
G.O. Debt Per Capita	\$3,349
Net G.O. Debt per Assessed Value	3.57%

The City seeks a bond rating update as new debt is issued. The current ratings are shown below:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	AA-	A-	A-
Moody's Investor Service Inc.	A1	A2	A2

## AWARDS AND ACKNOWLEDGEMENTS

### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2008. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for each of the last nineteen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Julie Couch  
City Manager

Mary Smith, CPA  
Director of Finance

**Independent Auditors' Report on Financial Statements**

To the City Council  
City of Rockwall, Texas

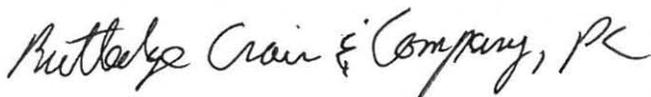

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas as of and for the year ended September 30, 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Rockwall, Texas' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas as of September 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis identified as Required Supplementary Information in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements which collectively comprise the City of Rockwall, Texas' basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2009. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total net assets were \$170,779,142 at September 30, 2009.
- During the year, the City's expenses were \$12,217,616 less than the \$48,117,714 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2009 by \$103,629,886 (net assets). Of this amount \$12,955,777 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$8,293,107 or approximately 39.90 percent of the total general fund expenditures and transfers out.
- The City's total outstanding bonds and certificates of obligation (excluding enterprise and component unit debt) increased by \$14,624,460 during fiscal year 2009. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

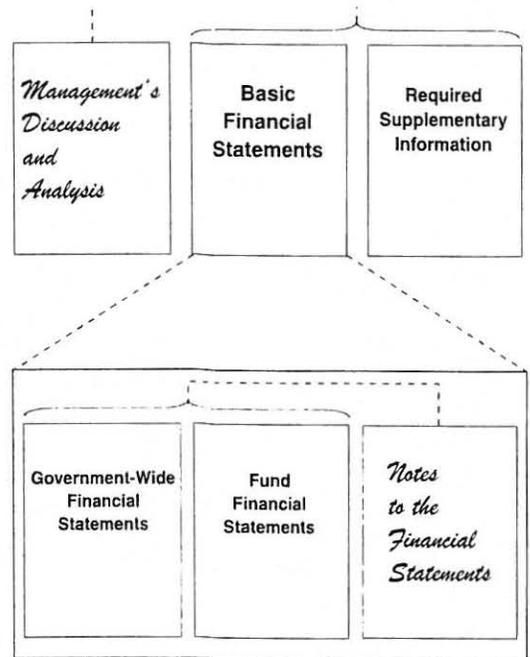

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

Summary ←→ Detail

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City of Rockwall’s Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>		
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>
<i>Scope</i>	Entire City' government (except fiduciary funds) and the City's component units	Activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private business.
<i>Required financial statements</i>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>◆ Balance Sheet</li> <li>◆ Statement of revenues, expenditures &amp; changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of revenues, expenses &amp; changes in fund net assets</li> <li>◆ Statement of cash flows</li> </ul>
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

### **Government-wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall’s finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the city of Rockwall’s assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City’s property tax base and the condition of the City’s infrastructure, to assess the overall health or financial condition of the City.

The *statement of activities* presents information showing how the City’s net assets changed during the most recent fiscal year. All of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City’s basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services provide funds for most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City’s water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City’s 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit’s Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements can be found on pages 33-35 of this report.

## **Reporting the City’s Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City’s most significant funds—not the City as a whole. *Funds* are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City’s basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City’s programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government’s near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 20 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General fund, Debt Service fund, 205 Bypass fund, and the G.O. Bonds Capital Projects fund all of which are considered to be major funds. Data from the other 16 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City's self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City's intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

*Notes to the financial statements*-The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report presents certain *required supplementary information* concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2009, the City's net assets (assets exceeding liabilities) totaled \$170,779,142. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

The largest portion of the City's net assets (83.02% percent) reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1  
Net Assets

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2009	2008	2009	2008	2009	2008
Current and other assets	\$ 35,699,050	\$ 36,360,385	\$ 30,640,868	\$ 24,777,143	\$ 66,339,918	\$ 61,137,528

Total Liabilities	<u>114,897,037</u>	<u>103,976,668</u>	<u>46,803,201</u>	<u>29,154,833</u>	<u>161,700,238</u>	<u>133,131,501</u>
Net Assets						
Invested in capital assets, net of related debt	88,367,580	63,546,273	53,418,392	48,127,382	141,785,972	111,673,655
Restricted for debt service	1,268,238	1,009,161	1,216,379	2,242,596	2,484,617	3,251,757
Restricted for capital projects	1,038,291	13,213,026	6,352,322	15,645,640	7,390,613	28,858,666
Unrestricted	<u>12,955,777</u>	<u>13,643,810</u>	<u>6,162,163</u>	<u>5,283,929</u>	<u>19,117,940</u>	<u>18,927,739</u>
Total net assets	<u>\$103,629,886</u>	<u>\$ 91,412,270</u>	<u>\$67,149,256</u>	<u>\$ 71,299,547</u>	<u>\$170,779,142</u>	<u>\$ 162,711,817</u>

An additional portion of the City of Rockwall's net assets, \$9,875,230 or 5.78% represents resources that are subject to external restrictions on how they may be used. The net assets which are *Restricted for capital projects* are due to debt being issued as projects are designed and construction is beginning. Several projects were completed or are nearing so causing this to be significantly less than in prior years. The remaining unrestricted net assets, \$19,117,940, may be used to meet the government's ongoing obligations to citizens and creditors.

The following table will document key elements of the increase in total net assets for the year ended September 30, 2009.

**Table 2**

### Governmental Activities

The City's total revenues of governmental activities were \$41,916,423. A significant portion 39.2%, of the City's revenues came from property taxes. Another 24.5% of revenue came from sales taxes. Ad valorem property tax revenues as a percent of revenues continue to increase each year due to the addition of new properties and increased valuation throughout the City as well as increases in the tax rate to pay debt service. Assessed values of the properties in the City increased by \$206,618,677 or 7.4%. The City adopted a property tax rate of 50.31 cents per \$100 of assessed valuation for fiscal year 2009. The rate did not increase over the prior year's rate. Sales tax revenue increased only slightly over the prior year. The increase, a modest 1.39% was reflective of a general slowing of the economy tempered by new business openings.

The economy which began to slow during 2008, continued slowing in 2009. The national decline in new housing starts was felt on the local level with residential building permits low but in line with the prior year. The City experienced moderate levels of commercial building during the fiscal year which kept revenues in line with prior years. Over the past several years, Rockwall County, of which the City of Rockwall is the County seat, was one of the fastest growing counties in America, and the fastest growing county in Texas. The City's investment earnings included in the "other" revenues above were significantly lower than in year's past.

**Comparative Expenses – Governmental Activities**

The total cost of all programs and services were \$35,900,098. Of these costs \$8,384,774 (23.6%) was for the Police Department. Administrative departments including Administration, Human Resources, and Internal Operations had combined costs of \$6,707,709 (18.7%). Public Works costs were \$5,482,571 (15.3%) and reflected ongoing projects.

**Business-Type Activities**

The City's business-type activities recorded a decrease of \$4,150,291 in net assets. Water sales increased by 8.9% over the prior year but are not back to the consumption levels seen before the extended period of near record drought conditions in 2007-08. The City's rates were increased in January 2009 which led to the additional revenue this year. The City implemented conservation water rates in 2001 and increases them each time new rates are adopted. Sewer charges were not affected significantly because the City uses winter averaging to calculate sewer billing. Water and sewer charges were \$11,274,415. The ending working capital, excluding restricted assets and accounts payable to be paid from restricted assets, for the water and sewer fund was \$3,944,920.

Water and sewer impact fees revenue totaled \$731,094 for the fiscal year. The City conducted an impact fee analysis and new rates were adopted during this fiscal year, positively impacting revenues. Impact fees, paid by developers and are designed to reduce the system's initial costs in building assets.

The City's water system has achieved the "Superior" rating by the Texas Commission on Environmental Quality.

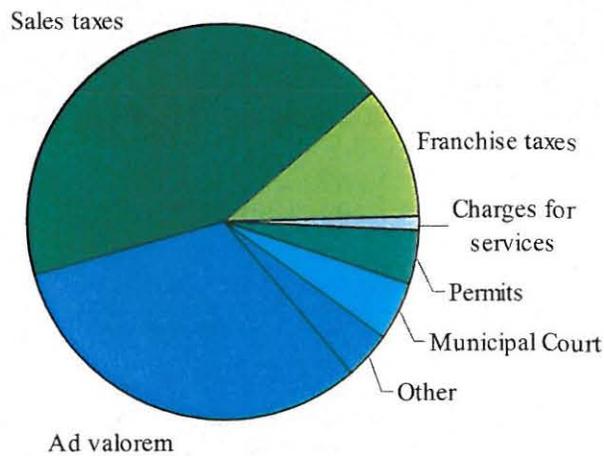

## Component Units

The Rockwall Economic Development Corporation (REDC) reported revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$3,300,452. Assets managed by the corporation include an inventory of over 310 acres of land, zoned for light industrial uses and available for sale and an industrial building currently leased and also available for sale. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's *General Fund* reported an ending unreserved fund balance of \$8,293,017. The main source of general fund revenue is sales tax, it accounted for \$9,791,542 (43.3%) of total general fund revenue. Ad valorem property taxes account for \$7,174,251 (31.7%) of general fund revenues. The City maintains the unreserved fund balance at or above acceptable levels as defined within the City's financial policies. This "reserve" balance allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

### Revenues by Source – General Fund

The City's *Debt Service Fund* reported an increase in fund balance of \$286,543. Property tax collections for debt service requirements were \$8,698,663. This represents an increase of 12.8% in order to pay debt service payments on bonds issued to construct numerous road and parks projects underway in 2009. After extensive study, the City adopted a Roadway Impact Fee in fiscal year 2009 which will be a revenue source in this fund.

The City began several road projects in fiscal year 2007 and 2008 which were funded through debt issuance. The City reports these projects in its *GO Bonds Capital Projects Fund*. The City issued General Obligation bonds for voter approved projects. In addition to roadway rehabilitation and extension projects, completion of neighborhood parks projects and construction of two fire stations was funded. Capital Outlay totaling \$7,487,349 is reported for 2009 on these multi-year projects. The majority of the projects, including both fire stations were completed in 2009.

The City also issued General Obligation bonds in years 2006 - 2009 to complete the design and construction of the new *205 Bypass Project*, now formally named John King Boulevard. Voters approved construction of the roadway in a 2005 Bond Election Proposition. The project included the multi-phase design, right of way acquisition and construction of a new 7 mile roadway on the eastern edge of the City designed to alleviate traffic burdens on State Highway 205 through the center of the City. The project will be completed by December 31, 2009 and is expected to be under budget.

## GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2009, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases or decreases in revenues when compared to original projections. With the adjustments made to the budget, the original budgeted expenditures of \$21,622,400 decreased to \$21,286,100 while revenues increased from \$21,860,000 to \$22,540,900. The City of Rockwall had originally estimated the ending general fund balance to be \$7,881,164 however due to the budget adjustments mentioned above and a planned reduction in fund balance for equipment for the new fire stations, the fund balance was re-estimated to be \$7,708,764.

General fund revenues were \$22,604,520, in line with the final budget projections. Actual general fund total expenditures were \$20,843,407 a decrease of \$442,693 less than final projections. This allowed the City to end the year with a fund balance of \$8,295,977, an increase of \$587,213 over the projected balance. The higher fund balance is attributable to management's conservative projections of both revenues and expenditures and savings in the final fire station equipment costs.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At the end of the fiscal year 2009 the City had \$266,139,461 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines. The balances shown below are net of accumulated depreciation.

**Table 3**  
**Capital Assets at Year-End**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2009	2008	2009	2008	2009	2008
Land	\$ 5,692,561	\$ 5,692,561	\$ 799,533	\$ 799,533	\$ 6,492,094	\$ 6,492,094
Buildings	9,288,285	8,055,502	95,102	100,537	9,383,387	8,156,039

Wastewater treatment facilities	-	-	8,102,439	8,351,286	8,102,439	8,351,286
	<u>\$82,827,873</u>	<u>\$159,028,553</u>	<u>\$ 83,311,588</u>	<u>\$75,677,237</u>	<u>\$266,139,461</u>	<u>\$234,705,790</u>

The City's capital improvement program includes a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were under construction in 2009 and nearing completion. A number of drainage projects were anticipated during the five-year planned capital improvement period. The City completed construction on the Fire Stations 3 and 4 in summer 2009.

The City held a bond election in November 2005 which funded road, park and fire projects in excess of \$64,000,000. In addition to the 205 Bypass project, the City was authorized to move forward with several neighborhood parks projects and the acquisition of land for two large regional parks. Progress has been made and includes the purchase of land for a large park in the northern area of the City, and completed construction on all of the neighborhood parks.

Construction in progress at September 30, 2009 for governmental activities included the ongoing construction costs associated with the 205 Bypass project and various other improvements.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extension of sanitary sewers into new areas of the city. Work commenced on a project to connect the Squabble Creek treatment plan to the regional wastewater interceptor project and will continue through 2010

Additional information regarding the City's capital assets is found in note IV-C on pages 62-64.

Debt

At year end, the City had \$153,731,754 in bonds and capitalized leases shown in Table 4.

	<u>\$ 108,604,822</u>	<u>\$ 93,980,362</u>	<u>\$ 45,126,932</u>	<u>\$27,424,728</u>	<u>\$153,731,754</u>	<u>\$121,405,090</u>

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 3.57% or \$3,349 per capita.

The City's bond ratings at September 30, 2009 were as follows:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	A+	A-	A-
Moody's Investor Service Inc.	A1	A2	A2

Additional information on the City of Rockwall's long-term debt can be found in note IV-E, on pages 65-72 of this report.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials considered many factors when setting the fiscal year 2010 budget, tax rate, and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the slowed growth in our community and the impact of the national economic recession. Rockwall saw the construction of several new commercial/retail business developments which positively impacted sales tax revenues in 2009. Costco's opening in April 2009 provided a new stream of sales tax revenues which will continue into a portion of budget year 2010. Slowed development caused the City to be very conservative in projecting revenues from sales taxes and building permits. Commercial

building starts were strong in 2009, but are projected to be more moderate in 2010. Interviews with local builders led the City to project continued slow home starts for the coming year.

The City of Rockwall's citizens enjoy above-average income levels per household. This combined with the City's proximity to major highways, and the Dallas-Ft. Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and "hometown" atmosphere. The Rockwall Economic Development Corporation works to attract businesses with relocation incentives as well as business retention incentives such as workforce training opportunities. The City's unemployment rate was 7%, well below the national totals.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2010. The budgeted revenues for fiscal year 2010 total \$22,829,800 for the general fund. Ad valorem tax revenue is determined by two factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. Debt issuance in 2010 will be significantly less than in years 2006 – 2009 due to completion of several major voter approved projects. The property tax rate was maintained at 50.31 cents per hundred dollars of assessed value. Due to the slowing economy but in recognition of the impact of several months of new revenues from the Costco Wholesale Store, city officials have projected a .5% increase in that revenue over the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. These policies were reviewed by the City Council in 2009 and certain provisions related to the City's fund balance were changed. The amended policy provides that the General Fund reserves should be no less than 3 months of recurring operating appropriations. In addition, the policies provide that should an audited fund balance at the end of the fiscal year exceed 3.5 months, the City Council may elect to transfer a portion to a Capital Projects Fund. The budget as adopted for fiscal year 2010 projects a fund balance of approximately 4.3 months of recurring operating expenditures.

The 2010 budget expenditures includes absorbing the remaining costs associated with the addition of nine shift firefighter positions with the opening of the new fire stations as well as the Main Street program. The budget did not include significant new programs due to budgetary constraints. The City completed annexation of the Lake Rockwall Estates area and the budget does include costs necessary to begin city services to the area.

The water and sewer rate study has been updated and the budget anticipates an increase in the rates which will be considered by the City Council in fall 2009. A number of capital projects to continue system expansion and the system are being planned for fiscal year 2010 while operational costs will be maintained at prior year levels.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2009

Net change in fund balances - total governmental funds	\$ 3,337,252
Amounts reported for governmental activities in the statement of activities ("SOA") are different because:	
Capital outlays are not reported as expenses in the SOA.	25,678,145
The depreciation of capital assets used in governmental activities is not reported in the funds.	(6,914,147)
Donations of capital assets increase net assets in the SOA but not in the funds.	5,332,675
Certain property tax revenues are deferred in the funds. This is the change in these amounts this year.	14,545
Repayment of bond principal is an expenditure in the funds but is not an expense in the SOA.	9,523,587
Bond issuance costs and similar items are amortized in the SOA but not in the funds.	188,197
(Increase) decrease in accrued interest from beginning of period to end of period.	62,370
The net revenue (expense) of internal service funds is reported with governmental activities.	(306,180)
Compensated absences are reported as the amount earned in the SOA but as the amount paid in the funds.	(80,738)
Certain fine revenues are deferred in the funds. This is the change in these amounts this year.	43,377
Certain assessment revenues are deferred in the funds. This is the change in these amounts this year.	526
Revenues in the SOA for franchise taxes not providing current financial resources are not reported in the funds.	(91,551)
Proceeds of bonds do not provide revenue in the SOA, but are reported as current resources in the funds.	(24,100,000)
Bond premiums are reported in the funds but not in the SOA.	(556,135)
Bond discounts are reported in the funds but not in the SOA.	111,512
Certain contracts receivable revenues are deferred in the funds. This is the change in these amounts this year.	(25,819)
Change in net assets of governmental activities - statement of activities	\$ <u>12,217,616</u>

The accompanying notes are an integral part of this statement.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City of Rockwall, Texas, was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer service as a proprietary function of the City.

The accounting policies of the City of Rockwall, Texas, conform to generally accepted accounting principals issued by the Governmental Accounting Standards Board which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City of Rockwall is a home rule municipality governed by an elected mayor and six member City Council who appoint a City Manager. The City's (primary government) financial statements include its component units. The accompanying basic financial statements comply with the provisions of the GASB Statement No. 14, "The Financial Reporting Entity," in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the City's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to or impose a financial burden on the City.

**Discretely Presented Component Units**

The Rockwall Economic Development Corporation (REDC) is governed by a five member board of directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half cent sales tax to support its activities.

The Rockwall Technology Park (RTP) provides repair and maintenance of the common area within the park being developed by REDC. RTP's board of directors is composed of representatives of the landowners. At September 30, 2009, REDC owned the majority of the land and the board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City.

The funds of both REDC and RTP are composed of governmental fund types. Stand alone financial statements for RTP as of and for the fiscal year ended September 30, 2009 are not prepared.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e. the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic *resources measurement focus* and the accrual *basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *205 Bypass Project Fund* accounts for revenues and expenditures related to the construction of the of the new 205 Bypass roadway project.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of capital assets used in the operation of governmental funds.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance, and worker's compensation coverage services provided to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Fiduciary funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and wastewater function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and worker compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than 5 years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.
- e. Certificates of deposit issued by a state or national bank domiciled in the state of Texas or a savings bank domiciled in the state of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items 1 – 4. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least of the 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the state of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net assets value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

The City holds various mortgage backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of 1 year or more, when purchased, are stated at fair value. Short term investments are stated at cost or amortized cost.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter fund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1 by the City based on the January 1 property values as assessed by the Rockwall County Central Appraisal District. Taxes are due without penalty until January 31, of the next calendar year. After January 31 the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

3. Inventories and prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2009

Capital assets of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Buildings	20 - 30 years
Building Improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

6. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of 3 days sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of 3 days sick leave to one day vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of 3 days sick leave to one day vacation leave and shall be paid to the employee if he/she has 10 or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

7. Long-term obligations

In the government-wide financial statements, and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and are deferred in the funds." The details of this \$1,614,628 difference are as follows:

Bonds issuance costs:	
City	<u>\$1,614,628</u>

- B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities :

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Revenues in the Statement of Activities not providing current financial resources are not reported as revenues in the funds." The details of this \$91,551 difference are as follows:

Estimate of semi-annual franchise tax on electricity	<u>\$91,551</u>
--	-----------------

**III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

- A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain Special Revenue Funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During 2009, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.
6. The City did not adopt budgets for certain Special Revenue Funds. These unbudgeted Special Revenue Funds were as follows:

    Emergency Siren Fund  
    Downtown Improvement Fund  
    Art in Public Places Fund

7. Capital Project funds were not budgeted. Since project length financial plans usually extend into two or more fiscal years, this makes comparisons confusing and misleading.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2009

B. Excess of expenditures over appropriations

The following funds had expenditures in excess of appropriations:

SPECIAL REVENUE FUNDS	
Cemetery Fund	\$800
PID	304,026

C. Deficit fund equity

The following funds had deficit fund balances at September 30, 2009:

Harbor Debt Service Fund	\$59
Employee Benefits Internal Service Fund	\$427,616

The deficit in the Harbor Debt Service Fund was caused by unanticipated expenditures, and will be covered by additional revenues in the future. The deficit in the Employee Benefits fund was caused by unanticipated health care cost increases, and will be covered by additional transfers from the general fund.

**IV. DETAILED NOTES ON ALL FUNDS**

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2009, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$1,992,054 which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2009, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2009

Investments

At September 30, 2009, the City's investments were:

	Carrying	Maturity (months)			
	Value	Less than 1	2-6	7-12	13-18
<b>Primary Government</b>					
U.S. Government Agencies

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

B. Receivables

Receivables as of year-end for the government's individual major funds and nonmajor, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Debt Service	205 Bypass Project	G.O. Bonds Capital Projects	Nonmajor and Other	Water and Sewer
Taxes receivable - delinquent	\$191,425	\$207,569	\$ --	\$ --	\$ --	\$ --
Fines receivable	\$102,469	\$ --	\$ --	\$ --	\$ --	\$ --
Allowance for uncollectibles	(36,910)	--	--	--	--	--
	\$65,559	\$ --	\$ --	\$ --	\$ --	\$ --
Accrued Interest	\$55,958	\$ --	\$36,866	\$27,943	\$ --	\$92,708
Accounts receivable	\$16,961	\$ --	\$ --	\$118,412	\$767,090	\$2,250,250
Allowance for uncollectibles	--	--	--	--	--	(489,418)
Net other receivables	\$16,961	\$ --	\$ --	\$118,412	\$767,090	\$1,760,832
Assessments receivable	\$ --	\$ --	\$ --	\$ --	\$149,589	\$149,589
Other receivables	\$278,809	\$ --	\$ --	\$ --	\$4,670	\$ --

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unavailable	Unearned
Delinquent property taxes receivable (General Fund)	\$177,691	\$ --
Contract receivable not yet due	271,534	--
Fines receivable	55,364	--
Delinquent property taxes receivable (Debt Service Fund)	191,002	--
Assessments receivable not yet due (Street improvements)	149,589	--
Contributions not yet received (Street Improvements)	118,412	--
Seizures not awarded (Special Crimes Unit)	44,208	44,208
Total deferred/unearned revenue for governmental funds	\$1,007,800	\$44,208

Construction commitments

The City has active construction projects as of September 30, 2009. The projects include street construction, parking improvements, water system improvements, and sewer system improvements.

Project	Spent to Date	Remaining Commitment
Street improvements	\$8,532,052	\$126,265
Parking improvements	131,769	51,714
Drainage improvements	36,760	233,725
Water system improvements	7,996,733	239,917
Sewer system improvements	136,678	1,657,528
	<u>\$16,833,992</u>	<u>\$2,309,149</u>

The street improvements and parking improvements are being financed by bond proceeds. The commitment for water system improvements and sewer system improvements are being financed by bond proceeds.

 Year Ended September 30, 2009

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of September 30, 2009, is as follows:

Fund	Receivable	Payable
General Fund	\$267,728	\$ --
Debt Service	273,712	--
Nonmajor governmental funds	--	324,025
Internal Service Funds	--	217,415
Total Internal Service Funds	541,440	541,440
Totals	\$541,440	\$541,440

The outstanding balances between funds result primarily from the time delay between the dates that interfund goods and services are provided and payments between funds are made. Also, working capital loans are made to capital projects funds in advance of debt issuances. These are expected to be collected within one year.

The composition of interfund transfers for the year ended September 30, 2009, is as follows:

Fund	Transfer In	Transfer Out
Major Governmental Funds		
General Fund	\$754,800	\$2,486,750
Debt Service Fund	18,762	50,000
205 Bypass Project	3,068,404	13,788
G.O. Bonds Capital Projects	4,297,691	1,073,378
Nonmajor Governmental Funds	525,100	865,050
Water and Sewer Enterprise Fund	34,000	6,235,291
Internal Service Funds	2,025,500	--
Totals	\$10,724,257	\$10,724,257

Transfers are used to move unrestricted revenues to finance various programs or capital projects that the City must account for in other funds in accordance with budgetary authorizations.

E. Long-term debt

The City issues general obligation debt ( in the form of general obligation bonds, certificates of obligation, contractual obligations, and notes payable) to provide funds for the acquisition and construction of major capital facilities. General obligation debt has been issued for both governmental and business-type activities. These issues are direct obligations and pledge the full faith and credit of the City.

Unamortized Premium	14,464		
Unamortized Discount	(64,853)		
Total Revenue bonds	\$11,619,611		

**Refunded Bonds**

In previous years, the City purchased U.S. government securities that were placed in irrevocable trusts with escrow agents to provide for all future debt service payments on certain bonds. As a result, these bonds are considered to be defeased and the liability for these bonds has been removed from the City's statement of net assets. The outstanding balances of refunded bonds at September 30, 2009, are as follows:

Bond Type	Year of Issue	Year Refunded	Balance 9/30/09
General obligation	2000	2005	\$1,395,000
Certificates of obligation	2000	2005	4,235,000
General obligation	1999	2009	4,595,000
Contractual obligation	1999	2009	210,000
			<u>\$10,435,000</u>

**Capitalized Lease Obligations**

The City has entered into a contract with the North Texas Municipal Water District, a conservation and reclamation district and political subdivision of the state of Texas, for construction and operation of sewer plants and to provide treated water to the City. The contractual obligations have been treated as capitalized leases.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2009

Capitalized lease obligations outstanding at September 30, 2009 are as follows:

On refunding	--	24,955	(1,248)	23,707	1,248
Total bonds payable	95,482,280	24,571,195	(9,559,305)	110,494,170	4,541,803
Compensated absences	959,869	1,032,706	(951,966)	1,040,609	190,936
Governmental activity Long-Term Liabilities	<u>\$96,442,149</u>	<u>\$25,603,901</u>	<u>(\$10,511,27)</u>	<u>\$111,534,77</u>	<u>\$4,732,739</u>
<b>Business-type activities:</b>					
General obligation bonds	\$10,089,638	\$16,895,000	(\$959,460)	\$26,025,178	\$906,962
Revenue bonds	12,530,000	--	(860,000)	11,670,000	895,000
Less deferred premium (discount)	(24,638)	84,475	(13,096)	46,741	2,639
Total bonds payable	22,595,000	16,979,475	(1,832,556)	37,741,919	1,804,601
Capital lease obligations	4,805,094	2,960,000	(333,340)	7,431,754	351,671
Compensated absences	70,145	172,873	(151,287)	91,731	25,675
Business-type activities Long-Term Liabilities	<u>\$27,470,239</u>	<u>\$20,112,348</u>	<u>(\$2,317,183)</u>	<u>\$45,265,404</u>	<u>\$2,181,947</u>

For the governmental activities, claims and judgements and compensated absences are generally liquidated by the general fund. The government-wide statement of activities includes \$895,000 of revenue bonds and \$351,671 of capital leases due within one year for business-type activities in "liabilities payable from restricted assets" on that same statement.

**Conduit Debt Obligations**

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial and housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2009, there was one series of revenue bonds outstanding. The aggregate principal amount

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

payable for the issue was \$1,700,000.

Authorized and Unissued Debt

V. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of the City employees and their covered dependents and minimize the total cost of annual medical insurance to the municipality. Medical claims in any one year exceeding \$65,000 per covered individual or, approximately \$2,162,253 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2009.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2009

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers compensation plan. Under this plan, worker compensation insurance is provided in accordance with State statutes to all City employees. To protect the assets of the plan from a catastrophic claim the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a cap of \$600,000 per year.

The Worker's Compensation fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported, are not believed to be significant to the City's financial statements.

	Employee Benefits		Worker's Compensation	
	2009	2008	2009	2008
Claims payable beginning of the year	\$176,172	\$147,395	\$10,697	\$2,517
Claims incurred	2,427,029	2,542,806	90,752	104,293
Payment on claims	(2,429,498)	(2,514,029)	(83,995)	(96,113)
	<u>\$173,703</u>	<u>\$176,172</u>	<u>\$17,454</u>	<u>\$10,697</u>

Commercial insurance is purchased for the other risks of losses to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

**B. North Texas Municipal Water District**

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney and Royse City (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment processing and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams and underground water, for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest equity investments and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek and, in 1978 entered into an agreement with the District for the

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2009

construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable NTMWD to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the Annual Budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the Paying Agent and the Registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2009, is \$7,431,754. See Note IV E for the annual requirements to amortize the bonds as of September 30, 2009.

With respect to the ground storage reservoir discussed above, the Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of the related operating expenses and debt service payments. While the City anticipates its share of these payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

**C. Contingent Liabilities and Commitments**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 5 above, the general revenues of the City are contingently liable for the \$26,025,178 payable in General Obligation Bonds which are currently outstanding and recorded as obligations of the Enterprise Fund.

The City contracts for garbage disposal with a third party. Under the terms of the agreement the city bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2009, these commitments totaled \$1,521,520.

**E. Employee retirement systems and pension plans**

**1. Plan Description**

The City provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 827 currently administered by TMRS, an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the city are within the options available within the options available in the governing state statutes of TMRS.

**CITY OF ROCKWALL, TEXAS**  
 NOTES TO THE FINANCIAL STATEMENTS  
 Year Ended September 30, 2009

TMRS issues a publically available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the system. This report may be obtained by writing to TMRS, P.O. Box 149153, Austin, Texas 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at [www.TMRS.com](http://www.TMRS.com).

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant as often as annually another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

Members can retire at ages 60 and above with 5 or more years of service or with 20 years of service regardless of age. A member is vested after 5 years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

2. Contributions

The contribution rate for the employees is 7%, and the City matching ratio is currently 2 to 1, both as adopted by the governing body of the City. Under the state law governing TMRS, the actuary annually determines the City contribution rate. This rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (over funded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance to budget for it, there is a one-year delay between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2007 valuation is effective for rates beginning January 2009.

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$55,300 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a board of directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 37 active participants currently covered by the Fund and payments are being made to 15 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments, however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P. O. Box 12577, Austin, Texas, 78711.

### *Required Supplementary Information*

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

## NONMAJOR GOVERNMENTAL FUNDS

### SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Cemetery - established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation - established to account for donations, court security fees, and forfeitures.

Recreational Development - established to account for the annual lease income from marinas and golf course.

Radio System - established to account for revenues and expenditures for the support of the City's radio system.

Street Improvements - established to account for the proceeds of street improvement assessments.

Hotel Motel Tax - established to account for the annual income from hotel motel taxes.

Fire Equipment - established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation - established to account for funds received from airport operations and related expenses.

Recycling - established to account for funds to be used for the City's recycling program.

Emergency Siren — established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Downtown Improvement - established to account for revenues and expenditures related to the City's efforts to revitalize the downtown square.

Art in Public Places - established to account for donations received for developing art displays in public areas such as parks.

Special Crimes Unit - established to account for revenues and expenditures related to a county-wide crime task force.

### *DEBT SERVICE FUNDS*

Debt Service Funds are used to account for the accumulation of resources and payment of general, certificate, & contractual obligation bond principal and interest from governmental resources.

NONMAJOR GOVERNMENTAL FUNDS  
(Continued)

*CAPITAL PROJECTS FUNDS*

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital Projects - established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

Equipment Acquisition — established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

G.O. Bonds Capital Projects — established to account for street and drainage projects using proceeds from the issuance of bonds.

205 Bypass Project — established to account for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

*INTERNAL SERVICE FUNDS*

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Employee Benefits Fund — established to account for the financing of a medical self-insurance fund to pay medical and dental claims of the City's employees and their covered dependents.

Workers' Compensation Fund — established to account for the costs of the workers' compensation self-insurance program for the City.

*AGENCY FUND*

Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Special Escrow Agency Fund - established to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

*DISCRETELY PRESENTED COMPONENT UNITS*

The Rockwall Economic Development Corporation (REDC) represents the City by promoting it as a location for new business. It also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park developed by REDC.

# STATISTICAL SECTION

This part of the City of Rockwall, Texas's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<b>Contents</b>	<b>Page</b>
Financial Trends	121
<i>These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.</i>	
Revenue Capacity	132
<i>These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.</i>	
Debt Capacity	138
<i>These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	143
<i>These schedules offer demographic and economic indicators to help the reader understand how the City's financial activities take place and to help make comparisons over time and with other governments.</i>	
Operating Information	145
<i>These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.</i>	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

TABLE D-18

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year

***INTRODUCTORY SECTION***

## City of Rockwall

*The New Horizon*

March 9, 2009

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Rockwall for the fiscal year ended September 30, 2008, is hereby submitted. State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Rockwall. Consequently, management assumes full responsibility for both the accuracy of the data, and the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities has been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Fox, Byrd & Company, CPA a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2008, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2008, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements as required by GAAP. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, County Seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth International Airport and Love Field in Dallas meet the air transportation needs of the region.

The City currently has a land area of approximately 25.43 square miles and an estimated population of 31,748.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments have been adopted as recently as 2005. Policymaking and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; planning and zoning, parks and recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in Note 1 of the Notes to the Financial Statements.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when considered from the broader perspective of the specific environment within which the City of Rockwall operates.

### **Local Economy**

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. Rockwall enjoys a favorable economic environment and local indicators point to continued stability. In 2008 commercial development slowed as the national economy did. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Property values rose modestly. The most recent five-year average is 8.39% per annum. The City's largest taxpayers include a number of commercial developments. Table 12 in the Statistical Section provides further information on the principal taxpayers. The Rockwall Economic Development Corporation continues to assist companies looking to locate their business in the City. The year's highlights included:

- Completion by Whittle Development of the full service Hilton Hotel and Conference Center which complements Phase I of their Bella Harbor, lakefront development. The development includes approximately 90,000 square feet of retail and restaurant space which provided premier entertainment opportunities for the area during the year.
- Belk's Department Store, Best Buy and Dick's Sporting Goods opened in time for the 2007 Holiday shopping season with Staples, Ulta and JC Penney following shortly after the holidays. These stores are featured in the Plaza Development.
- Sports Authority opened a 53,600 square foot store in the Steger Towne Development.
- Costco Corporation began construction on a Costco Wholesale store location in Rockwall. The 149,000 square foot store will enhance Rockwall's role as a regional shopping destination.
- Presbyterian Hospital of Rockwall opened their acute care facility in December 2008 and began construction of approximately 40,000 square feet of medical office space in the immediate area.
- Shenaniganz, calling itself an "eater-tainment destination will open late in 2008 and will include bowling, laser tag, an arcade, rock climbing, go carts and restaurant areas.
- Downtown Rockwall will benefit from the attention that will be garnered as Rockwall was named a Texas Main Street City in October 2008. The program will officially kick off with a visit by the First Lady of Texas in spring 2009.
- SPR Packaging, LLC completed development of a major rail-served industrial location on the new Justin Road and Industrial Boulevard extensions. SPR is expected to build, phased-development in excess of 150,000 square feet, adding significant value to the property tax base.

## Long-term Financial Planning

The City Council and staff have recognized the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

A number of long-range studies have been completed or updated recently. Our Parks consultant completed development of concept plans for several future parks projects, while the City is moving forward with the acquisition of land for another regional park project. This land will allow the City to develop a 50-acre park in the southern area of the City. The City Council also has reviewed the consultant's report on long range planning of space needs for the next 20 years.

The Planning and Zoning department worked to expand the city's use of GIS technology by coordinating training and information gathering across departments. The City Council has identified the downtown area as a critical component of our long range plan. The City working with business and community leaders coordinated an effort to be named a Texas Main Street City and will be pursuing the planning and design opportunities this program provides. An update of the Central Business District zoning was completed in 2008 as well as the full documentation of the historic business buildings in the downtown area with the assistance of a Historic Preservationist.

The city initiated a street condition study to evaluate the priorities for street repairs needed. The study results will be employed as the City develops future maintenance budgets and capital improvement programs.

The City hired a consulting firm to expand the Harbor development concept by looking at the development potential of the adjacent 60 acres of undeveloped land. A concept plan for Planned Development 32 (PD 32) is being completed and will include expanding the mixed-use concept and will include retail, restaurants, office and residential spaces.

The City completed the study and implementation of a roadway impact fee as well as updates to the water and sewer impact fees. A water and sewer rate study will be completed in late 2008.

The Rockwall Economic Development Corporation furthered their planning efforts by finalizing their Destination 2020 plan in 2008. This comprehensive document includes demographics, target industries, marketing strategies, competition, site selection criteria, and alliances among its parameters. The REDC is establishing a marketing manager position to better position them to attract and retain industry in Rockwall.

Organizationally, the City began the process of refining its strategic plan using the Balanced Scorecard Methodology. When the strategy map was completed in 2003, the City's strategic initiatives for the implementation of the City's goals were formalized within the organization. Departmental business plans were developed and are updated as progress is made and priorities change. These business plans develop performance measures for the strategic initiatives for which each department is responsible. During 2006, the City began a process to implement the Customer Centered Culture methodology (C3) into the organization.

C3 encourages cross department teams to follow a proven course of data compilation and actions that allow the teams to develop product improvements. C3 recognizes that the services we provide are ultimately comprised of a number of products and processes and those must be

designed to meet our customer's needs, not what we perceive are their needs. Training was conducted with more than 40 employees to develop meeting facilitation skills in order to further this effort. Four project teams presented their reports to Council in 2008 and many of their suggested improvements have been implemented. Their efforts were used to build the framework by which the City moves forward integrating C3 organizationally with new teams established as projects become known.

In addition, the City refined its "Rockwall University" program to cover a broader range of training programs. Courses initially allowed employees to understand the workings of departments other than their own. The course offerings will also be used to complement the city's succession planning program. Mid level managers and first line supervisors have and will continue to participate in workshops to develop their management skills and prepare our next generation of organization leaders. This group will collaborate on projects to build cross department alliances and understanding of the resources available to our managers.

## Future Development

### Transportation

The City continued progress on the multi-phased construction of the 205 Bypass roadway project approved by voters in late 2005. The roadway was officially named "John King Boulevard" in honor of our late council member. This roadway, on the eastern edge of the City is expected to provide traffic relief through the City's center and will be completed in December 2008. The Texas Department of Transportation is expected to begin construction on a new overpass which will allow an additional means of crossing I-30 on the new roadway. TxDot continued work on the widening of SH205 (Goliad Street) through the City in 2008, a project which will take up to 4 years to complete. City projects under construction in 2009 will include the reconstruction of Airport Road, a much traveled east-west roadway.

The City is a member of a County-wide Consortium which allows the County government officials to work with officials of each of the seven cities in the county to further transportation planning efforts. The Consortium meets monthly to discuss funding alternatives for the County's transportation needs, most of which involves partial or complete state participation. The County presented a bond initiative to voters which met with positive approval and will provide advance planning and design funds for 4 major roadway projects. This will allow those projects to be ready to commence as soon as state funding is allocated for construction.

### Medical Services

Recent developments in the Horizon Road area have focused on medical services. With the opening of Presbyterian Hospital of Rockwall in 2008, acute care is now available in the City. Expansion of the facility is being studied now. Several new medical buildings with Doctor's suites joined state of the art out-patient diagnostic imaging facilities in the past two years. Ancillary medical office buildings and long term care facilities are planned for near term development. The medical corridor is quickly developing into a regional medical destination.

### Retail / Entertainment

"The Harbor" public improvements, situated on the shores of Lake Ray Hubbard at I-30, were completed early in fiscal year 2008. A public/private partnership provided opportunities for new retailers in the Bella Harbor development as well as public open space. The largely undeveloped

hillside now includes a full-service Hilton Hotel and Conference Center. The City and Chamber of Commerce are working to attract events to the Conference Center formally open in spring 2008. The development has become a regional entertainment destination.

In conjunction with the private development, the City established a tax increment financing (TIF) zone in an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The City partnered with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF to finance the public projects.

### Recreation

The City completed construction on neighborhood parks in the Emerald Bay and Hickory Ridge subdivisions in 2008. Planning for the third major park included a C3 project by the City to determine customer's desires for the park and its amenities. The City Council reviewed concept plans for the remaining regional parks projects. Trail development has long been a priority for the City and construction of trail connections will continue in 2009 with voter approved bond proceeds.

The City's popular Concert on the Lake series continues to draw thousands of residents and visitors each week. Founder's Day on the Downtown Square draws visitors to shop merchant's wares, see artist's exhibits, learn about city departments and enjoy free concerts all day. The event culminates with a concert by a nationally recognized artist, also free to all who attend.

### Facilities

Design of Fire Stations 3 and 4, approved by voters in 2005, has been completed and construction is underway. The stations should be open in summer 2009.

The new Rockwall Animal Adoption Center opened its doors in 2008, the culmination of many years of planning and funding efforts. The new facility allows staff to care for animals until they are reunited with their family and provide opportunities for the public to find their new pet.

The Rockwall Police Department began training in their new Firearms Training Facility in 2008. A joint effort between the county and four area cities allows each entity to provide a training facility which should meet their department's needs for many years at a reasonable cost to the taxpayers. The joint project was the first capital improvement project financed by the Emergency Services Corporation, a local government corporation established by Rockwall County and its seven cities to promote regional cooperation on emergency services projects.

### Utilities

The water and sewer rates last increased in 2006 are being reviewed and staff will be recommending a rate increase in early 2009. The City purchases treated water as a founding member city of the North Texas Municipal Water District. The City completed construction on a new two-million gallon water tower in the northern area of the City and construction is ongoing Squabble Creek sewer system which will connect to the regional sewer interceptor system. A number of main extension projects are being undertaken to provide water and sewer service to annexed areas of the City.

The City's water system was recognized with the Texas Commission on Environmental Quality's "Superior" rating in 2008.

Cash Management: The City invests cash temporarily idle during the year in money market funds and short-term notes of the U.S. Government and its agencies. Other cash classified as being not immediately needed is invested in longer-term obligations of the U.S. Government and its agencies. All of these investments are classified as "hold-to-maturity" investments. The City believes that it will not be required to sell these investments prior to maturity, barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no reverse repos nor has any other form of borrowing been used to finance the City's portfolio.

The City's investment policy is to safeguard the City's assets and maintain liquidity while enhancing the yield of its portfolio and ensuring public trust. Securities owned by the City were held in a financial institution trust department acting as an agent of the City, in the City's name.

Risk Management: In fiscal year 1990, the City established a Self-Insurance and Risk Management Program. Under the terms of this program, the City is permitted by law and its home rule charter to insure itself against the various risks of liability and loss to which it is exposed. This may be done either through an insurance provider or through a defined self-insurance program. The City's program includes employee health insurance and workers' compensation. Other risks to which the City is exposed are covered by commercial insurance.

Retirement System: The City of Rockwall provides pension benefits to all full-time employees through a nontraditional, joint contributory defined benefit plan administered by the Texas Municipal Retirement System (TMRS), an agent multiple-employer public retirement system. Pension expense for the calendar year ended December 31, 2008 (including prior service costs amortized over 25 years) was \$1,561,437. The City is aware of changes in the actuarial methodology TMRS will be employing and is incorporating those changes into our operating budget as needed. The City of Rockwall does not provide post employment health and dental benefits for retirees.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below. Revenue debt has been excluded since system charges are used to retire the debt.

Outstanding General Obligation Debt at 9-30-08(net of Debt Service)	\$93,145,159
Estimated Population	31,748
G.O. Debt Per Capita	\$2,934
Net G.O. Debt per Assessed Value	3.32%

The City received a bond ratings upgrade in September 2008 from Standard & Poor's Ratings Group and the current ratings are shown below:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	AA-	A-	A-
Moody's Investor Service Inc.	A1	A2	A3

## AWARDS AND ACKNOWLEDGEMENTS

### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2007. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

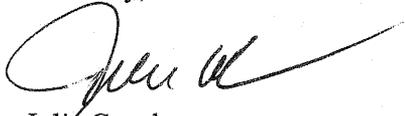

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for each of the last eighteen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Julie Couch  
City Manager

Mary Smith, CPA  
Director of Finance

## INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Rockwall, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of and for the year ended September 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of September 30, 2008, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis on pages 14–25 and the budgetary comparison information on page 67 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2008. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total net assets were \$162,711,817 at September 30, 2008.
- During the year, the City's expenses were \$5,279,726 less than the \$41,575,154 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2008 by \$91,412,270 (net assets). Of this amount \$13,643,810 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$8,264,368 or approximately 37.3 percent of the total general fund expenditures and transfers out.
- The City's total outstanding bonds and certificates of obligation (excluding enterprise and component unit debt) increased by \$17,934,538 during fiscal year 2008. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

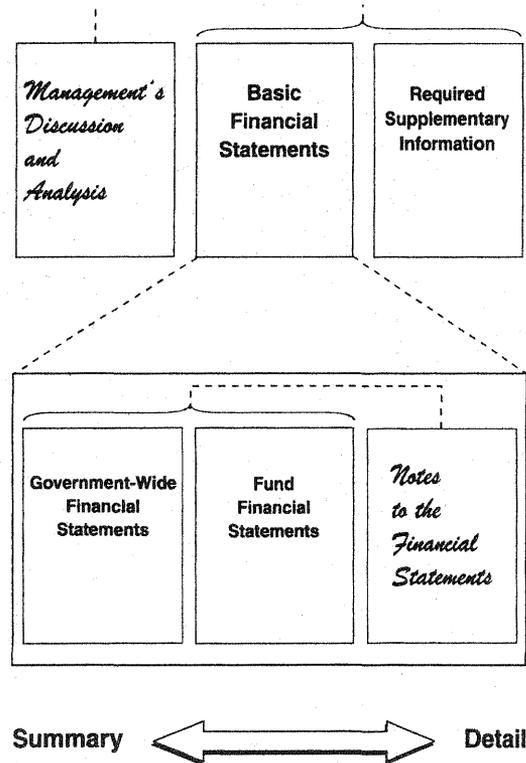

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City's Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>			
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>	<b>Fiduciary Funds</b>
<i>Scope</i>	Entire City's government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary	Activities the City operates similar to private businesses.	Instances in which the City is the trustee or agent for someone else's resources
<i>Required financial statements</i>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>◆ Balance Sheet</li> <li>◆ Statement of revenues, expenditures &amp; changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of revenues, expenses &amp; changes in fund net assets</li> <li>◆ Statement of cash flows</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of fiduciary net assets</li> <li>◆ Statement of changes in assets &amp; liabilities</li> </ul>
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term	All assets and liabilities, both short-term and long-term; the City's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

### **Government-wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall's finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the city of Rockwall's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health or financial condition of the City.

The *statement of activities* presents information showing how the City's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City's basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services finance most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City's 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit's Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements can be found on pages 26 - 28 of this report.

## **Reporting the City's Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. *Funds* are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 20 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund, G.O. bonds capital projects fund and the 205 Bypass fund, all of which are considered to be major funds. Data from the other 16 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City's self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City's intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in assets and liabilities. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

*Notes to the financial statements*-The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report presents certain *required supplementary information* concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2008, the City's net assets (assets exceeding liabilities) totaled \$162,711,817. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

The largest portion of the City's net assets (68.6% percent) reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Table 1**  
**Net Assets**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2008	2007	2008	2007	2008	2007
Current and other assets	\$ 36,360,385	\$ 41,092,200	\$ 24,777,143	\$ 21,972,598	\$ 61,137,528	\$ 63,064,798

Total Liabilities	<u>103,976,668</u>	<u>81,564,933</u>	<u>29,154,833</u>	<u>20,514,810</u>	<u>133,131,501</u>	<u>102,079,743</u>
Net Assets						
Invested in capital assets, net of related debt	63,546,273	49,487,300	48,127,382	47,893,027	111,673,655	97,380,327
Restricted for debt service	1,009,161	1,213,241	2,242,596	1,894,720	3,251,757	3,107,961
Restricted for capital projects	13,213,026	22,045,706	15,645,640	12,726,158	28,858,666	34,771,864
Unrestricted	<u>13,643,810</u>	<u>13,386,297</u>	<u>5,283,929</u>	<u>5,463,619</u>	<u>18,927,739</u>	<u>18,849,916</u>
Total net assets	<u>\$ 91,412,270</u>	<u>\$ 86,132,544</u>	<u>\$ 71,299,547</u>	<u>\$ 67,977,524</u>	<u>\$ 162,711,817</u>	<u>\$ 154,110,068</u>

An additional portion of the City of Rockwall's net assets, \$32,110,423 or 19.7 percent represents resources that are subject to external restrictions on how they may be used. The net assets which are *Restricted for capital projects* are due to debt being issued as projects are designed and construction is beginning. The remaining unrestricted net assets, \$18,927,739, may be used to meet the government's ongoing obligations to citizens and creditors.

The following table will document key elements of the increase in total net assets for the year ended September 30, 2008.

## Governmental Activities

The City's total revenues of governmental activities were \$40,259,749. A significant portion 36.7%, of the City's revenues came from property taxes. Another 25.2% of revenue came from sales taxes. Ad valorem property tax revenues continue to increase each year due to the addition of new properties and increased valuation throughout the City. Assessed values of the properties in the City increased by 226,571,281 or 8.8%. The City adopted a property tax rate of 48.65 cents per \$100 of assessed valuation for fiscal year 2008. This represented an increase of 6.15 cents. This marked only the third time in thirteen years that the tax rate was increased. The increase was attributable in large part to debt service requirements for voter approved projects. Sales tax revenue increased significantly over the prior year. The increase at 13.7% was reflective of the addition of several new retail opportunities.

The overall economy slowed significantly during 2008. The national decline in new housing starts was felt on the local level as well with residential building permits revenue down (included in other revenues) when compared to prior year's levels. The City experienced moderate levels of commercial building during the fiscal year which kept revenues in line with prior years. Over the past several years, Rockwall County, of which the City of Rockwall is the County seat, was one of the fastest growing counties in America, and the fastest growing county in Texas.

The Bella Harbor project, a lakefront multi-use planned development, completed construction of a new Hilton Hotel and Conference Center and Phase I of their retail district. It is expected to have a positive effect on sales taxes and property taxes in the area as well as tourism. A tax increment financing zone was established to provide for public improvements in the area.

## Comparative Expenses – Governmental Activities

The total cost of all programs and services were \$36,295,428. Of these costs \$7,130,698 (19.6%) was for the Police Department. Administrative departments including Administration, Human Resources, and Internal Operations had combined costs of \$7,384,773 (20.3%). Public Works costs were \$7,094,068 (19.5%) and reflected the cost of ongoing street construction and rehabilitation projects.

## Business-Type Activities

The City's business-type activities recorded an increase of \$3,322,023 in net assets, due in large part to developer contributions in the form of dedicated transmission lines. Water sales were recovering in 2008, following a period of drought and mandatory conservation measures. The City having previously implemented conservation water rates in 2001 began enforcing mandatory water restrictions in a regional effort to curtail usage during the drought period. This resulted in lower water sales for the fiscal year 2007 and an extended period in fiscal year 2008. Sewer charges were not affected significantly because the City uses winter averaging to calculate sewer billing. Water and sewer charges were \$10,267,047. Ending working capital, excluding restricted assets, for the water and sewer fund was \$4,374,587. This increase in working capital is reflective of the increase in water sales over the prior year.

Water and sewer impact fees revenue totaled \$411,275 for the fiscal year. These impact fees are paid by developers and are designed to reduce the system's initial costs in building assets which are needed to accommodate population growth.

The City's water system has received the "Superior" rating by the Texas Commission on Environmental Quality.

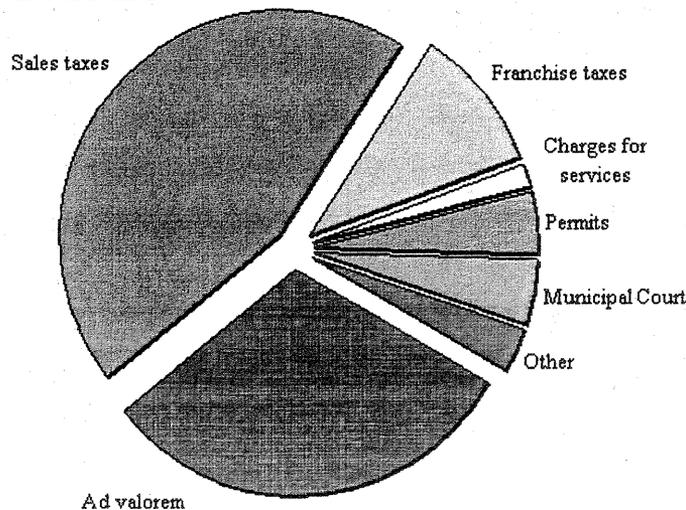

## Component Units

The Rockwall Economic Development Corporation (REDC) reported revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$3,637,755. Assets managed by the corporation include an inventory of over 310 acres of land, zoned for light industrial uses and available for sale. This includes the addition of approximately 90 acres during fiscal year 2008. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's *General Fund* reported an ending unreserved fund balance of \$8,264,368. The main source of general fund revenue is sales tax, it accounted for \$9,640,955 (44.9%) of total general fund revenue. Ad valorem property taxes account for \$6,604,295 (30.8%) of general fund revenues. The City maintains the unreserved fund balance at acceptable levels as defined within the City's financial policies. This "reserve" balance, representing more than four months of recurring operating expenditures allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

### Revenues by Source – General Fund

The City's *Debt Service Fund* reported a planned decrease in fund balance of \$248,117. Property tax collections for debt service requirements were \$8,103,847. This represents an increase of 32.8% in order to pay debt service payments on bonds issued to construct several voter approved road and parks projects underway in 2008.

The City began several road projects in fiscal year 2007 which were funded through debt issuance. The City reports these projects in its *GO Bonds Capital Projects Fund*. The City issues General Obligation bonds for voter approved projects. In addition to roadway rehabilitation and extension projects, completion of neighborhood parks projects and construction of two fire stations was funded. Capital Outlay totaling \$7,785,261 is reported for 2008 on these multi-year projects. Most projects are expected to be completed in 2009.

The City also issued General Obligation bonds in 2006 and 2007 to begin the phased design and construction of the new *205 Bypass Project*, now formally named John King Boulevard. Voters approved construction of the roadway in a 2005 Bond Election Proposition. The project included the multi-phase design, right of way acquisition and construction of a new 7 mile roadway on the eastern edge of the City designed to alleviate traffic burdens on State Highway 205 through the center of the City. The project was completed by December 31, 2008.

## **GENERAL FUND BUDGETARY HIGHLIGHTS**

During fiscal year 2008, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases or decreases in revenues when compared to original projections. With the adjustments made to the budget, the budgeted expenditures of \$19,903,300 increased to \$20,153,340 while revenues increased from \$20,468,100 to \$20,941,150. The City of Rockwall had originally estimated the ending general fund balance to be \$8,346,396 however due to the budget adjustments mentioned above, the fund balance was re-estimated to be \$7,705,856.

General fund revenues were \$21,425,343, an increase of \$484,193 over the final budget. Actual general fund total expenditures were in line with the revised budget. The actual fund balance of \$8,266,814 was higher due to management's conservative projections of both revenues and expenditures.

## **CAPITAL ASSET AND DEBT ADMINISTRATION**

### Capital Assets

At the end of the fiscal year 2008 the City had \$234,705,790 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines. The balances shown below are net of accumulated depreciation.

**Table 3  
Capital Assets at Year-End**

Wastewater treatment facilities	-	-	8,351,286	8,517,390	8,351,286	8,517,390
	<u>\$ 159,028,553</u>	<u>\$ 126,605,277</u>	<u>\$ 75,677,237</u>	<u>\$ 66,519,736</u>	<u>\$ 234,705,790</u>	<u>\$ 193,125,013</u>

The City's capital improvement program includes a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were under construction in 2008. A number of drainage projects are anticipated during the five-year planned capital improvement period. The City completed construction on the new Animal Adoption Center in Spring 2008.

The City held a bond election in November 2005 which funded road, park and fire projects in excess of \$64,000,000. In addition to the 205 Bypass project, the City was authorized to move forward with several neighborhood parks projects and the acquisition of land for two large regional parks. Progress has been made and includes the purchase of land for a large park in the northern area of the City, and completed construction on all of the neighborhood parks. The addition of two new fire stations was approved by the voters. Construction is underway and should be completed in Summer 2009.

Construction in progress at September 30, 2008 for governmental activities included the ongoing construction costs associated with the 205 Bypass project, the Fannin Street reconstruction project and various other improvements.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extension of sanitary sewers into new areas of the city. A new two-million gallon water tower nearing completion in the northern area of the City was included in construction in progress at year end.

Additional information pertaining to the City of Rockwall's capital assets can be found in note 3-C on pages 49 - 52.

## Debt

At year end, the City had \$121,405,090 in bonds and capitalized leases shown in Table 4.

**Table 4**  
**City of Rockwall Outstanding Debt**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2008	2007	2008	2007	2008	2007
General obligation bonds	\$ 74,925,362	\$ 55,720,824	\$ 154,638	\$ 184,176	\$ 75,080,000	\$ 55,905,000

Capital Lease obligations	-	-	4,805,090	5,040,094	4,805,090	5,040,094
	<u>\$ 93,980,362</u>	<u>\$ 76,045,824</u>	<u>\$ 27,424,728</u>	<u>\$ 18,584,270</u>	<u>\$ 121,405,090</u>	<u>\$ 94,630,094</u>

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 3.32% or \$2,934 per capita.

The City's bond ratings at September 30, 2008 were as follows:

	General Obligation	Revenue	Sales Tax(REDC)
Standard & Poor's Rating Group	AA-	A-	A-
Moody's Investor Service Inc.	A1	A2	A3

Additional information on the City of Rockwall's long-term debt can be found in note 3-E, on pages 54-61 of this report.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal year 2009 budget, tax rate, and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the growth in our community and the economic climate. Rockwall has seen the construction of a number of new commercial/retail business developments which are expected to positively impact sales tax revenues. Slowing development caused the City to be very conservative in projecting revenues from sales taxes and building permits. While commercial building starts were strong in 2008, they are projected to be significantly more moderate in 2009. Interviews with local builders led the City to project continued slow home starts for the coming year.

The City of Rockwall's citizens enjoy above-average income levels per household. This in combination with the City's proximity to major highways, and the Dallas-Ft. Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and a "hometown" atmosphere in Rockwall. The Rockwall Economic Development Corporation works diligently to attract businesses with relocation incentives as well as providing business retention incentives such as workforce training opportunities.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2009. The budgeted revenues for fiscal year 2009 total \$21,905,000 for the general fund. Ad valorem tax revenue is determined by two factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. Due to the debt service requirements of voter approved debt, issued in years 2006 - 2008 and to be issued shortly after the new fiscal year begins, the property tax rate was increased to 50.31 cents per hundred dollars of assessed value. Due to the slowing economy but in recognition of the new Costco Wholesale Store opening in spring 2009, city officials have projected a 5% increase in that revenue over the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. In addition, the policies set minimum, recommended and maximum fund balance levels for the City's fund types. The general fund minimum fund balance is set at 3 months recurring operating expenditures. The recommended fund balance is 5 months of recurring operating expenditures and the maximum fund balance is 7 months of recurring operating expenditures. The budget as adopted for fiscal year 2009 projects a fund balance of approximately 4.25 months of recurring operating expenditures.

A number of initiatives including a review of our code of ordinances and a land development study for Planned Development 32 are authorized for fiscal year 2009. The City budget includes funds for several small business owners to attend an exciting program on building destination businesses and the establishment of the Main Street program. The City is studying annexation of an area which is currently underserved in a number of ways. Planning efforts will focus on appropriate zoning for the area, bringing the water and wastewater system in the area up to city standards and assisting with property rehabilitations. Following the Customer Centered Culture methodology, the City expects to continue to integrate the program across all city departments and new projects. In addition, the City will again offer Citizen Fire and Police Academies to provide citizens the opportunity to learn more about these city departments and become active with the City.

The water and sewer rates adopted in fiscal year 2006 are being reviewed by our rate consultant with his report to be issued in fiscal year 2009. A number of capital projects to expand the system are being planned for fiscal year 2009.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. Email [msmith@rockwall.com](mailto:msmith@rockwall.com).

CITY OF ROCKWALL, TEXAS  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED SEPTEMBER 30, 2008

Net change in fund balances - governmental funds	\$ (8,753,146)
Amounts reported for governmental activities in the statement of activities are different because:	
The net revenue (expense) of internal service funds is reported with governmental activities in the statement of net assets.	(393,620)
Certain assets are not available to pay for current period expenditures and are not reported as revenues in the funds. The following amounts represent the changes in these assets during the year:	
Property taxes receivable	71,970
Assessments receivable	(19,139)
Contributions receivable	(49,588)
Franchise taxes receivable	241,247
Court fines receivable	(15,654)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$33,408,446) exceeded depreciation (\$6,314,742) and retirements (\$656,754) in the current period.	26,436,950
Donations of capital assets increase net assets in the statement of activities, but are not reported in the funds because they do not provide current financial resources.	5,986,326
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$468,837) exceeded amortization (\$76,741) in the current period.	392,096
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	(141,568)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds (\$22,760,101) exceeded repayments (\$4,335,462) and bond premium amortization (\$60,336) in the current period.	(18,364,303)
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	<u>(111,845)</u>
Change in net assets of governmental activities	<u>\$ 5,279,726</u>

The accompanying notes are an integral part of this statement.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Reporting Entity*

The City of Rockwall, Texas (the "City") was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer services as a proprietary function of the City.

The accounting policies of the City conform to generally accepted accounting principles issued by the Governmental Accounting Standards Board (GASB) which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City is a home rule municipality governed by an elected Mayor and six-member City Council who appoint a City Manager. The City's financial statements include its component units. The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either: (1) the City's ability to impose its will on the organization, or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the City.

*Discretely Presented Component Units*

The Rockwall Economic Development Corporation (REDC) is governed by a five-member Board of Directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park being developed by REDC. RTPA's Board of Directors is composed of representatives of the landowners. At September 30, 2008, REDC owned the majority of the land and the Board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. RTPA does not have the authority to determine its budget, set rates or charges, or issue bonded debt without the approval of the City. Accordingly, RTPA is fiscally dependent on the City, and the City is financially accountable for RTPA.

The funds of both REDC and RTPA are composed of governmental fund types. Stand alone financial statements for REDC and RTPA as of and for the fiscal year ended September 30, 2008, are not prepared.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Government-wide and Fund Financial Statements*

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of capital assets used in the operation of governmental funds.

The *205 Bypass Project Fund* accounts for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance and workers' compensation coverage services provided to other departments or agencies of the government on a cost-reimbursement basis.

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

*Assets, liabilities, and net assets or equity*

Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and workers' compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City's investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than five (5) years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.
- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Deposits and investments - continued

- e. Certificates of deposit issued by a state or national bank domiciled in the State of Texas or a savings bank domiciled in the State of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items "a" through "d" above. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the State of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net asset value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

The City holds various mortgage-backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of one year or more, when purchased, are stated at fair value. Short-term investments are stated at cost or amortized cost.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1st by the City based on the January 1st property values as assessed by the Rockwall Central Appraisal District. Taxes are due without penalty until January 31st of the next calendar year. After January 31st the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

Inventories and prepaid items

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings	20 - 30 years
Building improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of three days of sick leave to one day of vacation leave and shall be paid to the employee. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1st, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain special revenue funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During the year ended September 30, 2008, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – continued

A. Budgetary information – continued

6. The City did not adopt budgets for the Emergency Siren Fund, the Downtown Improvement Fund, and the Art in Public Places Fund, all of which are special revenue funds.
7. Capital project funds were not budgeted. Since project-length financial plans usually extend into two or more fiscal years, annual comparisons would be confusing and misleading.

B. Excess of expenditures over appropriations

Expenditures exceeded appropriations by \$6,630 in the Police Investigation Fund because of costs incurred in establishing the department's tactical unit.

Expenditures exceeded appropriations by \$16,594 in the Recycling Fund due to heavier than expected volumes of materials collected at the City's Environmental Action Day event.

Expenditures exceeded appropriations by \$1,241,693 in the Rockwall Economic Development Corporation as a result of the acquisition of land and the sale of an industrial building which was held in inventory and secured a loan which was repaid with the sale.

C. Deficit fund equity

The Equipment Acquisition Fund had a deficit fund balance in the amount of \$144,585 at September 30, 2008, as a result of equipment purchases made in advance of a related debt issue. The City adopted a reimbursing resolution which allows these funds to be repaid with the proceeds of a future debt issue.

The Employee Benefits Fund had a deficit net asset balance in the amount of \$275,810 at September 30, 2008, because of unanticipated health care claims late in the fiscal year in excess of budgeted amounts. This deficit will be covered by future transfers from the General Fund.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2008, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$1,280,419, which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2008, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS – continued

A. Deposits and investments – continued

Investments – continued

The City's investments in U.S. Treasury bills and notes are backed by the full faith and credit of the U.S. government. The City's investments in U.S. government agencies are rated AAA by Standard & Poor's or Aaa by Moody's Investors Service. The City's investments in certificates of deposit and money market funds are not rated. See Note 1 (pages 40-42) for a summary of the City's investment policy relating to credit risk.

Custodial credit risk for investments is the risk that the City will not be able to recover the value of its investments that are in the possession of an outside party. At September 30, 2008, the City's investments were entirely insured or registered in the City's name; as a result, the City's investments were not exposed to custodial credit risk.

B. Receivables

In the Water and Sewer Fund, accounts receivable and revenues are reported net of uncollectible amounts. For the year ended September 30, 2008, the uncollectible amounts related to accounts receivable totaled \$427,799, and the uncollectible amounts related to revenues of the current period totaled \$75,651.

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable:		
General Fund	\$ 180,190	\$ -
Debt Service Fund	173,958	-
Assessments receivable not yet due:		
Street Improvements	149,063	-

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS – continued

C. Capital assets – continued

Capital asset activity of the Rockwall Economic Development Corporation (a discretely presented component unit) for the year ended September 30, 2008, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Completed Construction</u>	<u>Ending Balance</u>
Capital assets being depreciated:					
Furniture and fixtures	\$ 69,504	\$ 14,442	\$ -	\$ -	\$ 83,946
Less accumulated depreciation for:					
Furniture and fixtures	<u>(60,020)</u>	<u>(3,856)</u>	<u>-</u>	<u>-</u>	<u>(63,876)</u>
REDC capital assets, net	<u>\$ 9,484</u>	<u>\$ 10,586</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 20,070</u>

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of September 30, 2008, is as follows:

<u>Fund</u>	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 189,000	\$ -
Nonmajor governmental funds	-	167,000
Special Escrow Agency	<u>-</u>	<u>22,000</u>
Total interfund balances	<u>\$ 189,000</u>	<u>\$ 189,000</u>

The outstanding balances between funds result primarily from the time delay between the dates that interfund goods and services are provided and payments between funds are made. Also, working capital loans are made to capital projects funds in advance of debt issuances. These are expected to be collected within one year.

CITY OF ROCKWALL, TEXAS

E. Long-term debt

General obligation debt

The City issues general obligation debt (in the form of general obligation bonds, certificates of obligation, contractual obligations, and notes payable) to provide funds for the acquisition and construction of major capital facilities. General obligation debt has been issued for both governmental and business-type activities. These issues are direct obligations and pledge the full faith and credit of the City. General obligation debt outstanding as of September 30, 2008, is as follows:

Total revenue bonds	\$ 12,516,330		

Refunded bonds

In previous years, the City purchased U.S. government securities that were placed in irrevocable trusts with escrow agents to provide for all future debt service payments on certain bonds. As a result, these bonds are considered to be defeased and the liability for these bonds has been removed from the City's statement of net assets. The outstanding balances of refunded bonds at September 30, 2008, are as follows:

Bond Type	Year of Issue	Year Refunded	Balance 9/30/08
General obligation	1995	2003	\$ 2,200,000
General obligation	2000	2005	1,395,000

Conduit debt obligations

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2008, there was one series of revenue bonds outstanding. The aggregate principal amount payable on the outstanding bonds was \$1,700,000.

Authorized and unissued debt

The following table details the status of all authorized and unissued debt as of September 30, 2008:

4. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of City employees and their covered dependents and minimize the total cost of annual medical insurance to the City. Medical claims in any one year exceeding \$65,000 per covered individual, or approximately \$2,162,253 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2008.

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers' compensation plan. Under this plan, workers' compensation insurance is provided in accordance with state statutes to all City employees. To protect the assets of the plan from a catastrophic claim, the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a maximum City liability of \$600,000 per year.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

A. Risk management – continued

The Workers' Compensation Fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported are not believed to be significant to the City's financial statements.

Changes in the balances of claims liabilities during the past two years are as follows:

	Employee Benefits		Workers' Compensation	
	2008	2007	2008	2007
Claims payable, beginning of the year	\$ 147,395	\$ 234,990	\$ 2,517	\$ 2,933
Claims incurred	2,542,806	1,698,992	104,293	34,746
Claims paid	(2,514,029)	(1,786,587)	(96,113)	(35,162)
Claims payable, end of the year	\$ <u>176,172</u>	\$ <u>147,395</u>	\$ <u>10,697</u>	\$ <u>2,517</u>

Commercial insurance is purchased for the other risks of loss to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

B. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney, Royse City, and Frisco (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment, processing, and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to: (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams, and underground water for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest, equity investments, and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

B. North Texas Municipal Water District – continued

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek, and in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable the District to: (1) expand the sewage treatment facilities and continue to provide sewage treatment services to the City; (2) construct a 3.0 million gallon ground storage reservoir in which the Cities of Rockwall and Heath own 66.67% and 33.33% undivided interests, respectively; and (3) construct an 8.6 million gallon-per-day pump station for the exclusive benefit of the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the annual budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the paying agent and the registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related assets have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2008, is \$4,805,090. See Note 3E for the annual requirements to amortize the bonds as of September 30, 2008.

With respect to the ground storage reservoir discussed above, the Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of the related operating expenses and debt service payments. While the City anticipates its share of these payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

C. Contingent liabilities and commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 3E above, the general revenues of the City are contingently liable in the amount of \$10,089,638 for general obligation bonds and certificates of obligation which are currently outstanding and recorded as obligations of the Water and Sewer Fund.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

C. Contingent liabilities and commitments – continued

The City contracts for solid waste disposal with a third party. Under the terms of the agreement, the City bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2008, these commitments totaled \$1,970,569.

D. Employee retirement systems and pension plans

Texas Municipal Retirement System

Plan Description – The City provides pension benefits for all of its full-time employees (except volunteer firefighters) through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 827 administered by TMRS, an agent multiple-employer public employee retirement system. Each of the 827 municipalities has an annual, individual actuarial valuation performed. All assumptions for the December 31, 2007 valuations are contained in the 2007 TMRS Comprehensive Annual Financial Report which can be obtained by writing to P.O. Box 149153, Austin, Texas 78714-9153.

Benefits – Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount at least equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his/her salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. Plan provisions for the City were as follows:

Deposit rate: 7.00%

Matching Ratio (City to Employee): 2 to 1

Members can retire at ages 60 and above with five or more years of service or with 20 years of service regardless of age. A member is vested after five years.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

D. Employee retirement systems and pension plans – continued

Contributions – Under the state law governing TMRS, the actuary annually determines the City contribution rate. The rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's amortization period. The Projected Unit Credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2007 valuation is effective for rates beginning January 2009.

A schedule of funding progress as of the three most recent actuarial valuation dates is as follows:

	Actuarial Valuation Date		
	12/31/2007	12/31/2006	12/31/2005
Actuarial value of assets (a)	\$ 20,486,755	\$ 17,878,974	\$ 15,968,994
Actuarial accrued liability (AAL) - unit credit (b)	32,796,027	23,911,430	21,310,890
Unfunded (over-funded) AAL (UAAL) (b-a)	12,309,272	6,032,456	5,341,896
Funded ratio (a/b)	62.5%	74.8%	74.9%
Annual covered payroll (c)	12,404,225	10,942,328	10,325,619
UAAL as a percentage of covered payroll ((b-a)/c)	99.2%	55.1%	51.7%

CITY OF ROCKWALL, TEXAS

A summary of the City's net pension obligation (NPO) and annual required contributions for the last three fiscal years is as follows:

	Fiscal Year Ended September 30		
	2008	2007	2006
NPO at the beginning of the period	\$ -	\$ -	\$ -
Annual required contribution	1,561,437	1,491,116	1,367,738
Contributions made (100%)	<u>(1,561,437)</u>	<u>(1,491,116)</u>	<u>(1,367,738)</u>
NPO at the end of the period	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

A summary of the actuarial assumptions used is as follows:

Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	30 Years - Closed Period
Asset Valuation Method	Amortized Cost
Investment Rate of Return	7.0%
Projected Salary Increases	Varies by age and service
Inflation	3.0%
Cost-of-Living Adjustments	2.1%

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$52,800 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a Board of Directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 42 active participants currently covered by the Fund and payments are being made to 20 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments; however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P.O. Box 12577, Austin, Texas 78711.

E. Subsequent event

In October 2008, the City issued debt totaling \$32,935,000. This debt issuance was comprised of: (1) general obligation bonds (\$9,515,000) for the continued construction of the 205 Bypass and other roadway rehabilitation projects; (2) revenue certificates of obligation (\$23,025,000) for the construction of the Squabble Creek lift station and force main and various water transmission line and wastewater force main projects; and (3) tax-supported certificates of obligation (\$395,000) for equipment acquisition.

## *SPECIAL REVENUE FUNDS*

**Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.**

Cemetery – established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation – established to account for donations, court security fees, and forfeitures.

Recreational Development – established to account for the annual lease income from marinas and golf course.

Radio System – established to account for revenues and expenditures for the support of the City's radio system.

Street Improvements – established to account for the proceeds of street improvement assessments.

Hotel Motel Tax – established to account for the annual income from hotel motel taxes.

Fire Equipment – established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation – established to account for funds received from airport operations and related expenses.

Recycling – established to account for funds to be used for the City's recycling program.

Emergency Siren – established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Downtown Improvement – established to account for revenues and expenditures related to the City's efforts to revitalize the downtown square.

Art in Public Places – established to account for donations received for developing art displays in public areas such as parks.

Special Crimes Unit – established to account for revenues and expenditures related to a county-wide crime task force.

## *CAPITAL PROJECTS FUNDS*

**Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.**

Capital Projects – established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

Equipment Acquisition – established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

G.O. Bonds Capital Projects – established to account for street and drainage projects using proceeds from the issuance of bonds.

205 Bypass Project – established to account for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

AND CHANGES IN FUND BALANCES  
DISCRETELY PRESENTED COMPONENT UNITS  
FOR THE YEAR ENDED SEPTEMBER 30, 2008

	Rockwall Economic Development Corporation	Rockwall Technology Park
Revenues:		
Sales taxes	\$ 3,250,735	\$ -
Charges for services	-	117,786
Interest income	148,519	1,453
Miscellaneous	238,501	-
Total revenues	<u>3,637,755</u>	<u>119,239</u>
Expenditures:		
Current:		
Administration	1,911,493	116,207
Total current	<u>1,911,493</u>	<u>116,207</u>
Capital outlay:		
Administration	15,664	-
Total capital outlay	<u>15,664</u>	<u>-</u>
Debt service:		
Principal	7,379,229	-
Interest	743,794	-
Bond issuance costs	66,741	-
Fiscal charges	3,622	-
Total debt service	<u>8,193,386</u>	<u>-</u>
Total expenditures	<u>10,120,543</u>	<u>116,207</u>
Excess of revenues over (under) expenditures	<u>(6,482,788)</u>	<u>3,032</u>
Other financing sources:		
Bonds issued	4,545,000	-
Total other financing sources	<u>4,545,000</u>	<u>-</u>
Net change in fund balances	(1,937,788)	3,032
Fund balances, October 1	<u>18,592,365</u>	<u>47,299</u>
Fund balances, September 30	<u>\$ 16,654,577</u>	<u>\$ 50,331</u>

CITY OF ROCKWALL, TEXAS  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF DISCRETELY PRESENTED  
COMPONENT UNITS TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2008

	<u>Rockwall Economic Development Corporation</u>	<u>Rockwall Technology Park</u>
Net change in fund balances - discretely presented component units	\$ (1,937,788)	\$ 3,032
Amounts reported for discretely presented component units in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$3,856) exceeded capital outlays (\$14,442) in the current period.	10,586	-
Governmental funds report debt issuance costs as expenditures.		
However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$66,741) exceeded amortization (\$11,019) in the current period.	55,722	-
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.		
	38,906	-
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which repayments (\$7,379,229) and bond premium amortization (\$9,072) exceeded bond proceeds (\$4,545,000) in the current period.		
	2,843,301	-
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.		
	<u>(4,116)</u>	<u>-</u>
Change in net assets of discretely presented component units	<u>\$ 1,006,611</u>	<u>\$ 3,032</u>

*STATISTICAL SECTION*

## STATISTICAL SECTION

Tables in the statistical section present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the overall financial health of the City.

	<u>Pages</u>
<u>Financial Trends</u> - These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	102-111
<u>Revenue Capacity</u> - These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	112-117
<u>Debt Capacity</u> - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	118-122
<u>Demographic and Economic Information</u> - These schedules offer demographics and economic indicators to help the reader understand the environment within which the City's financial activities take place.	123-124
<u>Operating Information</u> - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	125-128

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

TABLE 18

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year

*INTRODUCTORY SECTION*

City of Rockwall  
*The New Horizon*

March 10, 2008

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Rockwall for the fiscal year ended September 30, 2007, is hereby submitted. State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Rockwall. Consequently, management assumes full responsibility for both the accuracy of the data, and the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities has been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Fox, Byrd & Company, CPA a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2007, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2007, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements as required by GAAP. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, County Seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth International Airport and Love Field in Dallas meet the air transportation needs of the region.

The City currently has a land area of approximately 23.83 square miles and an estimated population of 31,407.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments have been adopted as recently as 2005. Policymaking and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; planning and zoning, parks and recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in Note 1 of the Notes to the Financial Statements.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when considered from the broader perspective of the specific environment within which the City of Rockwall operates.

### **Local Economy**

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. Rockwall enjoys a favorable economic environment and local indicators point to continued stability. In 2007 new commercial development starts were strong. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Property values continue to rise. The most recent five-year average is 8.97% per annum. The City's largest taxpayers include a number of commercial developments. Table 12 in the Statistical Section provides further information on the principal taxpayers. The Rockwall Economic Development Corporation continues to assist companies looking to locate their business in the City. The year's highlights included:

- Completion by Whittle Development of Phase I of their Bella Harbor, lakefront development. Construction was completed on approximately 90,000 square feet of retail and restaurant space which began providing premier entertainment opportunities for the area. Progress continues on the full service Hilton Hotel and Convention Center at the development. The grand opening for these facilities is expected in Spring 2008.
- Office Depot and 24 Hour Fitness Center are the new tenants of the former Kroger Building, after the company moved to its new retail center.
- Belk's Department Store is completing construction in The Plaza development with their grand opening in October 2007.
- Best Buy and Dick's Sporting Goods are also under construction as tenants of The Plaza development and will open in time for holiday shopping. Staples, Ulta and JC Penney will follow shortly after the holidays.
- The Crossing phases I and II which broke ground in 2006 has added over 500,000 square feet of new retail space to enhance Rockwall's role as a regional shopping destination.
- Presbyterian Hospital of Rockwall will complete construction of their acute care facility in December 2007 and approximately 40,000 square feet of medical office space in the immediate area soon after.
- Downtown Rockwall are welcoming Tulum Bistro and the Rockwall Cake Factory to the business district and Smitty's Roadhouse near the Square. Candlelights and Lamposts Lady's Boutique and Men's Shop opened summer 2007.
- SPR Packaging, LLC is completing development of a major rail-served industrial location on the new Justin Road and Industrial Boulevard extensions. SPR is expected to build, phased-development in excess of 150,000 square feet, adding significant value to the property tax base. The Justin Road project was financed by the REDC and will enhance the area's potential for industrial development.

## Long-term Financial Planning

The City Council and staff have recognized the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

A number of long-range studies have been completed or updated recently. Our Parks consultant continues to develop plans for several future parks projects, while the City is moving forward with the acquisition of land for another regional park project. This land will allow the City to develop a 50-acre park in the southern area of the City. The City Council received the consultant's report on long range planning of space needs for the next 20 years.

The Planning and Zoning department hired a staff person to continue implementation of GIS technology in order to further expand the City's capabilities and coordination across departments. The City Council has identified the downtown area as a critical component of our long range plan. The City working with business and community leaders will continue the central business district planning effort. City staff completed an update of the Central Business District zoning in 2007. Staff is working with a Historic Preservationist to document the historic business buildings in the downtown area.

The City has studies underway to evaluate a roadway impact fee as well as updates to the water and sewer impact fees. A water and sewer rate study will be completed in 2008

The Rockwall Economic Development Corporation will further their planning efforts by finalizing their Destination 2020 plan in 2008. This comprehensive document will include demographics, target industries, marketing strategies, competition, site selection criteria, and alliances among its parameters.

Organizationally, the City began the process of refining its strategic plan using the Balanced Scorecard Methodology. When the strategy map was completed in 2003, the City's strategic initiatives for the implementation of the City's goals were formalized within the organization. Departmental business plans were developed and are updated as progress is made and priorities change. These business plans develop performance measures for the strategic initiatives for which each department is responsible. During 2006, the City began a process to implement the Customer Centered Culture methodology (C3) into the organization.

C3 encourages cross department teams to follow a proven course of data compilation and actions that allow the teams to develop product improvements. C3 recognizes that the services we provide are ultimately comprised of a number of products and those products need to be designed to meet our customer's needs, not what we perceive are their needs. Training was conducted with more than 40 employees to develop meeting facilitation skills in order to further this effort. Four project teams met regularly during 2007 to develop product improvements. Their efforts were used to build the framework by which the City moves forward integrating C3 organizationally.

In addition, the City refined its "Rockwall University" program to cover a broader range of training programs. Courses initially allowed employees to understand the workings of departments other than their own. The course offerings will also be used to complement the city's succession planning program. Mid level managers and first line supervisors are participating in workshops to develop their management skills and prepare our next generation of organization leaders. This group will continue to collaborate on projects to build cross department alliances and understanding of the resources available to our managers.

## Future Development

### Transportation

The City began the multi-phased design of the 205 Bypass roadway project approved by voters in late 2005. Right of Way acquisition is being completed and the phased road construction is underway. This roadway, on the eastern edge of the City is expected to provide traffic relief through the City's center and should be complete in December 2008. The Texas Department of Transportation began construction on the widening of SH205 (Goliad Street) through the City in 2007, a project which will take up to 4 years to complete. City projects under construction in 2008 will include the reconstruction of Fannin and Sam Houston streets as well as several drainage projects.

The City is a member of a County-wide Consortium which allows the County government officials to work with officials of each of the seven cities in the county to further transportation planning efforts. The Consortium meets monthly to discuss funding alternatives for the County's transportation needs, most of which involves partial or complete state participation.

### Medical Services

Recent developments in the Horizon Road area have focused on medical services. Several new medical buildings with Doctor's suites joined state of the art out-patient diagnostic imaging facilities in the past two years. With the opening of Presbyterian Hospital of Rockwall in 2008, acute care will now be available in the City. Ancillary medical office buildings and long term care facilities are planned for near term development. The medical corridor is expected to quickly develop into a regional medical destination.

### Retail / Entertainment

"The Harbor" public improvements, situated on the shores of Lake Ray Hubbard at I-30, were completed early in fiscal year 2007. A public/private partnership provided opportunities for new retailers in the Bella Harbor development as well as public open space. The largely undeveloped hillside will soon include a full-service Hilton Hotel and Conference Center. In addition, Phase II of Bella Harbor will shortly add more retail, restaurant and office space. The City and Chamber of Commerce are working to attract events to the Conference Center which will formally open in Spring 2008. The development has become a regional entertainment destination.

In conjunction with the private development, the City established a tax increment financing (TIF) zone in an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The City partnered with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF to finance the public projects.

Tenant finish out continues in the private development with Agave, El Patillo and Valore's restaurants opening late in 2007. They will be joined in 2008 by the Blue Canyon and Celebrity Bakery. Retail establishments entering the development will include Bath Junkie and Rocky Mountain Chocolate Factory.

## Recreation

The City completed construction on neighborhood parks in the Shores and Fox Chase subdivisions. Neighborhood parks in the Emerald Bay and Hickory Ridge subdivisions will be completed in 2008. Planning for the third major park commenced with a C3 project by the City to determine customer's desires for the park and its amenities. Planning will continue on the remaining regional parks projects. Trail development has long been a priority for the City and construction of trail connections will continue in 2008 with voter approved bond proceeds.

The City's popular Concert on the Lake series continues to draw thousands of residents and visitors each week. Founder's Day on the Downtown Square draws visitors to shop merchant's wares, see artist's exhibits, learn about city departments and enjoy free concerts all day. The event culminates with a concert by a nationally recognized artist, also free to all who attend.

## Facilities

Site selection is complete and the design of Fire Stations 3 and 4, approved by voters in 2005, will be completed early in 2008 with construction expected to start late in the year.

The Rockwall Animal Adoption Center will open in 2008, the culmination of many years of planning and funding efforts. The new facility will allow staff to care for animals until they are reunited with their family and provide opportunities for the public to find their new pet.

The Rockwall Police Department will begin training in their new Firearms Training Facility in 2008. A joint effort between the county and four area cities allows each entity to provide a training facility which should meet their department's needs for many years at a reasonable cost to the taxpayers. The joint project was the first capital improvement project financed by the Emergency Services Corporation, a local government corporation established by Rockwall County and its seven cities to promote regional cooperation on emergency services projects.

## Utilities

The water and sewer rates were last increased in 2006 by 4% to our retail and wholesale customers. A water and sewer rate study will be completed in 2008 and staff expects to be recommending additional rate increases. The City purchases treated water as a founding member city of the North Texas Municipal Water District. The City has begun construction on a new two-million gallon water tower in the northern area of the City as well as projects to increase capacity in the regional sewer interceptor system and is preparing to move forward with construction on the Squabble Creek sewer system. A number of main extension projects are being undertaken to provide water and sewer service to annexed areas of the City.

The City's water system was recognized with the Texas Commission on Environmental Quality's "Superior" rating in 2007.

Cash Management: The City invests cash temporarily idle during the year in money market funds and short-term notes of the U.S. Government and its agencies. Other cash classified as being not immediately needed is invested in longer-term obligations of the U.S. Government and its agencies. All of these investments are classified as "hold-to-maturity" investments. The City believes that it will not be required to sell these investments prior to maturity, barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the

City. The City has no reverse repos nor has any other form of borrowing been used to finance the City's portfolio.

The City's investment policy is to safeguard the City's assets and maintain liquidity while enhancing the yield of its portfolio and ensuring public trust. Securities owned by the City were held in a financial institution trust department acting as an agent of the City, in the City's name.

Risk Management: In fiscal year 1990, the City established a Self-Insurance and Risk Management Program. Under the terms of this program, the City is permitted by law and its home rule charter to insure itself against the various risks of liability and loss to which it is exposed. This may be done either through an insurance provider or through a defined self-insurance program. Other risks to which the City is exposed are covered by commercial insurance.

Retirement System: The City of Rockwall provides pension benefits to all full-time employees through a nontraditional, joint contributory defined benefit plan administered by the Texas Municipal Retirement System, an agent multiple-employer public retirement system. Pension expense for the calendar year ended December 31, 2007 (including prior service costs amortized over 25 years) was \$1,491,116. The City of Rockwall does not provide post employment health and dental benefits for retirees.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below. Revenue debt has been excluded since system charges are used to retire the debt.

Outstanding General Obligation Debt at 9-30-07(net of Debt Service)	\$74,962,504
Estimated Population	31,407
G.O. Debt Per Capita	\$2,387
Net G.O. Debt per Assessed Value	2.91%

The City's bond ratings at September 30, 2007 were as follows:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	A+	A-	A-
Moody's Investor Service Inc.	A1	A2	A3

**AWARDS AND ACKNOWLEDGEMENTS**

Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2006. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for each of the last seventeen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Julie Couch  
City Manager

Mary Smith, CPA

## INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Rockwall, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of and for the year ended September 30, 2007, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of September 30, 2007, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 10, 2008, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 14–25 and the budgetary comparison information on page 67 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2007. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total net assets were \$154,110,068 at September 30, 2007.
- During the year, the City's expenses were \$2,680,684 less than the \$34,609,698 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2007 by \$86,132,544 (net assets). Of this amount \$13,386,297 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$8,335,289 or approximately 42.5 percent of the total general fund expenditures and transfers out.
- The City's total outstanding bonds and certificates of obligation (excluding enterprise and component unit debt) decreased by \$3,726,505 during fiscal year 2007. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

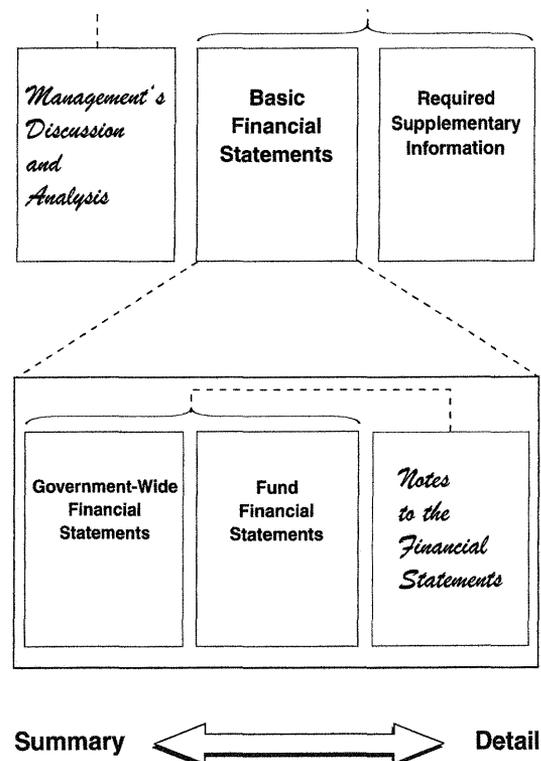

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City's Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>			
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>	<b>Fiduciary Funds</b>
<i>Scope</i>	Entire City's government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary	Activities the City operates similar to private businesses.	Instances in which the City is the trustee or agent for someone else's resources
<i>Required financial statements</i>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>◆ Balance Sheet</li> <li>◆ Statement of revenues, expenditures &amp; changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of net assets</li> <li>◆ Statement of revenues, expenditures &amp; changes in fund net assets</li> <li>◆ Statement of cash flows</li> </ul>	<ul style="list-style-type: none"> <li>◆ Statement of fiduciary net assets</li> <li>◆ Statement of changes in fiduciary net assets</li> </ul>
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus

<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

### **Government-wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall's finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the city of Rockwall's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health or financial condition of the City.

The *statement of activities* presents information showing how the City's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City's basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services finance most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City's 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit's Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements can be found on pages 26 - 28 of this report.

## **Reporting the City's Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. *Funds* are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 25 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund, capital projects fund, G.O. bonds capital projects fund and 205 Bypass fund, all of which are considered to be major funds. Data from the other 16 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City’s enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City’s self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City’s retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City’s intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City’s fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City’s government-wide financial statements because the City cannot use these assets to finance its operations.

*Notes to the financial statements*-The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report presents certain *required supplementary information* concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2007, the City's net assets (assets exceeding liabilities) totaled \$154,110,068. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

The largest portion of the City's net assets (63% percent) reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Table 1**  
**Net Assets**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2007	2006	2007	2006	2007	2006

Unrestricted	<u>13,386,297</u>	<u>11,683,150</u>	<u>5,463,619</u>	<u>7,081,727</u>	<u>18,849,916</u>	<u>18,764,877</u>
Total net assets	<u>\$ 86,132,544</u>	<u>\$ 83,451,860</u>	<u>\$ 67,977,524</u>	<u>\$ 67,065,372</u>	<u>\$ 154,110,068</u>	<u>\$ 150,517,232</u>

An additional portion of the City of Rockwall's net assets, \$37,879,825 or 24.5 percent represents resources that are subject to external restrictions on how they may be used. The net assets which are *Restricted for capital projects* are due to debt being issued as projects are designed and construction is beginning. The remaining unrestricted net assets, \$18,849,916, may be used to meet the government's ongoing obligations to citizens and creditors.

The following table will document key elements of the increase in total net assets for the year ended September 30, 2007.

## Governmental Activities

The City's total revenues of governmental activities were \$33,259,363. A significant portion 35.6%, of the City's revenues came from property taxes. Another 26.8% of revenue came from sales taxes. Ad valorem property tax revenues continue to increase each year due to the addition of new properties and increased valuation throughout the City. Assessed values of the properties in the City increased by 147,621,216 or 3.1%. The City adopted a property tax rate of 42.50 cents per \$100 of assessed valuation for fiscal year 2007. This represented an increase of 5.61 cents. This marked only the second time in twelve years that the tax rate was increased. The increase was attributable in large part to debt service requirements for voter approved projects. Sales tax revenue increased only slightly over the prior year. The increase, a modest 4.4% was reflective of a general slowing of the economy.

The overall economy slowed significantly during 2007. The national decline in new housing starts was felt on the local level as well with residential building permits revenue down (included in other revenues) when compared to prior year's levels. The City experienced higher levels of commercial building during the fiscal year which moderated the revenues. Over the past several years, Rockwall County, of which the City of Rockwall is the County seat, was one of the fastest growing counties in America, and the fastest growing county in Texas.

The Bella Harbor project, a lakefront multi-use planned development, is finishing construction with several more establishments expected to open late in 2007. It is expected to have a positive effect on sales taxes and property taxes in the area as well as tourism. A tax increment financing zone was established to provide for public improvements in the area.

## Comparative Expenses – Governmental Activities

The total cost of all programs and services were \$31,929,014. Of these costs \$7,001,771 (21.9%) was for the Police Department. Administrative departments including Administration, Human Resources, and Internal Operations had combined costs of \$5,523,924 (17.3%). Public Works costs were \$6,928,067 (21.7%) and reflected ongoing projects.

## Business-Type Activities

The City's business-type activities recorded an increase of \$912,152 in net assets. Water sales were very strong in 2006 due primarily to near record drought conditions. The City having previously implemented conservation water rates in 2001 began enforcing mandatory water restrictions in a regional effort to curtail usage during the drought period. Conservation efforts early in the fiscal year followed by near record rainfalls in the summer 2007 caused water sales to be lower than the prior year by 35.9%. Sewer charges were not affected significantly because the City uses winter averaging to calculate sewer billing. Water and sewer charges were \$8,771,324. Ending working capital, excluding restricted assets, for the water and sewer fund was \$3,751,770. This decline in working capital is reflective of both the decrease in water sales and planned expenditures for capital projects in advance of debt issuance.

Water and sewer impact fees totaled \$598,866 for the fiscal year. These impact fees are paid by developers and are designed to reduce the system's initial costs in building assets.

The City's water system received the "Superior" rating by the Texas Commission on Environmental Quality during 2007.

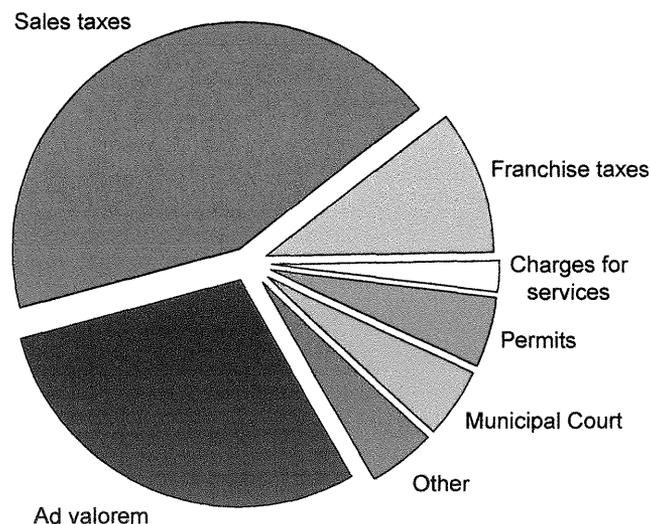

## Component Units

The Rockwall Economic Development Corporation (REDC) reported revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$3,408,218. Assets managed by the corporation include an inventory of over 230 acres of land, zoned for light industrial uses and available for sale and an industrial building currently leased and also available for sale. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's *General Fund* reported an ending unreserved fund balance of \$8,335,289; an increase of \$642,627 from the prior year. The main source of general fund revenue is sales tax, it accounted for \$8,534,183 (43.5%) of total general fund revenue. Ad valorem property taxes account for \$5,720,256 (29.2%) of general fund revenues. The increase in fund balance allows the City to maintain a "recommended" fund balance as defined within the City's financial policies. This "reserve" balance, representing five months of recurring operating expenditures allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

## Revenues by Source – General Fund

The City's *Debt Service Fund* reported a planned decrease in fund balance of \$377,974. Property tax collections for debt service requirements were \$6,100,738. This represents an increase of 64.8% in order to pay debt service payments on bonds issued to construct numerous road and parks projects underway in 2007.

The City *Capital Projects Fund* was used to account for the construction of the extension of Justin Road to serve new industrial projects and for infrastructure for the Presbyterian Hospital of Rockwall project. The Rockwall Economic Development Corporation issued debt in 2006 to fund the projects. Both projects are nearing completion at the end of fiscal year 2007.

The City began several road projects in fiscal year 2006 which were funded through debt issuance. The City reports these projects in its *GO Bonds Capital Projects Fund*. The City issued General Obligation bonds for voter approved projects. In addition to roadway rehabilitation and extension projects, the acquisition of park land, completion of neighborhood parks projects and construction of two fire stations was funded. Capital Outlay totaling \$7,635,093 is reported for 2007 on these multi-year projects. Most projects are expected to be completed in 2008.

The City also issued General Obligation bonds in 2006 to begin phased design and construction of the new *205 Bypass Project*. Voters approved construction of the roadway in a 2005 Bond Election Proposition. The project will include the multi-phase design, right of way acquisition and construction of a new 7 mile roadway on the eastern edge of the City which is designed to alleviate traffic burdens on State Highway 205 through the center of the City. Additional debt is anticipated in fiscal year 2008 with construction completion targeted in fiscal year 2009.

## **GENERAL FUND BUDGETARY HIGHLIGHTS**

During fiscal year 2007, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases or decreases in revenues when compared to original projections. With the adjustments made to the budget, the budgeted expenditures of \$19,177,500 decreased to \$18,567,350 while revenues decreased from \$19,859,200 to \$19,302,800. The City of Rockwall had originally estimated the ending general fund balance to be \$7,585,242 however due to the budget adjustments mentioned above, the fund balance was re-estimated to be \$7,736,042.

Management took steps to slow the City's spending in light of a decline in the actual revenues compared to projected revenues. Actual general fund revenues were \$19,617,205, an increase of \$314,405 over the final budget. Actual general fund total expenditures were \$373,349 less than the revised budget. Total revenues exceeded total expenditures by \$1,423,204. The actual fund balance of \$8,336,696 was higher due to management's conservative projections of both revenues and expenditures and cost saving measures adopted during the year.

## **CAPITAL ASSET AND DEBT ADMINISTRATION**

### Capital Assets

At the end of the fiscal year 2007 the City had \$193,125,013 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines. The balances shown below are net of accumulated depreciation.

**Table 3  
Capital Assets at Year-End**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2007	2006	2007	2006	2007	2006

Wastewater treatment facilities	-	-	8,517,390	7,093,333	8,517,390	7,093,333
	<u>\$ 126,605,277</u>	<u>\$ 113,792,963</u>	<u>\$ 66,519,736</u>	<u>\$ 57,396,358</u>	<u>\$193,125,013</u>	<u>\$ 171,189,321</u>

The City's capital improvement program includes a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were under construction in 2007. A number of drainage projects will also be undertaken during the five-year planned capital improvement period. The City is also under construction on the new Animal Adoption Center which should be completed in Spring 2008.

The City held a bond election in November 2005 which funded road, park and fire projects in excess of \$64,000,000. In addition to the 205 Bypass project, the City was authorized to move forward with several neighborhood parks projects and the acquisition of land for two large regional parks. Progress has been made and includes the purchase of land for a large park in the northern area of the City, and completed construction on 3 of the neighborhood parks. The addition of two new fire stations was approved by the voters. Design is underway with construction to begin in fiscal year 2008.

Construction in progress at September 30, 2007 for governmental activities included the rehabilitation of Townsend Road and Fannin Street, initial costs of the 205 Bypass project, and various other improvements.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extension of sanitary sewers into new areas of the city. A new two-million gallon water tower to be constructed in the northern area of the City was under construction at year end. Several projects approved in the City's capital improvement plan including participation in the joint construction of a shared ground storage facility and pump station as well as other line projects to improve system capacity and extend services were completed in 2007.

Additional information pertaining to the City of Rockwall's capital assets can be found in note 3-C on pages 49 - 52.

Debt

At year end, the City had \$94,630,094 in bonds and capitalized leases shown in Table 4.

**Table 4  
City of Rockwall Outstanding Debt**

	<u>\$ 76,045,824</u>	<u>\$ 79,772,329</u>	<u>\$ 18,584,270</u>	<u>\$ 15,502,671</u>	<u>\$ 94,630,094</u>	<u>\$ 95,275,000</u>

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 2.91% or \$2,387 per capita.

The City’s bond ratings at September 30, 2007 were as follows:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor’s Rating Group	A+	A-	A-
Moody’s Investor Service Inc.	A1	A2	A3

Additional information on the City of Rockwall’s long-term debt can be found in note 3-E, on pages 54-61 of this report.

**ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES**

The City’s elected and appointed officials considered many factors when setting the fiscal year 2008 budget, tax rate and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the growth in our community and its population. Rockwall has seen the construction of a number of new commercial/retail business developments which should positively impact sales tax revenues. Commercial building permits showed strong improvement over the prior year including several new retail developments underway as well as the development of the Presbyterian Hospital of Rockwall and accompanying medical office district. Interviews with local builders led the City to project continued slow home starts for the coming year, a trend reported nationally as well. An emphasis continues by the City on the custom home market. The City of Rockwall’s citizens enjoy above-average income levels per household. This in combination with the City’s proximity to major highways, and the Dallas-Ft.Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and a “hometown” atmosphere in Rockwall.

The Rockwall Economic Development Corporation works diligently to attract businesses with relocation incentives as well as providing business retention incentives such as workforce training opportunities.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2008. The budgeted revenues for fiscal year 2008 total \$20,468,100 for the general fund. Ad valorem tax revenue is determined by two major factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. Due to the debt service requirements of voter approved debt, issued in 2006 and to be issued shortly after the new fiscal year begins, the property tax rate was increased to 48.65 cents per hundred dollars of assessed value. Due to the slowing economy but in recognition of new retailers opening shortly, city officials have projected a 7.15% increase in that revenue over the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. In addition, the policies set minimum, recommended and maximum fund balance levels for the City's fund types. The general fund minimum fund balance is set at 3 months recurring operating expenditures. The recommended fund balance is 5 months of recurring operating expenditures and the maximum fund balance is 7 months of recurring operating expenditures. The budget as adopted for fiscal year 2008 projects a fund balance of approximately 4.75 months of recurring operating expenditures.

A number of planning initiatives including an evaluation of existing street condition and maintenance needs are authorized for fiscal year 2008. The City budget includes funds for several small business owners to attend an exciting program on building destination businesses and to continue sending mid level managers to the LEAD program at the University of Virginia. The City is studying annexation of an area which is currently underserved in a number of ways. Planning efforts will focus on appropriate zoning for the area, bringing the water and wastewater system in the area up to city standards and assisting with property rehabilitations. Following the Customer Centered Culture methodology, the City expects to continue to integrate the program across all city departments. These cross department teams are expected to complete their work in 2007. In addition, the City will again offer Citizen Fire and Police Academies to provide citizens the opportunity to learn more about these city departments and become active with the City.

The water and sewer rates adopted in fiscal year 2006 will be reviewed by our rate consultant with his report to be issued in fiscal year 2008. City Council adopted a 4% rate increase in early 2006. A number of capital projects to expand the system are being planned for fiscal year 2008.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. Email [msmith@rockwall.com](mailto:msmith@rockwall.com).

The accompanying notes are an integral part of this statement.

CITY OF ROCKWALL, TEXAS  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2007

Net change in fund balances - governmental funds	\$ (14,036,666)
Amounts reported for governmental activities in the statement of activities are different because:	
The net revenue (expense) of internal service funds is reported with governmental activities in the statement of net assets.	(40,458)
Certain assets are not available to pay for current period expenditures and are not reported as revenues in the funds. The following amounts represent the changes in these assets during the year:	
Property taxes receivable	6,937
Assessments receivable	98,018
Contributions receivable	168,000
Franchise taxes receivable	(31,829)
Court fines receivable	17,146
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$18,631,097) exceeded depreciation (\$5,197,449) and retirements (\$1,710,215) in the current period.	11,723,433
Donations of capital assets increase net assets in the statement of activities, but are not reported in the funds because they do not provide current financial resources.	1,088,881
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount of amortization in the current period.	(59,220)
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	27,176
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount of repayments (\$3,726,505) and bond premium amortization (\$42,960) in the current period.	3,769,465
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	(50,199)
Change in net assets of governmental activities	\$ 2,680,684

The accompanying notes are an integral part of this statement.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Reporting Entity*

The City of Rockwall, Texas (the "City") was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer services as a proprietary function of the City.

The accounting policies of the City conform to generally accepted accounting principles issued by the Governmental Accounting Standards Board (GASB) which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City is a home rule municipality governed by an elected Mayor and six-member City Council who appoint a City Manager. The City's financial statements include its component units. The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either: (1) the City's ability to impose its will on the organization, or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the City.

*Discretely Presented Component Units*

The Rockwall Economic Development Corporation (REDC) is governed by a five-member Board of Directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park being developed by REDC. RTPA's Board of Directors is composed of representatives of the landowners. At September 30, 2007, REDC owned the majority of the land and the Board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. RTPA does not have the authority to determine its budget, set rates or charges, or issue bonded debt without the approval of the City. Accordingly, RTPA is fiscally dependent on the City, and the City is financially accountable for RTPA.

The funds of both REDC and RTPA are composed of governmental fund types. Stand alone financial statements for REDC and RTPA as of and for the fiscal year ended September 30, 2007, are not prepared.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Government-wide and Fund Financial Statements*

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The *Capital Projects Fund* accounts for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of capital assets used in the operation of governmental funds.

The *205 Bypass Project Fund* accounts for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance and workers' compensation coverage services provided to other departments or agencies of the government on a cost-reimbursement basis.

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

*Assets, liabilities, and net assets or equity*

Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and workers' compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City's investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than five (5) years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.
- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Deposits and investments - continued

- e. Certificates of deposit issued by a state or national bank domiciled in the State of Texas or a savings bank domiciled in the State of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items "a" through "d" above. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the State of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net asset value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

The City holds various mortgage-backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of one year or more, when purchased, are stated at fair value. Short-term investments are stated at cost or amortized cost.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1st by the City based on the January 1st property values as assessed by the Rockwall Central Appraisal District. Taxes are due without penalty until January 31st of the next calendar year. After January 31st the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

Inventories and prepaid items

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings	20 - 30 years
Building improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of three days of sick leave to one day of vacation leave and shall be paid to the employee. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1st, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain special revenue funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During the year ended September 30, 2007, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – continued

A. Budgetary information – continued

6. The City did not adopt budgets for the Emergency Siren Fund, the Kidzone Fund, the Downtown Improvement Fund, and the Art in Public Places Fund, all of which are special revenue funds.
7. Capital project funds were not budgeted. Since project-length financial plans usually extend into two or more fiscal years, annual comparisons would be confusing and misleading.

B. Excess of expenditures over appropriations

Expenditures exceeded appropriations by \$3,787 in the Police Investigation Fund because of a security upgrade project which exceeded budget projections by this amount.

Expenditures exceeded appropriations by \$1,093 in the Special Crimes Unit Fund due to costs incurred to move their offices to a new location late in the fiscal year.

Expenditures exceeded appropriations by \$163,681 in the Rockwall Economic Development Corporation as a result of certain incentive commitments which matured sooner than originally anticipated in the budget process.

C. Deficit fund equity

The Equipment Acquisition Fund had a deficit fund balance in the amount of \$285,693 at September 30, 2007, as a result of equipment purchases made in advance of a related debt issue. The City adopted a reimbursing resolution which allows these funds to be repaid with the proceeds of a future debt issue.

The Employee Benefits Fund had a deficit fund balance in the amount of \$18,885 at September 30, 2007, because of unanticipated health care claims late in the fiscal year in excess of budgeted amounts. This deficit will be covered by future transfers from the General Fund.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2007, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$1,354,328, which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2007, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS – continued

A. Deposits and investments – continued

Investments – continued

The City's investments in U.S. Treasury bills and notes are backed by the full faith and credit of the U.S. government. The City's investments in U.S. government agencies are rated AAA by Standard & Poor's or Aaa by Moody's Investors Service. The City's investments in certificates of deposit and money market funds are not rated.

Custodial credit risk for investments is the risk that the City will not be able to recover the value of its investments that are in the possession of an outside party. At September 30, 2007, the City's investments were entirely insured or registered in the City's name; as a result, the City's investments were not exposed to custodial credit risk.

B. Receivables

In the Water and Sewer Fund, accounts receivable and revenues are reported net of uncollectible amounts. For the year ended September 30, 2007, the uncollectible amounts related to accounts receivable totaled \$352,148, and the uncollectible amounts related to revenues of the current period totaled \$88,884.

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable:		
General Fund	\$ 152,257	\$ -
Debt Service Fund	129,921	-
Assessments receivable not yet due:		
Street Improvements	168,202	-
Contributions not yet received:

C. Capital assets – continued

Capital asset activity of the Rockwall Economic Development Corporation (a discretely presented component unit) for the year ended September 30, 2007, was as follows:

	Beginning Balance	Additions	Retirements	Completed Construction	Ending Balance
Capital assets being depreciated:					
Furniture and fixtures	\$ 66,866	\$ 2,638	\$ -	\$ -	\$ 69,504
Less accumulated depreciation for:					
Furniture and fixtures	(55,270)	(4,750)	-	-	(60,020)
REDC capital assets, net	\$ 11,596	\$ (2,112)	\$ -	\$ -	\$ 9,484

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of September 30, 2007, is as follows:

Fund	Receivable	Payable
General Fund	\$ 307,500	\$ 270,000
G.O. Bonds Capital Projects	1,270,000	-
205 Bypass Project	-	1,000,000
Nonmajor governmental funds	-	307,500
Total interfund balances	\$ 1,577,500	\$ 1,577,500

The outstanding balances between funds result primarily from the time delay between the dates that interfund goods and services are provided and payments between funds are made. Also, working capital loans are made to capital projects funds in advance of debt issuances. These are expected to be collected within one year.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS – continued

E. Long-term debt – continued

Conduit debt obligations

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2007, there was one series of revenue bonds outstanding. The aggregate principal amount payable on the outstanding bonds was approximately \$1,700,000.

Authorized and unissued debt

The following table details the status of all authorized and unissued debt as of September 30, 2007:

Year Authorized	Amount Authorized	* Amount Issued	Balance Unissued 9/30/07

3. DETAILED NOTES ON ALL FUNDS – continued

E. Long-term debt – continued

Long-term liability activity of the REDC for the year ended September 30, 2007, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
<b>Governmental Activities:</b>					
Sales tax revenue bonds	\$ 3,885,000	\$ -	\$ (220,000)	\$ 3,665,000	\$ 230,000
Certificates of obligation	8,500,000	-	(450,000)	8,050,000	465,000
Plus unamortized premium	<u>172,622</u>	<u>-</u>	<u>(9,072)</u>	<u>163,550</u>	<u>-</u>
Total bonds payable	12,557,622	-	(679,072)	11,878,550	695,000
Interim construction loan	6,684,229	-	-	6,684,229	-
Compensated absences	<u>7,941</u>	<u>14,836</u>	<u>(9,444)</u>	<u>13,333</u>	<u>5,109</u>
Total	<u>\$ 19,249,792</u>	<u>\$ 14,836</u>	<u>\$ (688,516)</u>	<u>\$ 18,576,112</u>	<u>\$ 700,109</u>

4. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of City employees and their covered dependents and minimize the total cost of annual medical insurance to the City. Medical claims in any one year exceeding \$65,000 per covered individual, or approximately \$1,337,497 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2007.

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers' compensation plan. Under this plan, workers' compensation insurance is provided in accordance with state statutes to all City employees. To protect the assets of the plan from a catastrophic claim, the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a maximum City liability of \$600,000 per year.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

A. Risk management – continued

The Workers' Compensation Fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported are not believed to be significant to the City's financial statements.

Changes in the balances of claims liabilities during the past two years are as follows:

	Employee Benefits		Workers' Compensation	
	2007	2006	2007	2006
Claims payable, beginning of the year	\$ 234,990	\$ 48,260	\$ 2,933	\$ 2,360
Claims incurred	1,698,992	1,838,867	34,746	56,009
Claims paid	<u>(1,786,587)</u>	<u>(1,652,137)</u>	<u>(35,162)</u>	<u>(55,436)</u>
Claims payable, end of the year	<u>\$ 147,395</u>	<u>\$ 234,990</u>	<u>\$ 2,517</u>	<u>\$ 2,933</u>

Commercial insurance is purchased for the other risks of loss to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

B. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney, Royse City, and Frisco (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment, processing, and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to: (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams, and underground water for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest, equity investments, and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

B. North Texas Municipal Water District – continued

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek, and in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable the District to: (1) expand the sewage treatment facilities and continue to provide sewage treatment services to the City; (2) construct a 3.0 million gallon ground storage reservoir in which the Cities of Rockwall and Heath own 66.67% and 33.33% undivided interests, respectively; and (3) construct an 8.6 million gallon-per-day pump station for the exclusive benefit of the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the annual budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the paying agent and the registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related assets have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2007, is \$5,040,094. See Note 3E for the annual requirements to amortize the bonds as of September 30, 2007.

With respect to the ground storage reservoir discussed above, the Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of the related operating expenses and debt service payments. While the City anticipates its share of these payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

C. Contingent liabilities and commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 3E above, the general revenues of the City are contingently liable in the amount of \$184,176 for general obligation bonds which are currently outstanding and recorded as obligations of the Water and Sewer Fund.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

C. Contingent liabilities and commitments – continued

The City contracts for solid waste disposal with a third party. Under the terms of the agreement, the City bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2007, these commitments totaled \$1,541,181.

D. Employee retirement systems and pension plans

Texas Municipal Retirement System

Plan Description – The City provides pension benefits for all of its full-time employees (except volunteer firefighters) through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 821 administered by TMRS, an agent multiple-employer public employee retirement system. Each of the 821 municipalities has an annual, individual actuarial valuation performed. All assumptions for the December 31, 2006 valuations are contained in the 2006 TMRS Comprehensive Annual Financial Report which can be obtained by writing to P.O. Box 149153, Austin, Texas 78714-9153.

Benefits – Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount at least equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his/her salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. Plan provisions for the City were as follows:

Deposit rate: 7.00%

Matching Ratio (City to Employee): 2 to 1

Members can retire at ages 60 and above with five or more years of service or with 20 years of service regardless of age. A member is vested after five years.

CITY OF ROCKWALL, TEXAS  
NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

D. Employee retirement systems and pension plans – continued

Contributions – Under the state law governing TMRS, the actuary annually determines the City contribution rate. The rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2006 valuation is effective for rates beginning January 2008.

A schedule of funding progress as of the three most recent actuarial valuation dates is as follows:

	Actuarial Valuation Date		
	12/31/2006	12/31/2005	12/31/2004
Actuarial value of assets (a)	\$ 17,878,974	\$ 15,968,994	\$ 14,505,752
Actuarial accrued liability (AAL) - unit credit (b)	23,911,430	21,310,890	19,508,568
Unfunded (over-funded) AAL (UAAL) (b-a)	6,032,456	5,341,896	5,002,816
Funded ratio (a/b)	74.8%	74.9%	74.4%
Annual covered payroll (c)	10,942,328	10,325,619	9,354,662
UAAL as a percentage of covered payroll ((b-a)/c)	55.1%	51.7%	53.5%

D. Employee retirement systems and pension plans – continued

A summary of the City's net pension obligation (NPO) and annual required contributions for the last three fiscal years is as follows:

	Fiscal Year Ended September 30		
	2007	2006	2005
NPO at the beginning of the period	\$ -	\$ -	\$ -
Annual required contribution	1,491,116	1,367,738	1,270,547
Contributions made (100%)	(1,491,116)	(1,367,738)	(1,270,547)
NPO at the end of the period	\$ -	\$ -	\$ -

A summary of the actuarial assumptions used is as follows:

Actuarial Cost Method	Unit Credit
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	25 Years - Open Period
Asset Valuation Method	Amortized Cost
Investment Rate of Return	7.0%
Projected Salary Increases	None
Includes Inflation At	3.5%
Cost-of-Living Adjustments	None

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$54,194 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a Board of Directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 38 active participants currently covered by the Fund and payments are being made to 19 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments; however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P.O. Box 12577, Austin, Texas 78711.

E. Subsequent event

In October 2007, the City issued debt totaling \$32,580,000. This debt issuance was comprised of: (1) general obligation bonds (\$21,765,000) for the continued construction of the 205 Bypass and other roadway rehabilitation projects; (2) revenue certificates of obligation (\$10,310,000) for the construction of the North Water Tower and various water transmission line and wastewater force main projects; and (3) tax-supported contractual obligations (\$505,000) for equipment acquisition.

## *SPECIAL REVENUE FUNDS*

**Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.**

Cemetery – established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation – established to account for donations, court security fees, and forfeitures.

Recreational Development – established to account for the annual lease income from marinas and golf course.

Radio System – established to account for revenues and expenditures for the support of the City's radio system.

Street Improvements – established to account for the proceeds of street improvement assessments.

Hotel Motel Tax – established to account for the annual income from hotel motel taxes.

Fire Equipment – established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation – established to account for funds received from airport operations and related expenses.

Recycling – established to account for funds to be used for the City's recycling program.

Emergency Siren – established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Kidzone – established to account for revenues and expenditures related to a joint project with the Rockwall Breakfast Rotary and Kiwanis clubs to construct a playground.

Downtown Improvement – established to account for revenues and expenditures related to the City's efforts to revitalize the downtown square.

Art in Public Places – established to account for donations received for developing art displays in public areas such as parks.

Special Crimes Unit – established to account for revenues and expenditures related to a county-wide crime task force.

## *CAPITAL PROJECTS FUNDS*

**Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.**

Capital Projects – established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

Equipment Acquisition – established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

Harbor/TIF Projects – established to account for revenues and expenditures related to the Tax Increment Financing District and the associated public improvements within the Harbor development.

G.O. Bonds Capital Projects – established to account for street and drainage projects using proceeds from the issuance of bonds.

205 Bypass Project – established to account for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

Fund balances, October 1	<u>18,951,178</u>	<u>50,415</u>
Fund balances, September 30	<u>\$ 18,592,365</u>	<u>\$ 47,299</u>

CITY OF ROCKWALL, TEXAS  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF DISCRETELY PRESENTED  
COMPONENT UNITS TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2007

	<u>Rockwall Economic Development Corporation</u>	<u>Rockwall Technology Park</u>
Net change in fund balances - discretely presented component units	\$ (358,813)	\$ (3,116)
Amounts reported for discretely presented component units in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$4,750) exceeded capital outlays (\$2,638) in the current period.	(2,112)	-
Governmental funds report debt issuance costs as expenditures.		
However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount of amortization expense in the current period.	(10,188)	-
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.		
	5,749	-
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount of repayments (\$670,000) and bond premium amortization (\$9,072) in the current period		
	679,072	-
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.		
	<u>(5,392)</u>	<u>-</u>
Change in net assets of discretely presented component units	<u>\$ 308,316</u>	<u>\$ (3,116)</u>

***STATISTICAL SECTION***

## STATISTICAL SECTION

Tables in the statistical section present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the overall financial health of the City.

	<u>Pages</u>
<u>Financial Trends</u> - These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	102-111
<u>Revenue Capacity</u> - These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	112-117
<u>Debt Capacity</u> - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	118-122
<u>Demographic and Economic Information</u> - These schedules offer demographics and economic indicators to help the reader understand the environment within which the City's financial activities take place.	123-124
<u>Operating Information</u> - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	125-128

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

TABLE 18

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year									
	2007	2006	2005	2004	2003	2002	2001	2000	1999	1998

***INTRODUCTORY SECTION***

City of Rockwall  
*The New Horizon*

March 12, 2007

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Rockwall for the fiscal year ended September 30, 2006, is hereby submitted. State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Rockwall. Consequently, management assumes full responsibility for both the accuracy of the data, and the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosure necessary to enable the reader to gain an understanding of the City's financial activities has been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Fox, Byrd & Company, CPA a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2006, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2006, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, County Seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth Airport, one of the largest in the world, continues to expand to meet the air transportation needs of the region. Love Field in Dallas now provides expanded air services and Alliance Airport near Fort Worth provides general aviation facilities for the area. Due to favorable economic conditions, excellent business climate, and desirable living conditions, corporate relocations to the area continue.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments have been adopted as recently as 2005. Policymaking and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City currently has a land area of approximately 23.77 square miles and an estimated population of 30,200.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in the note disclosures.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the City of Rockwall operates.

#### **Local economy**

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. Rockwall enjoyed a relatively stable economic environment during the recent downturn in the national and regional economies. In 2006 new commercial openings were strong. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Property values have continued to rise at an average 12.4% per annum. The City's largest taxpayers include a number of commercial developments. The Rockwall Technology Park has welcomed several new companies to the City. The year's highlights included:

- Completion by Whittle Development of the new Cinemark 12 Theatre which anchors their Bella Harbor, lakefront development. Construction was completed on approximately 90,000 square feet of retail and restaurant space which will provide premier retail opportunities for the area.
- Kroger Company opened its new Signature store and accompanying retail center. Tenants have begun renovations of the former Kroger building for an Office Depot and 24 Hour Fitness Center.
- Circuit City, Bed Bath & Beyond and TJ Maxx are among the tenants of the new Rockwall Crossing retail development opened in fiscal year 2006.
- EmPhysis Medical Management, a medical billing and physician administrative services company completed construction of a 25,500 square foot headquarters facility, in Phase I of the Rockwall Technology Park.
- Whitmore Manufacturing, one of the City's largest industrial businesses completed an expansion of their light industrial facility, increasing their presence in the community.
- Special Products and Manufacturing, Inc. consolidated their operations into a new 130,000 square foot headquarters in the Rockwall Technology Park, allowing for expanded operations.
- Presbyterian Hospital of Rockwall broke ground in summer 2006 on an acute care facility and approximately 40,000 square feet of medical office space in the immediate area.
- la Madeleine opened its new Rockwall location in 2006.

### Long-term financial planning

The City Council and staff have recognized the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

A number of long-range studies have been completed or updated recently. A Capital Improvement Task Force prepared an update to the City's Capital Improvement Plan which resulted in a number of projects being proposed and which met with positive voter response in late 2005. These capital projects are designed to ease traffic burdens, increase public safety and enhance quality of life for our citizens. Our consultant continues to develop plans for two major parks projects, while the City moved forward with the acquisition of land for a third major park project. This land will allow the City to develop a 50-acre park in the northern area of the City. The City Council authorized a consultant's efforts to evaluate existing city facilities and conduct long range planning of space needs for the next 20 years. This report will be presented to the Council in 2007.

The City finalized revisions to the subdivision ordinance based on the City's Comprehensive Plan. Staff has completed initial work implementing a GIS mapping project and will hire dedicated GIS staff in 2007 to further expand the City's capabilities and coordination across departments. The City Council has identified the downtown area as a critical component of our long range plan with the completion of the downtown plan. The City working with business and community leaders will continue the central business district planning effort. City staff expects to complete an update of the Central Business District zoning in 2007.

The Rockwall Economic Development Corporation will further their planning efforts by formalizing their Vision 2020 plan. This comprehensive document will include demographics, target industries, marketing strategies, competition, site selection criteria, and alliances among its parameters.

Organizationally, the City began the process of refining its strategic plan using the Balanced Scorecard Methodology. When the strategy map was completed in 2003, the City's strategic initiatives for the implementation of the City's goals were formalized within the organization. Departmental business plans were developed and are updated as progress is made and priorities change. These business plans develop performance measures for the strategic initiatives for which each department is responsible. During 2006, the City completed interviews at both the governance and leadership levels of the organization and completed an update of priorities and measures for the corporate strategy map. In addition, the City began a process to implement the Customer Centered Culture methodology (C3) into the organization. C3 encourages cross department teams to follow a proven course of data compilation and actions that allow the teams to develop product improvements. C3 recognizes that the services we provide are ultimately comprised of a number of products and those products need to be designed to meet our customer's needs, not what we perceive are their needs. A trainer was brought in to work with a group of more than 40 employees to develop meeting facilitation skills in order to further this effort.

In addition, the City began an ILead series of workshops for mid level managers and first line supervisors to develop their management skills and prepare our next generation of organization leaders. This group will continue to attend classes and collaborate on projects to build cross department alliances and understanding of the resources available to our managers.

## Future Development

“The Harbor” public improvements, situated on the shores of Lake Ray Hubbard at I-30, neared completion in fiscal year 2006. The public/private partnership provides opportunities for new retailers in the Bella Harbor development as well as public open space. The largely undeveloped hillside which became the home of the twelve-screen Cinemark Theatre will soon include a full-service Hilton Hotel and Conference Center and retail, restaurant and office space.

In conjunction with the private development, the City established a tax increment financing (TIF) zone in an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The City partnered with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF to finance the public projects. The public area includes both passive and active event areas, a Harbor/Urban Court, spray plaza and large open areas suitable for a variety of outdoor events. The public space was formally opened in a gala event in November 2006. The City and Chamber of Commerce are working to attract events to the area.

Tenant finish out continues in the private development with Gloria’s, and Ruby Tuesday’s restaurants opening late in 2006. They will be joined in 2007 by Dodie’s Lakefront and Finnegan’s Harborside restaurants. Retail establishments joining Savoy Gifts and En Fuego will include L’Egantz, Baby Grace Baby Planner and Harbor Girl opening in 2007.

The “Plaza at Rockwall” Phase II of the Crossing project will see construction begin in 2007. The retail development has announced Best Buy, J.C. Penney, Belk, Ulta, Dick’s Sporting Goods, and Staples will be among its tenants. The development will cover a large area of land immediately adjacent to the Rockwall Crossing. A number of restaurants will join these and other retail establishments.

Downtown Rockwall welcomes Zanata to the business district which will be joined shortly by Smitty’s Roadhouse, under construction near the Square. These restaurants will offer fine dining and evening activities for our residents and visitors.

SPR Packaging, LLC will develop a major rail-served industrial location on the new Justin Road extension. SPR is expected to build, phased-development in excess of 150,000 square feet, adding significant value to the property tax base. The Justin Road project was financed by the REDC to enhance the area’s potential for development.

The City has begun the multi-phased design of the 205 Bypass roadway project approved by voters in late 2005. This roadway, on the eastern edge of the City is expected to provide traffic relief through the City’s center. Construction will begin on the first phase in 2007. Texas Department of Transportation will begin construction on the widening of SH205 (Goliad Street) through the City in 2007, a project which will take up to 4 years to complete. City road projects under construction in 2007 will include reconstruction of Fannin and Townsend roadways and the extension of Industrial Drive.

In addition to planning future parks projects, the City will complete construction on neighborhood parks in the Shores and Fox Chase subdivisions as well as finish design and improvements to parks in the Emerald Bay and Hickory Ridge subdivisions. Planning for the third major park will commence with a C3 project by the City to determine customer’s desires for the park and its amenities. Site selection and design of Fire Stations 3 and 4, approved by voters in 2005, will be completed in 2007 and construction is expected to start late in the year.

The water and sewer rates were increased 4% to our retail and wholesale customers in 2006 and staff will be proposing an additional 6% rate increase for 2007. The City will begin construction on a new two-million gallon water tower in the northern area of the City as well as increasing capacity in the regional sewer interceptor system and will begin design for the Squabble Creek sewer system. A number of main extension projects will be undertaken to increase system capacity and provide water and sewer service to outlying areas of the City.

Cash Management: The City invests cash temporarily idle during the year in money market funds and short-term notes of the U.S. Government and its agencies. Other cash classified as being not immediately needed is invested in longer-term obligations of the U.S. Government and its agencies. All of these investments are classified as “hold-to-maturity” investments. The City believes that it will not be required to sell these investments prior to maturity, barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no reverse repos nor has any other form of borrowing been used to finance the City’s portfolio.

The City’s investment policy is to safeguard the City’s assets and maintain liquidity while enhancing the yield of its portfolio and ensuring public trust. Securities owned by the City were held in a financial institution trust department acting as an agent of the City, in the City’s name.

Risk Management: In fiscal year 1990, the City established a Self-Insurance and Risk Management Program. Under the terms of this program, the City is permitted by law and its home rule charter to insure itself against the various risks of liability and loss to which it is exposed. This may be done either through an insurance provider or through a defined self-insurance program. Other risks to which the City is exposed are covered by commercial insurance.

Retirement System: The City of Rockwall provides pension benefits to all full-time employees through a nontraditional, joint contributory defined benefit plan administered by the Texas Municipal Retirement System, an agent multiple-employer public retirement system. Pension expense for the calendar year ended December 31, 2005 (including prior service costs amortized over 25 years) was \$1,367,738. The City of Rockwall does not provide post employment health and dental benefits for retirees.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below. Revenue debt has been excluded since system charges are used to retire the debt.

Outstanding General Obligation Debt at 9-30-06(net of Debt Service)	\$78,311,035
Estimated Population	30,200
G.O. Debt Per Capita	\$2,593
Net G.O. Debt per Assessed Value	3.22%

The City’s bond ratings at September 30, 2006 were as follows:

	<u>General Obligation</u>	<u>Revenue</u>	<u>Sales Tax(REDC)</u>
Standard & Poor’s Rating Group	A+	A-	A-
Moody’s Investor Service Inc.	A1	A2	A3

## OTHER INFORMATION

### Independent Audit:

State statutes require an annual audit by independent certified public accountants. The firm of Fox, Byrd & Company, PC, was selected by the City Council. In addition to meeting the requirements set forth in state statutes. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. The auditors' report on the basic financial statements and combining and individual funds statements and schedules is included in the financial section of this report. The auditors' report on internal controls and compliance with applicable laws and regulations can be found in a separately issued single audit report.

### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2005. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This comprehensive annual financial report satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last sixteen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Julie Couch  
City Manager

Mary Smith, CPA  
Director of Finance

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Rockwall  
Texas

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended  
September 30, 2005

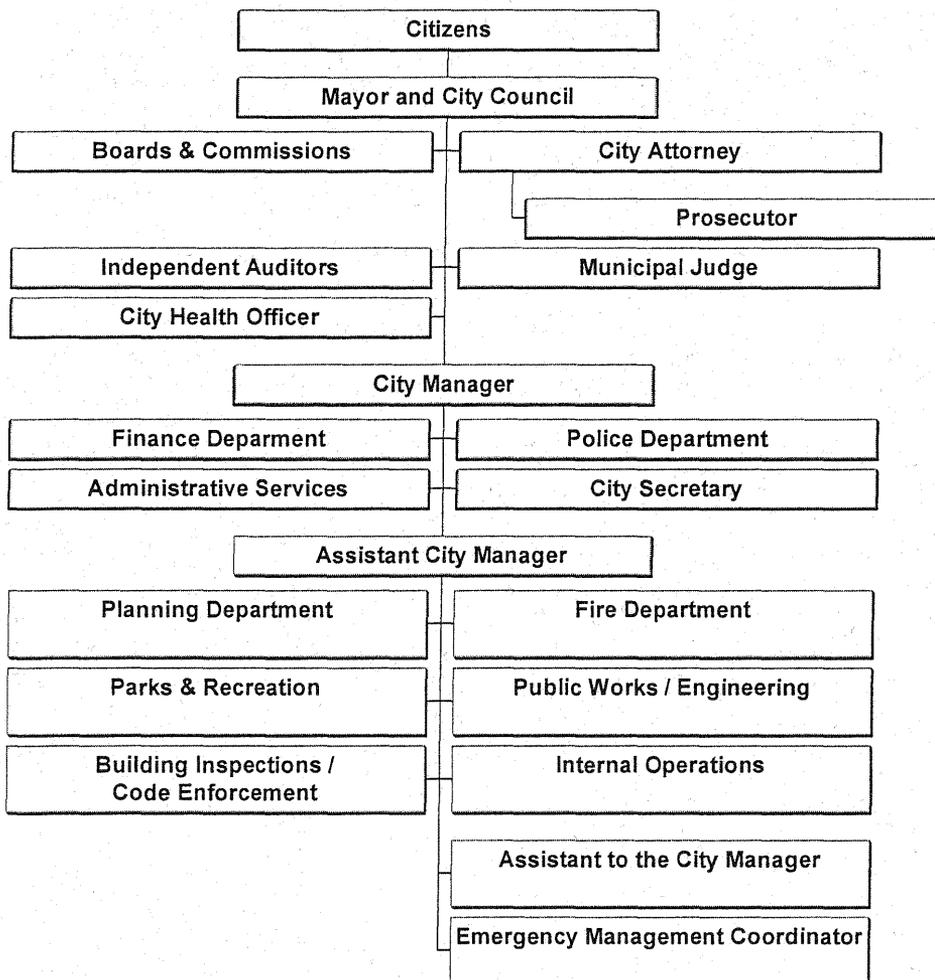

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Rockwall, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of and for the year ended September 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of September 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2006 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's discussion and analysis on pages 12-21 and the budgetary comparison information on page 63 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2006. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total net assets were \$150,517,232 at September 30, 2006.
- During the year, the City's expenses were \$13,203,574 less than the \$40,744,746 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2006 by \$83,451,860 (net assets). Of this amount \$11,683,150 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$7,692,662 or approximately 40.7 percent of the total general fund expenditures and transfers out.
- The City's total outstanding bonds and certificates of obligation (excluding enterprise and component unit debt) increased by \$38,424,765 during fiscal year 2006. The City issued General Obligation bonds during the fiscal year ended September 30, 2006, in order to finance a number of voter approved capital projects. In addition the City issued Certificates of Obligation to finance acquisition of fire trucks and other capital equipment needs. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

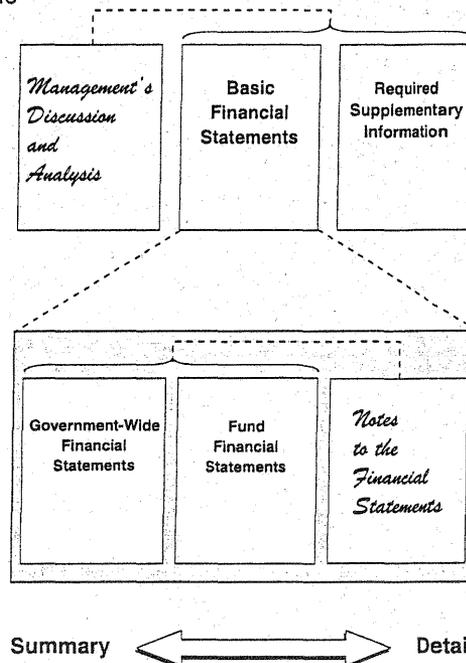

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2. Major Features of the City's Government-wide and Fund Financial Statements

Type of Statements	Fund Statements			
	Government-wide	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire City's government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary	Activities the City operates similar to private businesses.	Instances in which the City is the trustee or agent for someone else's resources
Required financial statements	<ul style="list-style-type: none"> <li>• Statement of net assets</li> <li>• Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>• Balance sheet</li> <li>• Statement of revenues, expenditures &amp; changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>• Statement of net assets</li> <li>• Statement of revenues, expenses and changes in fund net assets</li> <li>• Statement of cash flows</li> </ul>	<ul style="list-style-type: none"> <li>• Statement of fiduciary net assets</li> <li>• Statement of changes in fiduciary net assets</li> </ul>
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the City's funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

### Government-wide Financial Statements

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall's finances, in a manner similar to private-sector business. The statement of net assets presents information on all of the city of Rockwall's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health or financial condition of the City.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in prior reporting models.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City's basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services finance most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City's 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit's Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements can be found on pages 22-24 of this report.

## **Reporting the City's Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. Funds are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 23 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund, capital projects fund, Harbor TIF projects fund, G.O. bonds capital projects fund and 205 Bypass fund, all of which are considered to be major funds. Data from the other 17 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the government-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City's self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City's intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

### Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2006, the City's net assets (assets exceeding liabilities) totaled \$150,517,232. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

By far the largest portion of the City's net assets reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

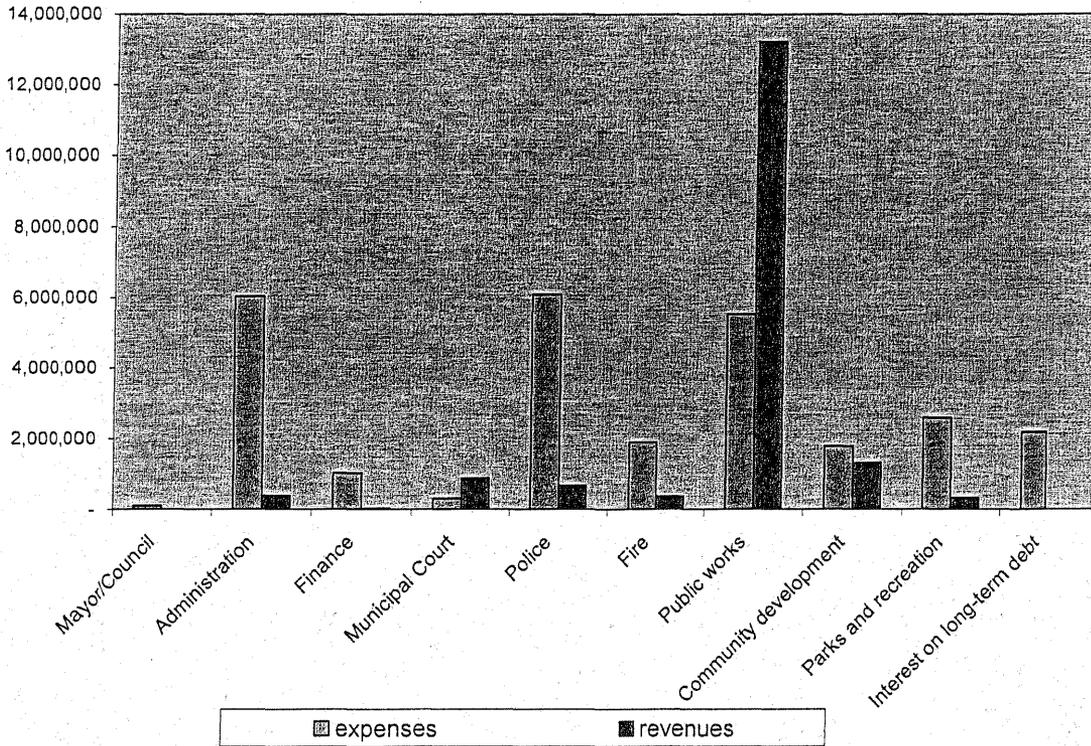

Table 1  
Net Assets

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2006	2005	2006	2005	2006	2005
Current and other assets	\$ 56,288,609	\$ 33,937,666	\$ 26,774,588	\$ 27,101,355	\$ 83,063,197	\$ 61,039,021

## ANALYSIS OF THE OVERALL FINANCIAL POSITION AND RESULTS OF OPERATION

### Governmental Activities

Total revenues of governmental activities were \$38,369,746. A significant portion 23.6%, of the City's revenues came from property taxes. Another 22.2% of revenue came from sales taxes. Ad valorem property tax revenues continue to increase each year primarily due to the addition of new properties and increased valuation throughout the City. Assessed values of the properties in the City increased by \$198,467,354 or 8.90%. The City adopted a property tax rate of 36.89 cents per \$100 of assessed valuation for fiscal year 2006. This represented an increase of .89 cents, the first in nine years. Sales tax revenue showed marked improvement as the City saw several new retail developments open this year; combined with the area population increase this resulted in sales tax revenue increasing by more than 15.6% for fiscal year 2006.

The total cost of all programs and services were \$27,541,172. Of these costs \$6,095,435 (22.1%) was for the Police Department. Administration related departments including Administration, Human Resources, and Internal Operations had combined costs of \$6,040,692 (21.9%).

The overall economy in the City continues to show improvement in 2006 and beyond. No major negative events are expected for the next fiscal year. During 2006, Rockwall County, of which the City of Rockwall is the County seat, was the fourth fastest growing county in America, and the fastest growing county in Texas. The Harbor Project, a lakefront multi-use planned development, is under construction with several establishments expected to open late in 2006. It is expected to have a positive effect on sales taxes and property taxes in the area. A tax increment financing zone established to provide for public improvements in the area began receiving revenues from the project in 2006.

### Business-Type Activities

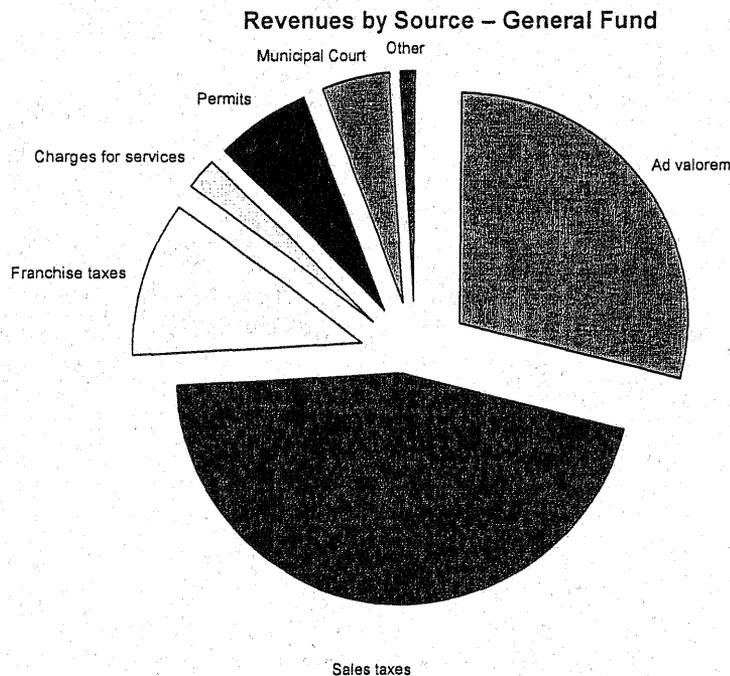

The City's business-type activities recorded an increase of \$3,869,705 in net assets. Total revenues were \$16,497,931. Water sales were very strong in 2006 due primarily to near record drought conditions. The City having previously implemented conservation water rates in 2001 began enforcing mandatory water restrictions in a regional effort to curtail usage during the drought period.

### Component Units

The Rockwall Economic Development Corporation (REDC) reported operating revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$3,181,972. Assets managed by the corporation include an inventory of over 230 acres of land, zoned for light industrial uses and available for sale and an industrial building currently leased and also available for sale. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

### ANALYSIS OF INDIVIDUAL FUNDS

The City's General Fund reported an ending unreserved fund balance of \$7,692,662; an increase of \$391,328 from the prior year. The main source of general fund revenue is sales tax, it accounted for \$8,286,316 (44.4%) of total general fund revenue. Ad valorem property taxes account for \$5,277,568 (28.3%) of general fund revenues. The increase in fund balance allows the City to maintain a "recommended" fund balance as defined within the City's financial policies. This "reserve" balance allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

The City's Debt Service Fund reported an increase in fund balance of \$305,397. Property tax collections for debt service requirements were \$3,702,380.

The City Capital Projects Fund benefited from a contribution of \$5,540,000 of bond proceeds by the Rockwall Economic Development Corporation which will be used to construct infrastructure for the Presbyterian Hospital of Rockwall project and the extension of Justin Road to serve new industrial prospects. Both projects are expected to be completed in fiscal year 2007.

The City is nearing completion of the Harbor Project public improvements. Capital outlays for the project totaled \$14,073,489. Other financing sources in the current fiscal year included \$3,235,000 of certificates of obligation issued by the City. All work on the project should be completed in fiscal year 2007. Additional funding sources are anticipated in fiscal 2007 to complete the remaining aspects of the project.

The City began several road projects in fiscal year 2006 which are being funded through debt issuance. The City issued \$17,075,000 of General Obligation bonds for voter approved projects. In addition to roadway rehabilitation and extension projects, the acquisition of park land, completion of neighborhood parks projects and construction of two fire stations is funded.

The City issued an additional \$18,700,000 of General Obligation bonds to begin phased design and construction of the new 205 Bypass Project. Voters approved construction of the roadway in a 2005 Bond Election Proposition. The project will include the multi-phase design, right of way acquisition and construction of a new 7 mile roadway on the eastern edge of the City which is designed to alleviate traffic burdens on State Highway 205 through the center of the City. Additional debt is anticipated in fiscal years 2007 and 2008 with construction completion targeted in fiscal year 2009.

Water and sewer charges were \$11,067,802. Ending working capital, excluding restricted assets, for the water and sewer fund was \$6,776,065.

### GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2006, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases in revenues beyond projections. With the adjustments made to the budget, the budgeted expenditures of \$17,041,600 increased to \$17,578,265 while revenues increased from \$17,398,200 to \$18,111,700. The City of Rockwall had originally estimated the ending general fund balance to be \$7,068,264 however due to the budget adjustments mentioned above, the fund balance was re-estimated to be \$6,915,279.

Actual general fund revenues were \$18,672,839, an increase of \$561,139 over the final budget. Actual general fund total expenditures were \$335,548 less than the revised budget. Total revenues exceeded total expenditures by \$1,412,397. The actual fund balance of \$7,718,792 was higher due to management's conservative projections of both revenues and expenditures

### CAPITAL ASSET AND DEBT ADMINISTRATION

#### Capital Assets

At the end of the fiscal year 2006 the City had \$171,189,321 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines.

Table 3  
Capital Assets at Year-End

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2006	2005	2006	2005	2006	2005

	<u>\$ 113,792,963</u>	<u>\$ 82,623,744</u>	<u>\$ 57,396,358</u>	<u>\$ 53,874,312</u>	<u>\$ 171,189,321</u>	<u>\$ 136,498,056</u>

The City's capital improvement program includes a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were under construction in 2006. A number of drainage projects will also be undertaken during the 5-year planned capital improvement period. The City completed installation of a trunked 700 MHz radio system to be utilized by city departments and an adjoining city with final testing to be completed late in 2006.

The City held a bond election in November 2005 which funded road, park and fire projects in excess of \$64,000,000. In addition to the 205 Bypass project, the City was authorized to move forward with several neighborhood parks projects and the acquisition of land for two large regional parks. Progress has been made and includes the purchase of land for a large park in the northern area of the City, and construction, nearing completion on 2 of the neighborhood parks. The addition of two new fire stations was approved by the voters. Design is underway with construction to begin in fiscal year 2007.

Construction in progress at September 30, 2006 for governmental activities included the radio system discussed above, The Harbor public improvements, the rehabilitation of Clark Street and Townsend Road, extension of North Lakeshore Drive and various other improvements.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extension of sanitary sewers into new areas of the city. A new two-million gallon water tower to be constructed in the northern area of the City was being designed at year end. Several projects approved in the City's capital improvement plan included participation in the joint construction of a shared ground storage facility and pump station as well as other line projects to improve system capacity and extend services.

The Rockwall Economic Development Corporation has completed roadway, drainage and landscape improvements on land it carries as Phase II of the Technology Park as well as the construction of an industrial building in Phase I of the park. Work began on the extension of Justin Road and also roadway, water and drainage improvements for the Presbyterian Hospital of Rockwall project.

Additional information on the City of Rockwall's capital assets can be found in note III-C on pages 45-48.

#### Debt

At year end, the City had \$95,275,000 in bonds and capitalized leases shown in Table 4.

**Table 4**

	<u>\$ 79,772,329</u>	<u>\$ 41,347,564</u>	<u>\$ 15,502,671</u>	<u>\$ 16,542,436</u>	<u>\$ 95,275,000</u>	<u>\$ 57,890,000</u>

The City of Rockwall's general obligation bonds carry an "A+" rating from Standard & Poor's Corporation and an "A1" rating from Moody's Investor Services, both national rating agencies. The City's water and sewer bonds carry an "A-" rating from Standard & Poor's and an "A2" rating from Moody's. The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 3.22% or \$2,593 per capita.

Additional information on the City of Rockwall's long-term debt can be found in note III-E on pages 50-57 of this report.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials considered many factors when setting the fiscal year 2007 budget, tax rate and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the growth in our community and its population. With a strengthened economy, Rockwall has seen a number of new commercial/retail business developments which should positively impact sales tax revenues. Commercial building permits showed strong improvement over the prior year including several new retail developments underway as well as the development of the Presbyterian Hospital of Rockwall and accompanying medical office district. Interviews with local builders led the City to project slowing home starts for the coming year, a trend reported nationally as well. An emphasis continues by the City on the custom home market. The City of Rockwall's citizens enjoy above-average income levels per household. This in combination with the City's proximity to major highways, and the Dallas-Ft.Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and a "hometown" atmosphere in Rockwall. The Rockwall Economic Development Corporation works diligently to attract businesses with relocation incentives as well as providing business retention incentives such as workforce training opportunities.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2007. The budgeted revenues for fiscal year 2007 total \$19,266,450 for the general fund. Ad valorem tax revenue is determined by two major factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. Due to the debt service requirements of voter approved debt, issued in 2006, the property tax rate was increased to 42.50 cents per hundred dollars of assessed value. Due to a marked increase in actual sales tax collections in 2006, city officials have projected an 11% increase in that revenue over the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. In addition, the policies set minimum, recommended and maximum fund balance levels for the City's fund types. The general fund minimum fund balance is set at 3 months recurring operating expenditures. The recommended fund balance is 5 months of recurring operating expenditures and the maximum fund balance is 7 months of recurring operating expenditures. The budget as adopted for fiscal year 2007 projects a fund balance of approximately 4.3 months of recurring operating expenditures.

A number of planning initiatives including the completion of the Downtown Planning effort and an evaluation of existing street condition and maintenance needs are authorized for fiscal year 2007. In addition, the City will undertake a number of improvements to existing City parks in order to better serve our citizens. The City began a project to more closely focus our employee's efforts toward our customers and their needs. Following the Customer Centered Culture methodology, the City began a C3 project in 2006 to focus city-wide teams in an effort to improve processes and products in several departments. These cross department teams are expected to complete their work in 2007. In addition, the City will again offer Citizen Fire and Police Academies to provide citizens the opportunity to learn more about these city departments and become active with the City.

The water and sewer rates adopted in fiscal year 2002 were reviewed by our rate consultant with his report issued in fiscal year 2005. City Council adopted a 4% rate increase in early 2006 and will consider an additional 6% increase in 2007. A number of capital projects to expand the system are being planned for fiscal year 2007, as well as grant funded system security enhancements.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. Email [msmith@rockwall.com](mailto:msmith@rockwall.com).

CITY OF ROCKWALL, TEXAS  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED SEPTEMBER 30, 2006

Net change in fund balances - governmental funds	\$ 21,488,002
Amounts reported for governmental activities in the statement of activities are different because:	
The net revenue (expense) of internal service funds is reported with governmental activities in the statement of net assets.	(170,445)
Certain assets are not available to pay for current period expenditures and are not reported as revenues in the funds. The following amounts represent the changes in these assets during the year:	
Property taxes receivable	83,582
Assessments receivable	(2,996)
Franchise taxes receivable	130,782
Court fines receivable	(53,937)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$29,651,508) exceeded depreciation (\$4,060,268) and retirements (\$468,966) in the current period.	25,122,274
Donations of capital assets increase net assets in the statement of activities, but are not reported in the funds because they do not provide current financial resources.	6,046,945
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$500,889) exceeded amortization (\$44,318) in the current period.	456,571
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	(306,844)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds (\$42,180,845) exceeded repayments (\$2,620,235) and bond premium amortization (\$20,732) in the current period.	(39,539,878)
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	(50,482)
Change in net assets of governmental activities	<u>\$ 13,203,574</u>

The accompanying notes are an integral part of this statement.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Reporting Entity*

The City of Rockwall, Texas (the "City") was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer services as a proprietary function of the City.

The accounting policies of the City conform to generally accepted accounting principles issued by the Governmental Accounting Standards Board (GASB) which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City is a home rule municipality governed by an elected Mayor and six-member City Council who appoint a City Manager. The City's financial statements include its component units. The accompanying basic financial statements comply with the provisions of the GASB Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either: (1) the City's ability to impose its will on the organization, or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the City.

*Discretely Presented Component Units*

The Rockwall Economic Development Corporation (REDC) is governed by a five-member Board of Directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park being developed by REDC. RTPA's Board of Directors is composed of representatives of the landowners. At September 30, 2006, REDC owned the majority of the land and the Board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. RTPA does not have the authority to determine its budget, set rates or charges, or issue bonded debt without the approval of the City. Accordingly, RTPA is fiscally dependent on the City, and the City is financially accountable for RTPA.

The funds of both REDC and RTPA are composed of governmental fund types. Stand alone financial statements for REDC and RTPA as of and for the fiscal year ended September 30, 2006, are not prepared.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Government-wide and Fund Financial Statements*

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The *Capital Projects Fund* accounts for miscellaneous street and drainage projects which are financed with contributions from the General Fund and the Rockwall Economic Development Corporation.

The *Harbor/TIF Projects Fund* accounts for revenues and expenditures related to the Tax Increment Financing District and the associated public improvements within the Harbor development.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of capital assets used in the operation of governmental funds.

The *205 Bypass Project Fund* accounts for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance and workers' compensation coverage services provided to other departments or agencies of the government on a cost-reimbursement basis.

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

## NOTES TO FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

*Assets, liabilities, and net assets or equity*Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and workers' compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City's investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than five (5) years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.
- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Deposits and investments - continued

- e. Certificates of deposit issued by a state or national bank domiciled in the State of Texas or a savings bank domiciled in the State of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items "a" through "d" above. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the State of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net asset value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

The City holds various mortgage-backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of one year or more, when purchased, are stated at fair value. Short-term investments are stated at cost or amortized cost.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1st by the City based on the January 1st property values as assessed by the Rockwall Central Appraisal District. Taxes are due without penalty until January 31st of the next calendar year. After January 31st the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

Inventories and prepaid items

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings	20 - 30 years
Building improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of three days of sick leave to one day of vacation leave and shall be paid to the employee. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

## NOTES TO FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

## 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

## A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1st, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain special revenue funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During the year ended September 30, 2006, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.

NOTES TO FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – continued

A. Budgetary information – continued

6. The City did not adopt budgets for certain special revenue funds. The Drug Grant Fund is used to account for revenues and expenditures relating to federal criminal justice and drug abuse resistance education program grants with a fiscal year which does not coincide with that of the City. This makes any comparison of program expenditures to the grant allocations confusing and misleading. Budgets were also not adopted for the Emergency Siren Fund, the Kidzone Fund, and the Downtown Improvement Fund.
7. Capital project funds were not budgeted. Since project-length financial plans usually extend into two or more fiscal years, annual comparisons would be confusing and misleading.

B. Excess of expenditures over appropriations

Expenditures exceeded appropriations by \$14,812 in the Recreational Development Fund as a result of higher than anticipated participation in recreation programs, including summer youth programs. The higher expenditures were more than offset by revenues in excess of budgeted amounts.

Expenditures exceeded appropriations by \$9,935 in the Fire Equipment Fund as a result of capital expenditures for radio equipment and fire extinguishers which were funded through unbudgeted grant revenues.

C. Deficit fund equity

The Harbor/TIF Projects Fund had a deficit fund balance in the amount of \$81,582 at September 30, 2006, as a result of expenditures made in advance of anticipated project revenues.

The Drug Grant Fund had a deficit fund balance in the amount of \$46,014 at September 30, 2006, as a result of disbanding a multi-jurisdictional drug task force during the year and distributing resources to each participating entity. This deficit will be covered by future transfers from the General Fund.

The Employee Benefits Fund had a deficit fund balance in the amount of \$11,287 at September 30, 2006, as a result of unanticipated health care claims late in the fiscal year in excess of available funds. This deficit will be covered by future transfers from the General Fund.

NOTES TO FINANCIAL STATEMENTS

3. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2006, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$367,529, which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2006, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

## NOTES TO FINANCIAL STATEMENTS

## 3. DETAILED NOTES ON ALL FUNDS – continued

## A. Deposits and investments – continued

Investments – continued

The City's investments in U.S. Treasury bills and notes are backed by the full faith and credit of the U.S. government. The City's investments in U.S. government agencies are rated AAA by Standard & Poor's or Aaa by Moody's Investors Service. The City's investments in certificates of deposit and money market funds are not rated.

Custodial credit risk for investments is the risk that the City will not be able to recover the value of its investments that are in the possession of an outside party. At September 30, 2006, the City's investments were entirely insured or registered in the City's name; as a result, the City's investments were not exposed to custodial credit risk.

## B. Receivables

In the Water and Sewer Fund, accounts receivable and revenues are reported net of uncollectible amounts. For the year ended September 30, 2006, the uncollectible amounts related to accounts receivable totaled \$263,264, and the uncollectible amounts related to revenues of the current period totaled \$49,593.

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable:		
General Fund	\$ 165,222	\$ -
Debt Service Fund	110,019	-
Assessments receivable not yet due:		
Street Improvements	70,184	-
Seizures not awarded:		
Drug Grant	-	223,455
	<u>          </u>	<u>          </u>
Total deferred revenue for governmental funds	\$ <u>345,425</u>	\$ <u>223,455</u>

E. Long-term debt – continued

Conduit debt obligations

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial and housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2006, there was one series of revenue bonds outstanding. The aggregate principal amount payable on the outstanding bonds was \$1,700,000.

Authorized and unissued debt

The following table details the status of all authorized and unissued debt as of September 30, 2006:

Year Authorized	Amount Authorized	Amount Issued	Balance Unissued 9/30/06

E. Long-term debt – continued

Long-term liability activity of the REDC for the year ended September 30, 2006, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
<b>Governmental Activities:</b>					
Sales tax revenue bonds	\$ 4,095,000	\$ -	\$ (210,000)	\$ 3,885,000	\$ 220,000
Certificates of obligation	3,225,000	5,540,000	(265,000)	8,500,000	450,000
Plus unamortized premium	-	181,382	(8,760)	172,622	-
<b>Total bonds payable</b>	<b>7,320,000</b>	<b>5,721,382</b>	<b>(483,760)</b>	<b>12,557,622</b>	<b>670,000</b>
Interim construction loan	3,098,220	3,586,009	-	6,684,229	-
Compensated absences	8,906	5,436	(6,401)	7,941	1,160
<b>Total</b>	<b>\$ 10,427,126</b>	<b>\$ 9,312,827</b>	<b>\$ (490,161)</b>	<b>\$ 19,249,792</b>	<b>\$ 671,160</b>

4. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of City employees and their covered dependents and minimize the total cost of annual medical insurance to the City. Medical claims in any one year exceeding \$65,000 per covered individual, or approximately \$1,473,865 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2006.

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers' compensation plan. Under this plan, workers' compensation insurance is provided in accordance with state statutes to all City employees. To protect the assets of the plan from a catastrophic claim, the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a maximum City liability of \$600,000 per year.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

A. Risk management – continued

The Workers' Compensation Fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported are not believed to be significant to the City's financial statements. Changes in the balances of claims liabilities during the past two years are as follows:

	Employee Benefits		Workers' Compensation	
	2006	2005	2006	2005
Claims payable, beginning of the year	\$ 48,260	\$ 164,921	\$ 2,360	\$ 13,925
Claims incurred	1,838,867	1,280,598	56,009	35,045
Claims paid	(1,652,137)	(1,397,259)	(55,436)	(46,610)
Claims payable, end of the year	\$ 234,990	\$ 48,260	\$ 2,933	\$ 2,360

Commercial insurance is purchased for the other risks of loss to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

B. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney, Royse City, and Frisco (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment, processing, and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to: (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams, and underground water for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest, equity investments, and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

## NOTES TO FINANCIAL STATEMENTS

## 4. OTHER INFORMATION – continued

## B. North Texas Municipal Water District – continued

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek, and in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable the District to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the annual budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the paying agent and the registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2006, is \$1,145,000. See Note 3E for the annual requirements to amortize the bonds as of September 30, 2006.

In August 2005 the District issued \$3,020,000 of Water Facilities Installment Sale Contract Revenue Bonds (the "Storage Facility Bonds") to finance the construction of a 3.0 million gallon per day ground storage reservoir for the joint benefit of the Cities of Rockwall and Heath, Texas. Prior to the completion of the facility, the District retains all ownership of the facility. Upon completion of the facility, which had not occurred as of September 30, 2006, the Cities of Rockwall and Heath will own 66.67% and 33.33% undivided interests, respectively, in the facility. The Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of (1) all principal, interest, and paying agent fees on the Storage Facility Bonds; (2) all payments or deposits required to be made into any special or reserve fund or other account established or maintained by the provisions of the resolution authorizing the Storage Facility Bonds; and (3) all other expenses and costs of the facility that are not payable from the proceeds of the Storage Facility Bonds. While the City anticipates its share of the aforementioned payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

In April 2006 the District issued \$2,145,000 of Water Facilities Contract Revenue Bonds (the "Pump Station Facility Bonds") to finance the construction of an 8.6 million gallon per day pump station for the exclusive benefit of the City. Prior to the completion of the facility, the District retains all ownership of the facility. Upon completion of the facility, which had not occurred as of September 30, 2006, ownership of the facility will transfer to the City. The City is contractually obligated to make timely payments to the District of (1) all principal, interest, and paying agent fees on the Pump Station Facility Bonds; (2) all payments or deposits required to be made into any special or reserve fund or other account established or maintained by the provisions of the resolution authorizing the Pump Station Facility Bonds; and (3) all other expenses and costs of the facility that are not payable from the proceeds of the Pump Station Facility Bonds.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

C. Contingent liabilities and commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 3E above, the general revenues of the City are contingently liable in the amount of \$212,671 for general obligation bonds which are currently outstanding and recorded as obligations of the Water and Sewer Fund.

The City contracts for solid waste disposal with a third party. Under the terms of the agreement, the City bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2006, these commitments totaled \$926,875.

D. Employee retirement systems and pension plans

Texas Municipal Retirement System

Plan Description – The City provides pension benefits for all of its full-time employees (except volunteer firefighters) through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 811 administered by TMRS, an agent multiple-employer public employee retirement system. Each of the 811 municipalities has an annual, individual actuarial valuation performed. All assumptions for the December 31, 2005 valuations are contained in the 2005 TMRS Comprehensive Annual Financial Report which can be obtained by writing to P.O. Box 149153, Austin, Texas 78714-9153.

Benefits – Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

D. Employee retirement systems and pension plans – continued

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. Plan provisions for the City were as follows:

Deposit rate: 7%

Matching Ratio (City to Employee): 2 to 1

Members can retire at ages 60 and above with five or more years of service or with 20 years of service regardless of age. A member is vested after five years.

Contributions – Under the state law governing TMRS, the actuary annually determines the City contribution rate. The rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2005 valuation is effective for rates beginning January 2007.

A schedule of funding progress as of the three most recent actuarial valuation dates is as follows:

	Actuarial Valuation Date		
	12/31/2005	12/31/2004	12/31/2003
Actuarial value of assets (a)	\$ 15,968,994	\$ 14,505,752	\$ 14,356,528
Actuarial accrued liability (AAL) - unit credit (b)	21,310,890	19,508,568	19,724,820
Unfunded (over-funded) AAL (UAAL) (b-a)	5,341,896	5,002,816	5,368,292
Funded ratio (a/b)	74.9%	74.4%	72.8%
Annual covered payroll (c)	10,325,619	9,354,662	8,808,639
UAAL as a percentage of covered payroll ((b-a)/c)	51.7%	53.5%	60.9%

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION – continued

D. Employee retirement systems and pension plans – continued

A summary of the City's net pension obligation (NPO) and annual required contributions for the last three fiscal years is as follows:

	Fiscal Year Ended September 30		
	2006	2005	2004
NPO at the beginning of the period	\$ -	\$ -	\$ -
Annual required contribution	1,367,738	1,270,547	1,155,023
Contributions made (100%)	<u>(1,367,738)</u>	<u>(1,270,547)</u>	<u>(1,155,023)</u>
NPO at the end of the period	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

A summary of the actuarial assumptions used is as follows:

Actuarial Cost Method	Unit Credit
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	25 Years - Open Period
Asset Valuation Method	Amortized Cost
Investment Rate of Return	7.0%
Projected Salary Increases	None
Includes Inflation At	3.5%
Cost-of-Living Adjustments	None

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$57,800 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a Board of Directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 40 active participants currently covered by the Fund and payments are being made to 20 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments; however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P.O. Box 12577, Austin, Texas 78711.

E. Prior period adjustment

In the City's financial statements for the year ended September 30, 2005, certain capital expenditures related to the acquisition and improvement of real property in the REDC should have been reported instead as inventory at year-end. The correction of this error increased inventory and reserved fund balance by \$5,474,574.

## *SPECIAL REVENUE FUNDS*

**Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.**

Cemetery – established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation – established to account for donations, court security fees, and forfeitures.

Recreational Development – established to account for the annual lease income from marinas and golf course.

Street Improvements – established to account for the proceeds of street improvement assessments.

Hotel Motel Tax – established to account for the annual income from hotel motel taxes.

Fire Equipment – established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation – established to account for funds received from airport operations and related expenses.

Recycling – established to account for funds to be used for the City's recycling program.

Emergency Siren – established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Kidzone – established to account for revenues and expenditures related to a joint project with the Rockwall Breakfast Rotary and Kiwanis clubs to construct a playground.

Downtown Improvement – established to account for revenues and expenditures related to the City's efforts to revitalize the downtown square.

Drug Grant – established to account for revenues and expenditures related to a multi-jurisdictional crime task force.

## *CAPITAL PROJECTS FUNDS*

**Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.**

Capital Projects – established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund.

Equipment Acquisition – established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

Harbor/TIF Projects – established to account for revenues and expenditures related to the Tax Increment Financing District and the associated public improvements within the Harbor development.

G.O. Bonds Capital Projects – established to account for street and drainage projects using proceeds from the issuance of bonds.

Ralph Hall Parkway Capital Improvements – established to account for the construction of the recently completed Ralph M. Hall Parkway.

1995 G.O. Bonds Capital Improvements – established to account for street and drainage improvements, road improvements, and expansion of the City's service center using proceeds of the 1995 General Obligation Bond Issue.

205 Bypass Project – established to account for revenues and expenditures related to the construction of the new 205 Bypass roadway project.

Fund balances, September 30	<u>\$ 18,951,178</u>	<u>\$ 50,415</u>

CITY OF ROCKWALL, TEXAS  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF DISCRETELY PRESENTED  
 COMPONENT UNITS TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED SEPTEMBER 30, 2006

	<u>Rockwall Economic Development Corporation</u>	<u>Rockwall Technology Park</u>
Net change in fund balances - discretely presented component units	\$ 3,698,641	\$ 381
Amounts reported for discretely presented component units in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$1,384) exceeded depreciation (\$4,830) in the current period.	(3,446)	-
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$70,018) exceeded amortization (\$7,267) in the current period.	62,751	-
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	(70,321)	-
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds (\$9,307,391) exceeded repayments (\$475,000) and bond premium amortization (\$8,760) in the current period.	(8,823,631)	-
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	<u>965</u>	<u>-</u>
Change in net assets of discretely presented component units	<u>\$ (5,135,041)</u>	<u>\$ 381</u>

## STATISTICAL SECTION

Tables in the statistical section present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the overall financial health of the City.

	<u>Pages</u>
<u>Financial Trends</u> - These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	95-103
<u>Revenue Capacity</u> - These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	104-109
<u>Debt Capacity</u> - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	110-114
<u>Demographic and Economic Information</u> - These schedules offer demographics and economic indicators to help the reader understand the environment within which the City's financial activities take place.	115-116
<u>Operating Information</u> - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	117-120

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

CITY OF ROCKWALL, TEXAS  
 COMPUTATION OF LEGAL DEBT MARGIN  
 LAST TEN FISCAL YEARS  
 (unaudited)

TABLE 17

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	Fiscal Year

# CITY OF ROCKWALL

at Rockwall CityPlace

March 23, 2006

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The comprehensive annual financial report of the City of Rockwall for the fiscal year ended September 30, 2005, is hereby submitted. State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Rockwall. Consequently, management assumes full responsibility for both the accuracy of the data, and the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosure necessary to enable the reader to gain an understanding of the City's financial activities has been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Fox, Byrd & Company, CPA a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2005, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2005, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Rockwall was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Rockwall's separately issued Single Audit Report.

In fiscal year 2003, the City implemented a change in governmental financial reporting. We believe this presentation provides valuable information to the readers of our comprehensive annual financial report. The new reporting model issued, by the Governmental Accounting Standards Board, requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Rockwall's MD&A can be found immediately following the report of the independent auditors.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, County Seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the east shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth Airport, one of the largest in the world, continues with expansion plans to meet the air transportation needs of the region. Love Field in Dallas and Alliance Airport near Fort Worth provide commuter air service and general aviation facilities for the area. Due to favorable economic conditions, excellent business climate, and desirable living conditions, corporate relocations to the area continue.

The City of Rockwall has operated under a council-manager form of government since 1985. Policymaking and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on

both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City currently has a land area of approximately 23.77 square miles and an estimated population of 27,800.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. Accordingly, the Rockwall Economic Development Corporation and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in the note disclosures.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the City of Rockwall operates.

#### **Local economy**

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. Rockwall enjoyed a relatively stable economic environment during the recent downturn in the national and regional economies. With the upturn in the economy new commercial starts are strong. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Property values have continued to rise at an average 14.6% per annum. The City's largest taxpayers include a number of commercial developments. The Rockwall Technology Park has welcomed a number of new companies to the City; including a number of new retail companies have opened locations in Rockwall including Circuit City, Bed Bath & Beyond and many new restaurants. The Rockwall Technology Park continues to attract relocations to our community. The Rockwall Economic Development Corporation continues to market the City as an ideal community to locate a business with over 200 acres of industrially zoned land in its inventory. The implementation of the Harbor tax increment financing district opens another venue for retail growth with many new establishments under construction at this time.

#### **Long-term financial planning**

The City Council and staff have recognized the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

A number of long-range studies have been completed or updated recently. A Capital Improvement Task Force prepared an update the City's Capital Improvement Plan which resulted

in a number of projects being proposed and which met with positive voter response in late 2005. The City finalized revisions to the subdivision ordinance based on the City's Comprehensive

Plan. With the assistance of the North Central Texas Council of Governments the City began the development of a GIS mapping project. A downtown committee was formed joining business leaders with city planners to continue the central business district planning effort. City staff expects to complete an update of the Central Business District zoning in 2006. A consultant was retained to begin planning two major parks projects.

An economic analysis study was completed which correlates the city's operating budgets to daytime and evening populations and projects revenues and expenditures associated with different types of land zoning. The study required twenty years of financial data is accumulated as well as the tax years that each non-residential property was added to the tax rolls. The final report and associated "Development Simulation Model" allowed city officials to gauge the impact on revenues and expenditures for each of the different zoning categories. The City still has several thousand acres of agriculturally zoned land. This model will be a tool in the decision making process when city officials must determine the "highest and best" zoning categories for those acres and in the budgeting process as well.

Organizationally, the City is in the process of refining its strategic plan using the Balanced Scorecard Methodology. When the strategy map was completed in 2003, the City's strategic initiatives for the implementation of the City's goals were formalized within the organization. Departmental business plans were developed and will be updated as progress is made and priorities change. These business plans develop performance measures for the strategic initiatives for which each department is responsible.

#### Future Development

"The Harbor", to be situated on the shores of Lake Ray Hubbard at I-30, will provide opportunities for new retailers as well as public open space. The largely undeveloped hillside has become the home of a twelve-screen Cinemark Theatre and will soon include a full-service Hilton Hotel and Conference Center and approximately 222,000 sq.ft of retail, restaurant and office space. In conjunction with the private development, the City established a tax increment financing (TIF) zone in an approximately 103 acre area which will allow for the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The public area will include both passive and active event areas, a Harbor/Urban Court, spray plaza and large open areas suitable for a variety of outdoor events. Construction is underway and the open space should be ready for events in late 2006. The City has sponsored a very well attended "Concert on the Lake Series" which will use this public space as its venue in the future. The City and Chamber of Commerce will be working to attract events to the area. The City partnered with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF and finance the public projects. This is expected to transform the area and spur development in the entire TIF zone. Construction continues on the various phases of the private development with several establishments expected to be open Fall 2006.

The Presbyterian Hospital of Rockwall has been announced and is expected to break ground by Summer 2006. The Hospital, in addition to providing needed acute care facilities will provide approximately 40,000 square feet of medial office space in the immediately adjacent area. Future phases of the development are expected.

Design is underway on several road and drainage projects approved by voters. Construction has been completed on the extension of Lakeshore Drive and the reconstruction of Clark Street is nearly completed. Several major roadway projects are in design and should begin construction shortly, including Townsend Road, Yellowjacket Lane and Fannin Street. Design work will commence on the voter approved projects with construction to begin on early phases of the 205Bypass project by late 2006.

The water and sewer rate study was updated in 2005, ensuring that the city's goal of providing sufficient water and sewer rates to meet system needs is achieved. Construction work has concluded on the new two-million gallon water tower which is now in service, with construction of a new pump station and ground storage facility underway at this time. A number of main extension projects will be undertaken to increase system capacity and provide water and sewer service to outlying areas of the City.

#### Cash Management:

The City invests cash temporarily idle during the year in money market funds and short-term notes of the U.S. Government and its agencies.

Other cash classified as being not immediately needed is invested in longer-term obligations of the U.S. Government and its agencies. All of these investments are classified as "hold-to-maturity" investments. The City believes that it will not be required to sell these investments prior to maturity, barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no reverse repos nor has any other form of borrowing been used to finance the City's portfolio.

The City's investment policy is to safeguard the City's assets and maintain liquidity while enhancing the yield of its portfolio and ensuring public trust. All securities owned by the City were held in a financial institution trust department acting as an agent of the City, in the City's name.

#### Risk Management:

In fiscal year 1990, the City established a Self-Insurance and Risk Management Program. Under the terms of this program, the City is permitted by law and its home rule charter to insure itself against the various risks of liability and loss to which it is exposed. This may be done either through an insurance provider or through a defined self-insurance program. Other risks to which the City is exposed are covered by commercial insurance.

#### Retirement System:

The City of Rockwall provides pension benefits to all full-time employees through a nontraditional, joint contributory defined benefit plan administered by the Texas Municipal Retirement System, an agent multiple-employer public retirement system. Pension expense for the calendar year ended December 31, 2004 (including prior service costs amortized over 25 years) was \$1,270,547. The City of Rockwall does not provide post employment health and dental benefits for retirees.

### Debt Administration:

Outstanding General Obligation Bonds, Certificates of Obligation, and Contractual Obligations at September 30, 2005, totaled \$41,595,000 of which \$247,436 was issued for water and sewer improvements and \$3,225,000 issued for the Rockwall Economic Development Corporation infrastructure projects. The Rockwall Economic Development Corporation also has outstanding \$4,095,000 in sales tax revenue bonds for development of the Rockwall Technology Park. In addition, the Water and Sewer Fund has outstanding, as of September 30, 2005, \$14,910,000 in revenue bonds. The City has an "A1" rating by Moody's Investor Services, Inc., and "A" by Standard and Poor's Corporation on its outstanding general obligation debt. The City's outstanding revenue bonds have an "A2" rating by Moody's and an "A-" from Standard and Poor's. The City's outstanding sales tax revenue bonds have an "A3" rating by Moody's and an "A-" from Standard and Poor's.

### OTHER INFORMATION

#### Independent Audit:

State statutes require an annual audit by independent certified public accountants. The firm of Fox, Byrd & Company, PC, was selected by the City Council. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Federal Single Audit Act of 1984 and the related U.S. Office of Management and Budget's Circular A-133. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. The auditors' report on the general purpose financial statements and combining and individual funds statements and schedules is included in the financial section of this report. The auditors' report on internal controls and compliance with applicable laws and regulations can be found in a separately issued single audit report.

#### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2005. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This comprehensive annual financial report satisfies both generally accepted accounting principles and applicable legal requirements.

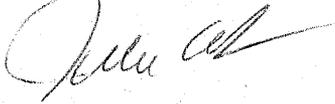

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last fifteen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgement:

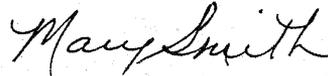

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Julie Couch  
City Manager

Mary Smith, CPA  
Director of Finance

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Rockwall,  
Texas

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended

INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Rockwall, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of and for the year ended September 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of September 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2006, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's discussion and analysis on pages 12 – 22 and the budgetary comparison information on pages 62 - 70 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

*Fox, Byrd + Company, P.C.*

Dallas, Texas  
January 10, 2006

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2005. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total combined net assets were \$133,443,953 at September 30, 2005.
- During the year, the City's expenses were \$6,412,787 less than the \$30,065,850 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2005 by \$70,248,286 (net assets). Of this amount \$11,850,426 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$7,301,334 or approximately 42.5 percent of the total general fund expenditures and transfers out.
- The City issued general obligation refunding bonds during the fiscal year ended September 30, 2005, in order to defease two older debt issues. In addition the City issued Certificates of Obligation for a number of capital projects. Total general obligation debt increased by \$19,840,000 during the fiscal year. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

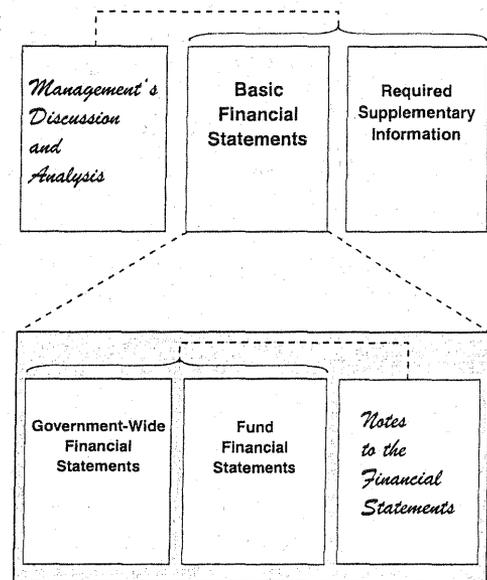

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

Summary ←→ Detail

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City's Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>			
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>	<b>Fiduciary Funds</b>
<i>Scope</i>	Entire City's government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary	Activities the City operates similar to private businesses.	Instances in which the City is the trustee or agent for someone else's resources
<i>Required financial statements</i>	♦ Statement of net assets ♦ Statement of activities	♦ Balance sheet ♦ Statement of revenues, expenditures & changes in fund balances	♦ Statement of net assets ♦ Statement of revenues, expenses and changes in fund net assets ♦ Statement of cash flows	♦ Statement of fiduciary net assets ♦ Statement of changes in fiduciary net assets
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the City's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

### Government-wide Financial Statements

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall's finances, in a manner similar to private-sector business. The statement of net assets presents information on all of the city of Rockwall's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health or financial condition of the City.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in prior reporting models.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City’s basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services finance most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City’s water and sewer system are reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City’s 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units.

The government-wide financial statements can be found on pages 22-26 of this report.

## **Reporting the City’s Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City’s most significant funds—not the City as a whole. Funds are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City’s basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City’s programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government’s near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 23 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund, equipment acquisition fund, Harbor projects fund and the G.O. Bonds Capital Projects fund, all of which are considered to be major funds. Data from the other 18 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City’s enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City’s self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City's intent is that all costs of providing the services to the general public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

### CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2005, the City's net assets (assets exceeding liabilities) totaled \$133,443,953. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

By far the largest portion of the City's net assets reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1  
Net Assets

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2005	2004	2005	2004	2005	2004
Current and other assets	\$33,937,666	\$18,884,482	\$27,101,355	\$21,950,625	\$61,039,021	\$40,835,107

## ANALYSIS OF THE OVERALL FINANCIAL POSITION AND RESULTS OF OPERATION

### Governmental Activities

Total revenues of governmental activities were \$29,059,450. A significant portion 27.9%, of the City's revenues came from property taxes. Another 25.4% of revenue came from sales taxes. Ad valorem property tax revenues continue to increase each year primarily due to the addition of new property and increased valuation throughout the City. Assessed values of the properties in the City increased by \$241,506,248 or 12.09%. The City has maintained a property tax rate of 36 cents per \$100 of assessed valuation for eight years. Sales tax revenue has shown improvement as the city's business community and population and has increased by more than 9.6% for fiscal year 2005.

The total cost of all programs and services were \$23,653,063 of these costs \$6,372,344 (26.9%) is for the Police Department. Administration related departments including Administration, Human Resources, and Internal Operations had combined costs of \$4,908,083 (20.8%).

The overall economy in the City continues to show improvement in 2005 and beyond. No major negative events are expected for the next fiscal year. During 2005, Rockwall County, of which the City of Rockwall is the County seat, was the fourth fastest growing county in America, and the fastest growing county in Texas. Residential growth should remain strong. The Harbor Project, a lakefront multi-use planned development, is under construction with establishments opening in 2006. It is expected to have a positive effect on sales tax and property taxes in the area. A tax increment financing zone established to provide for public improvements in the area will begin receiving revenues in 2006.

## Business-Type Activities

The City's business-type activities recorded an increase of \$3,633,371 in net assets. Total revenues were \$13,417,148. Sales continue to be strong despite the impact of the implementation of conservation water rates in 2001. The tendency to irrigate despite higher rates and drought conditions is seen as the norm across North Texas. The increase in revenues can largely be attributed to strong sales due to the drought conditions.

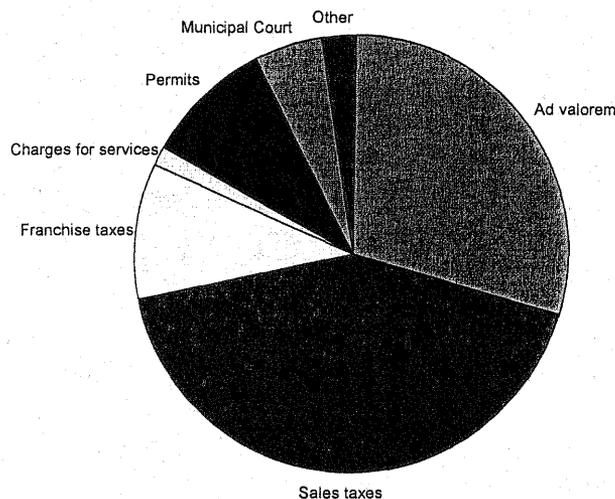

## Component Units

The Rockwall Economic Development Corporation (REDC) reported operating revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$2,972,883. Assets managed by the corporation include an inventory of land available for sale to business entities. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's General Fund reported an ending unreserved fund balance of \$7,301,334; an increase of \$441,179 from the prior year. The main source of general fund revenue is sales tax, it accounted for \$7,232,908 (42.1%) of total general fund revenue. Ad valorem property taxes account for \$5,057,703 (29.4%) of general fund revenues. The increase in fund balance allows the City to maintain a "recommended" fund balance as defined within the City's financial policies. This "reserve" balance allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows.

Revenues by Source – General Fund

The City's Debt Service Fund reported an increase in fund balance of \$461,139. Property tax collections for debt service requirements were \$3,082,422.

Water and sewer charges were \$9,498,555. Ending working capital, excluding restricted assets, for the water and sewer fund was \$6,006,779. Revenue Bonds were issued to fund system improvements as well as Revenue Refunding Bonds to defease 1994 revenue bonds.

## GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2005, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases in revenues beyond projections. With the adjustments made to the budget, the budgeted expenditures of \$15,667,200 increased to \$15,811,265 while revenues increased from \$16,210,300 to \$16,682,100. Budgeted transfers out of the General Fund increased by \$828,000. The City of Rockwall had originally estimated the ending general fund balance to be \$6,518,159 however due to the budget adjustments mentioned above, the fund balance was re-estimated to be \$6,014,894. The actual fund balance was higher due to management's conservative projections of both revenues and expenditures.

Actual general fund revenues were \$17,178,554, an increase of \$496,454 over the final budget. Actual general fund total expenditures were \$350,982 less than the revised budget. Total revenues exceeded total expenditures by \$847,436.

No significant budget shortfalls are noted.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At the end of the fiscal year 2005 the City had \$136,498,056 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities roads, police and fire equipment and water and sewer lines.

Table 3  
Capital Assets at Year-End

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2005	2004	2005	2004	2005	2004
Land	\$ 2,097,819	\$ 2,097,819	\$ 799,533	\$ 799,533	\$ 2,897,352	\$ 2,897,352

Wastewater treatment facilities	-	-	7,120,366	7,330,776	7,120,366	7,330,776
	<u>\$ 82,623,744</u>	<u>\$ 69,108,976</u>	<u>\$ 53,874,312</u>	<u>\$ 50,434,407</u>	<u>\$ 136,498,056</u>	<u>\$ 119,543,383</u>

The City's capital improvement program includes a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects were under construction in 2005. Bonds will be issued in fiscal year 2006 to fund various voter approved projects. A number of drainage projects will be undertaken during the 5-year planned capital improvement period. The City completed acquisition of a trunked 700 MHz radio system to be utilized by city departments and an adjoining city and should be completing the final testing late in 2005.

The City held a bond election in November 2005 which will fund road, park and fire projects in excess of \$64,000,000. Design is underway on several road projects and construction should begin shortly. The City was authorized to move ahead with several parks projects as well as the construction of 2 new fire stations.

Construction in progress at September 30, 2005 for governmental activities included the radio system discussed above, The Harbor public improvements, Clark Street, North Lakeshore Drive and various other improvements.

Notably, the construction in progress at fiscal year end for business-type funds includes the construction of waterline improvements and the extensions of sanitary sewers into an area of the city. A new two-million gallon water tower was nearing completion at year end. Several projects are approved in the City's capital improvement plan including participation in the joint construction of a shared ground storage facility and pump station as well as other line projects to improve system capacity and extend services.

The Rockwall Economic Development Corporation is completing roadway, drainage and landscape improvements on land it carries as Phase II of the Technology Park as well as the construction of an industrial building in Phase I of the park.

Additional information on the City of Rockwall's capital assets can be found in note III-C on pages 45-48.

### Debt

At year end, the City had \$57,890,000 in bonds and capitalized leases shown in Table 4.

**Table 4**  
**City of Rockwall Outstanding Debt**

	<u>\$41,347,564</u>	<u>\$ 21,483,933</u>	<u>\$ 16,542,436</u>	<u>\$ 12,086,067</u>	<u>\$ 57,890,000</u>	<u>\$33,570,000</u>

The City of Rockwall's general obligation bonds carry an "A" rating from Standard & Poor's Corporation and an "A1" rating from Moody's Investor Services, both national rating agencies. The City's water and sewer bonds carry an "A-" rating from Standard & Poor's and an "A2" rating from Moody's. The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 1.80% or \$1,448 per capita.

Additional information on the City of Rockwall's long-term debt can be found in note III-E on pages 49-56 of this report.

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials considered many factors when setting the fiscal year 2006 budget, tax rate and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the growth in our community and its population. With a strengthened economy, Rockwall has seen a number of new commercial/retail business developments which should positively impact sales tax revenues. Commercial building permits showed strong improvement over the prior year and, interviews with local builders project strong home sales continuing for the foreseeable future. An emphasis is being placed by the City on the custom home market. The City of Rockwall's citizens enjoy above-average income levels per household. This in combination with the City's proximity to major highways, and the Dallas-Ft. Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school

district and the "hometown" atmosphere in Rockwall. The Rockwall Economic Development Corporation works diligently to attract businesses with relocation incentives as well as providing business retention incentives such as workforce training opportunities.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2006. The budgeted revenues for fiscal year 2006 total \$17,729,300 for the general fund. Ad valorem tax revenue is determined by two major factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. Due to voter approved debt issued in 2005, the property tax rate was increased to 36.89 cents per hundred dollars of assessed value. Due to a marked improvement in actual sales tax collections in 2005, city officials have projected a conservative 8% increase over the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. In addition, the policies set minimum, recommended and maximum fund balance levels for the City's fund types. The general fund minimum fund balance is set at 3 months recurring operating expenditures. The recommended fund balance is 5 months of recurring operating expenditures and the maximum fund balance is 7 months of recurring operating expenditures. The budget as adopted for fiscal year 2006 projects a fund balance of approximately 4.5 months of recurring operating expenditures.

A number of planning initiatives including the completion of a the Downtown Planning process are authorized for fiscal year 2006. In addition, the City will undertake a number of improvements to existing City parks in order to better serve our citizens. The City will continue to offer training opportunities for all employees including Rockwall University, an education initiative for employees across the organization to learn about the work performed by other departments in a university style curriculum. In addition, the City will again offer a "Citizen's Academy" to provide citizens the opportunity to learn more about city government in Rockwall.

The water and sewer rates adopted in fiscal year 2002 were reviewed by our rate consultant with his report issued in fiscal year 2005. City Council will consider a 4% rate increase in early 2006. A number of capital projects are being planned for fiscal year 2006.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. Email [msmith@rockwall.com](mailto:msmith@rockwall.com).

CITY OF ROCKWALL, TEXAS  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED SEPTEMBER 30, 2005

Net change in fund balances - governmental funds	\$ 12,443,042
Amounts reported for governmental activities in the statement of activities are different because:	
The net revenue (expense) of internal service funds is reported with governmental activities in the statement of net assets.	38,190
Certain assets are not available to pay for current period expenditures and are not reported as revenues in the funds. The following amounts represent the changes in these assets during the year:	
Property taxes receivable	(28,411)
Assessments receivable	(12,704)
Franchise taxes receivable	50,267
Court fines receivable	42,072
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$13,770,326) exceeded depreciation (\$3,906,264) and retirements (\$44,470) in the current period.	9,819,592
Donations of capital assets increase net assets in the statement of activities, but are not reported in the funds because they do not provide current financial resources.	3,695,176
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$429,728) exceeded amortization (\$25,910) in the current period.	403,818
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	(132,055)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds (\$27,295,000) exceeded repayments (\$7,431,369) in the current period.	(19,863,631)
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	<u>(42,569)</u>
Change in net assets of governmental activities	<u>\$ 6,412,787</u>

The accompanying notes are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Reporting Entity*

The City of Rockwall, Texas (the "City") was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer services as a proprietary function of the City.

The accounting policies of the City conform to generally accepted accounting principles issued by the Governmental Accounting Standards Board (GASB) which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City is a home rule municipality governed by an elected Mayor and six-member City Council who appoint a City Manager. The City's financial statements include its component units. The accompanying basic financial statements comply with the provisions of the GASB Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either: (1) the City's ability to impose its will on the organization, or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the City.

*Discretely Presented Component Units*

The Rockwall Economic Development Corporation (REDC) is governed by a five-member Board of Directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities. Stand alone financial statements for REDC as of and for the fiscal year ended September 30, 2005, are not prepared.

The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park being developed by REDC. RTPA's Board of Directors is composed of representatives of the landowners. At September 30, 2005, REDC owned the majority of the land and the Board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. Stand alone financial statements for RTPA as of and for the fiscal year ended September 30, 2005, are not prepared.

The funds of both REDC and RTPA are composed of governmental fund types.

## NOTES TO FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Government-wide and Fund Financial Statements:*

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *Equipment Acquisition Fund* accounts for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

The *Harbor/TIF Projects Fund* accounts for revenues and expenditures related to the Tax Increment Financing District and the associated public improvements within the Harbor development.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of general fixed assets.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance and workers' compensation coverage services provided to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for assets that the City holds for others in an agency capacity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

## NOTES TO FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

*Assets, liabilities, and net assets or equity*Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and workers' compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City's investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than five (5) years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.
- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Deposits and investments - continued

- e. Certificates of deposit issued by a state or national bank domiciled in the State of Texas or a savings bank domiciled in the State of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items "a" through "d" above. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the State of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net asset value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

## NOTES TO FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

The City holds various mortgage-backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of one year or more, when purchased, are stated at fair value. Short-term investments are stated at cost or amortized cost.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1<sup>st</sup> by the City based on the January 1<sup>st</sup> property values as assessed by the Rockwall County Central Appraisal District. Taxes are due without penalty until January 31<sup>st</sup> of the next calendar year. After January 31<sup>st</sup> the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

Inventories and prepaid items

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings	20 - 30 years
Building improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of three days of sick leave to one day of vacation leave and shall be paid to the employee if he/she has ten or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

## NOTES TO FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

*Assets, liabilities, and net assets or equity – continued*

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

## 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

## A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1<sup>st</sup>, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain special revenue funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During the year ended September 30, 2005, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.

NOTES TO FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY - continued

A. Budgetary information - continued

6. The City did not adopt budgets for certain special revenue funds. The Drug Grant Fund is used to account for revenues and expenditures relating to federal criminal justice and drug abuse resistance education program grants with a fiscal year which does not coincide with that of the City. This makes any comparison of program expenditures to the grant allocations confusing and misleading. Budgets were also not adopted for the Emergency Siren Fund and the Kidzone Fund.
7. Capital project funds were not budgeted. Since project-length financial plans usually extend into two or more fiscal years, annual comparisons would be confusing and misleading.

B. Excess of expenditures over appropriations

Expenditures exceeded appropriations by \$2,439,065 in the Rockwall Economic Development Corporation. The REDC Board of Directors and the City Council entered into a contract for the construction of an industrial building in the Rockwall Technology Park. At that time the cash flow was estimated over multiple budget periods, as is the practice for capital projects. Ultimately, the current year budget was not sufficient for current year cash flow needs. The expenditures are within contractual limits for the project.

C. Deficit fund equity

The Equipment Acquisition Fund had a deficit fund balance in the amount of \$591,832 at September 30, 2005, as a result of expenditures on the police radio system, for which the City anticipates reimbursement from another governmental entity who may, but is not contractually obligated to, become a partner in the system.

3. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. At September 30, 2005, the City's deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the City's deposits were not exposed to custodial credit risk.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$617,216, which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

The deposits of REDC and RTPA are covered by the City's depository contract and, therefore, at September 30, 2005, these deposits were entirely insured or collateralized with securities held by the pledging financial institution's trust department or agent in the City's name; as a result, the deposits of REDC and RTPA were not exposed to custodial credit risk.

Investments are reported in the statement of net assets as follows:

Governmental activities	28,600,365
Business-type activities	23,819,925
Discretely presented component units:	
Rockwall Economic Development Corporation	4,723,225
Rockwall Technology Park	61,871
Fiduciary funds	1,492,750
	<u>\$ 58,698,136</u>

The City's investments in U.S. Treasury bills and notes are backed by the full faith and credit of the U.S. government. The City's investments in U.S. government agencies are rated AAA by Standard & Poor's or Aaa by Moody's Investors Service. The City's investments in certificates of deposit and money market funds are not rated.

Custodial credit risk for investments is the risk that the City will not be able to recover the value of its investments that are in the possession of an outside party. At September 30, 2005, the City's investments were entirely insured or registered in the City's name; as a result, the City's investments were not exposed to custodial credit risk.

## NOTES TO FINANCIAL STATEMENTS

## 3. DETAILED NOTES ON ALL FUNDS – continued

## B. Receivables

In the Water and Sewer Fund, accounts receivable and revenues are reported net of uncollectible amounts. For the year ended September 30, 2005, the uncollectible amounts related to accounts receivable totaled \$213,670, and the uncollectible amounts related to revenues of the current period totaled \$42,685.

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable:		
General Fund	\$ 114,572	\$ -
Debt Service Fund	77,087	-
Assessments receivable not yet due:

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of September 30, 2005, is as follows:

<u>Fund</u>	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 124,839	\$ 40,000
Equipment Acquisition	-	563,377
Harbor/TIF Projects	223,000	-
Nonmajor governmental funds	240,377	200
Internal service funds	40,000	24,639
Total interfund balances	<u>\$ 628,216</u>	<u>\$ 628,216</u>

The outstanding balances between funds result primarily from the time delay between the dates that interfund goods and services are provided and payments between funds are made. Also, working capital loans are made to the capital projects fund in advance of debt issuances. These are expected to be collected within one year.

## NOTES TO FINANCIAL STATEMENTS

## 3. DETAILED NOTES ON ALL FUNDS – continued

## D. Interfund receivables, payables, and transfers - continued

The composition of interfund transfers for the year ended September 30, 2005, is as follows:

Fund	Transfer In	Transfer Out
General Fund	\$ 462,534	\$ 1,728,750
Equipment Acquisition	950,131	-
Harbor/TIF Projects	389,100	-
G.O. Bonds Capital Projects	-	1,334,151
Nonmajor governmental funds	1,157,770	353,234
Water and Sewer Fund	-	1,006,400
Internal service funds	1,463,000	-
Total interfund transfers	<u>\$ 4,422,535</u>	<u>\$ 4,422,535</u>

Transfers are used to move unrestricted revenues to finance various programs or capital projects that the City must account for in other funds in accordance with budgetary authorizations. Included in the transfers are amounts which are the commitment of unrestricted general fund balance to the Harbor/TIF Projects construction fund to be used for project components and to the Recreation Development fund for large park improvements.

Less unamortized discount	(49,983)		
Total revenue bonds	\$ 14,872,920		

Advance and current refundings

In September 2005 the City issued \$6,415,000 of revenue refunding and improvement bonds, of which \$1,000,000 was used for a current refunding of \$990,000 of revenue bonds. This refunding was undertaken to reduce total debt service payments by \$47,985 and resulted in an economic gain of \$45,635.

In September 2005 the City issued \$13,345,000 of general obligation refunding and improvement bonds, of which \$6,095,000 was used for an advance refunding. The net proceeds of the refunding bonds were used to purchase U.S. government securities that were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments on \$1,395,000 of Series 2000 general obligation bonds and \$4,235,000 of Series 2000 certificates of obligation. As a result, the refunded bonds are considered to be defeased and the liability for those bonds has been removed from the City's statement of net assets. These refundings were undertaken to reduce total debt service payments by \$222,858 and resulted in an economic gain of \$191,863. At September 30, 2005, the amount outstanding on the Series 2000 defeased bonds was \$5,630,000.

At September 30, 2005, the amount outstanding on the Series 1995 general obligation bonds, which were advance refunded in December 2003, was \$2,880,000.

## E. Long-term debt – continued

Capitalized lease obligations

The City has entered into contracts with NTMWD, a conservation and reclamation district and political subdivision of the State of Texas, for the construction and operation of sewer treatment plants. The contractual obligations have been treated as capitalized lease obligations. Capitalized lease obligations outstanding as of September 30, 2005, are as follows:

<u>Purpose</u>	<u>Original Amount</u>	<u>Year of Issue</u>	<u>Final Maturity</u>	<u>Interest Rate</u>	<u>Balance 9/30/05</u>
North Plant Improvements	\$ 1,325,000	1993	2006	Various	\$ 155,000
South Plant Improvements	1,800,000	1996	2016	Various	<u>1,230,000</u>
Total capitalized lease obligations					<u>\$ 1,385,000</u>

Future minimum lease payments under capitalized lease obligations as of September 30, 2005, are as follows:

<u>Year Ending September 30</u>	<u>Total</u>
2006	\$ 309,495
2007	143,045
2008	148,795
2009	149,045
2010	149,045
2011-2015	750,000
2016	<u>152,540</u>
Total minimum lease payments	1,801,965
Less amount representing interest	<u>(416,965)</u>
Present value of minimum lease payments	<u>\$ 1,385,000</u>

## E. Long-term debt – continued

Conduit debt obligations

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial and housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2005, there was one series of revenue bonds outstanding. The aggregate principal amount payable on the outstanding bonds was \$1,700,000.

Authorized and unissued debt

The following table details the status of all authorized and unissued debt as of September 30, 2005:

Year Authorized	Amount Authorized	Amount Issued	Balance Unissued 9/30/05
General obligation bonds:			
1985	\$ 1,500,000	\$ (600,000)	\$ 900,000
1994	4,100,000	(3,600,000)	500,000
1998	10,950,000	(8,985,000)	1,965,000
2002	<u>19,843,100</u>	<u>(6,600,000)</u>	<u>13,243,100</u>
Total general obligation bonds	<u>\$ 36,393,100</u>	<u>\$ (19,785,000)</u>	<u>\$ 16,608,100</u>
Revenue bonds:			
1980	\$ 2,000,000	\$ (1,060,000)	\$ 940,000
1985	<u>1,540,000</u>	<u>-</u>	<u>1,540,000</u>
Total revenue bonds	<u>\$ 3,540,000</u>	<u>\$ (1,060,000)</u>	<u>\$ 2,480,000</u>

In a bond election held in November 2005, the City's citizens approved additional general obligation bonds in the amount of \$63,705,000.

4. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of City employees and their covered dependents and minimize the total cost of annual medical insurance to the City. Medical claims in any one year exceeding \$65,000 per covered individual, or approximately \$1,168,872 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2005.

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers' compensation plan. Under this plan, workers' compensation insurance is provided in accordance with state statutes to all City employees. To protect the assets of the plan from a catastrophic claim, the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a cap of \$600,000 per year.

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION - continued

A. Risk management - continued

The Workers' Compensation Fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported are not believed to be significant to the City's financial statements. Changes in the balances of claims liabilities during the past two years are as follows:

	Employee Benefits		Workers' Compensation	
	2005	2004	2005	2004
Claims payable, beginning of the year	\$ 164,921	\$ 193,309	\$ 13,925	\$ 15,554
Claims incurred	1,388,159	1,232,390	35,045	131,433
Claims paid	<u>(1,397,259)</u>	<u>(1,260,778)</u>	<u>(46,610)</u>	<u>(133,062)</u>
Claims payable, end of the year	<u>\$ 155,821</u>	<u>\$ 164,921</u>	<u>\$ 2,360</u>	<u>\$ 13,925</u>

Commercial insurance is purchased for the other risks of loss to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

B. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52<sup>nd</sup> Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney, Royse City, and Frisco (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment, processing, and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to: (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams, and underground water for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest, equity investments, and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

## NOTES TO FINANCIAL STATEMENTS

## 4. OTHER INFORMATION - continued

## B. North Texas Municipal Water District - continued

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek, and in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable the District to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the annual budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the paying agent and the registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2005, is \$1,385,000. See Note 3E for the annual requirements to amortize the bonds as of September 30, 2005.

In August 2005 the District issued \$3,020,000 of Water Facilities Installment Sale Contract Revenue Bonds (the "Facility Bonds") to finance the construction of a 3.0 million gallon per day ground storage reservoir for the joint benefit of the Cities of Rockwall and Heath, Texas. Prior to the completion of the facility, the District retains all ownership of the facility. Upon completion of the facility, which had not occurred as of September 30, 2005, the Cities of Rockwall and Heath will own 66.67% and 33.33% undivided interests, respectively, in the facility. The Cities of Rockwall and Heath are contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of (1) all principal, interest, and paying agent fees on the Facility Bonds; (2) all payments or deposits required to be made into any special or reserve fund or other account established or maintained by the provisions of the resolution authorizing the Facility Bonds; and (3) all other expenses and costs of the facility that are not payable from the proceeds of the Facility Bonds. While the City anticipates its share of the aforementioned payments to be 66.67%, the Cities of Rockwall and Heath are each contractually obligated to make any payments which the other party is required, but is unable, to make to the District.

## C. Contingent liabilities and commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

NOTES TO FINANCIAL STATEMENTS

4. OTHER INFORMATION - continued

C. Contingent liabilities and commitments - continued

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 3E above, the general revenues of the City are contingently liable in the amount of \$247,436 for general obligation bonds which are currently outstanding and recorded as obligations of the Water and Sewer Fund.

The City contracts for solid waste disposal with a third party. Under the terms of the agreement, the City bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2005, these commitments totaled \$1,090,300.

D. Employee retirement systems and pension plans

Texas Municipal Retirement System

Plan Description – The City provides pension benefits for all of its full-time employees (except volunteer firefighters) through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 801 administered by TMRS, an agent multiple-employer public employee retirement system. Each of the 801 municipalities has an annual, individual actuarial valuation performed. All assumptions for the December 31, 2004 valuations are contained in the 2004 TMRS Comprehensive Annual Financial Report which can be obtained by writing to P.O. Box 149153, Austin, Texas 78714-9153.

Benefits – Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

## NOTES TO FINANCIAL STATEMENTS

## 4. OTHER INFORMATION – continued

## D. Employee retirement systems and pension plans – continued

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. Plan provisions for the City were as follows:

Deposit rate: 7%

Matching Ratio (City to Employee): 2 to 1

Members can retire at ages 60 and above with five or more years of service or with 20 years of service regardless of age. A member is vested after five years.

Contributions – Under the state law governing TMRS, the actuary annually determines the City contribution rate. The rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2004 valuation is effective for rates beginning January 2006.

A schedule of funding progress as of the three most recent actuarial valuation dates is as follows:

	Actuarial Valuation Date		
	12/31/2004	12/31/2003	12/31/2002
Actuarial value of assets (a)	\$ 14,505,752	\$ 14,356,528	\$ 11,949,020
Actuarial accrued liability (AAL) - unit credit (b)	19,508,568	19,724,820	15,905,584
Unfunded (over-funded) AAL (UAAL) (b-a)	5,002,816	5,368,292	3,956,564
Funded ratio (a/b)	74.4%	72.8%	75.1%
Annual covered payroll (c)	9,354,662	8,808,639	7,833,164
UAAL as a percentage of covered payroll ((b-a)/c)	53.5%	60.9%	50.5%

CITY OF ROCKWALL, TEXAS

NOTES TO FINANCIAL STATEMENTS

D. Employee retirement systems and pension plans – continued

A summary of the City's net pension obligation (NPO) and annual required contributions for the last three fiscal years is as follows:

	Fiscal Year Ended September 30		
	2005	2004	2003
NPO at the beginning of the period	\$ -	\$ -	\$ -
Annual required contribution	1,270,547	1,155,023	1,023,494
Contributions made (100%)	<u>(1,270,547)</u>	<u>(1,155,023)</u>	<u>(1,023,494)</u>
NPO at the end of the period	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

A summary of the actuarial assumptions used is as follows:

Actuarial Cost Method	Unit Credit
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	25 Years - Open Period
Asset Valuation Method	Amortized Cost
Investment Rate of Return	7.0%
Projected Salary Increases	None
Includes Inflation At	3.5%
Cost-of-Living Adjustments	None

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$35,699 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a Board of Directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 39 active participants currently covered by the Fund and payments are being made to eight retirees or their survivors. The Fund does not prepare separate financial statements for participating departments; however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P.O. Box 12577, Austin, Texas 78711.

## *SPECIAL REVENUE FUNDS*

**Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.**

Cemetery – established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation – established to account for donations, court security fees, and forfeitures.

Recreational Development – established to account for the annual lease income from marinas and golf course.

Street Improvements – established to account for the proceeds of street improvement assessments.

Hotel Motel Tax – established to account for the annual income from hotel motel taxes.

Fire Equipment – established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation – established to account for funds received from airport operations and related expenses.

Recycling – established to account for funds to be used for the City's recycling program.

Emergency Siren – established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Kidzone – established to account for revenues and expenditures related to a joint project with the Rockwall Breakfast Rotary and Kiwanis clubs to construct a playground.

Drug Grant – established to account for revenues and expenditures related to a multi-jurisdictional drug task force.

## *CAPITAL PROJECTS FUNDS*

**Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.**

Capital Projects – established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund.

Equipment Acquisition – established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

Harbor/TIF Projects – established to account for revenues and expenditures related to the Tax Increment Financing District and the associated public improvements within the Harbor development.

G.O. Bonds Capital Projects – established to account for equipment acquisition and street and drainage projects using proceeds from the issuance of bonds.

Ralph Hall Parkway Capital Improvements – established to account for the construction of the recently completed Ralph M. Hall Parkway.

1995 G.O. Bonds Capital Improvements – established to account for street and drainage improvements, road improvements, and expansion of the City's service center using proceeds of the 1995 General Obligation Bond Issue.

***DISCRETELY PRESENTED COMPONENT UNITS***

**The Rockwall Economic Development Corporation (REDC) represents the City by promoting it as a location for new business. It also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities.**

**The Rockwall Technology Park Association (RTPA) provides repair and maintenance of the common area within the park developed by REDC.**

CITY OF ROCKWALL, TEXAS  
 RECONCILIATION OF THE DISCRETELY PRESENTED COMPONENT UNITS  
 BALANCE SHEET TO THE STATEMENT OF NET ASSETS  
 SEPTEMBER 30, 2005

	Rockwall Economic Development Corporation	Rockwall Technology Park
	<u>                    </u>	<u>                    </u>
Total fund balances - discretely presented component units	\$ 9,777,963	\$ 50,034
Amounts reported for discretely presented component units in the statement of net assets are different because:		
The following assets are not current financial resources and are not reported in the component units balance sheet:		
Capital assets used by component units (net of accumulated depreciation of \$50,440)	5,489,616	-
Costs of bonds issued to finance component units (net of accumulated amortization of \$21,254)	90,857	-
The following liabilities are not due in the current period and are not reported in the component units balance sheet:		
Compensated absences	(8,906)	-
Bonds payable	(7,320,000)	-
Interim construction loan	(3,098,220)	-
Accrued interest payable	<u>(56,484)</u>	<u>-</u>
Net assets of discretely presented component units	<u>\$ 4,874,826</u>	<u>\$ 50,034</u>

CITY OF ROCKWALL, TEXAS  
STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES  
DISCRETELY PRESENTED COMPONENT UNITS  
FOR THE YEAR ENDED SEPTEMBER 30, 2005

	Rockwall Economic Development Corporation	Rockwall Technology Park
Revenues:		
Sales taxes	\$ 2,387,110	\$ -
Charges for services	-	79,593
Interest income	118,306	1,560
Miscellaneous	467,467	-
Total revenues	<u>2,972,883</u>	<u>81,153</u>
Expenditures:		
Current:		
Administration	2,739,027	106,960
Total current	<u>2,739,027</u>	<u>106,960</u>
Capital outlay:		
Administration	5,483,265	-
Total capital outlay	<u>5,483,265</u>	<u>-</u>
Debt service:		
Principal	200,000	-
Interest	236,126	-
Bond issuance costs	49,726	-
Fiscal charges	3,321	-
Total debt service	<u>489,173</u>	<u>-</u>
Total expenditures	<u>8,711,465</u>	<u>106,960</u>
Excess of revenues over (under) expenditures	<u>(5,738,582)</u>	<u>(25,807)</u>
Other financing sources:		
Bonds issued	3,225,000	-
Premium on bonds issued	144,932	-
Interim construction loan	3,098,220	-
Total other financing sources	<u>6,468,152</u>	<u>-</u>
Net change in fund balances	729,570	(25,807)
Fund balances, October 1	<u>9,048,393</u>	<u>75,841</u>
Fund balances, September 30	<u>\$ 9,777,963</u>	<u>\$ 50,034</u>

CITY OF ROCKWALL, TEXAS  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF DISCRETELY PRESENTED  
 COMPONENT UNITS TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED SEPTEMBER 30, 2005

	<u>Rockwall Economic Development Corporation</u>	<u>Rockwall Technology Park</u>
Net change in fund balances - discretely presented component units	\$ 729,570	\$ (25,807)
Amounts reported for discretely presented component units in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$5,481,995) exceeded depreciation (\$4,568) in the current period.	5,477,427	-
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$49,726) exceeded amortization (\$4,009) in the current period.	45,717	-
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	(20,692)	-
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds (\$6,323,220) exceeded repayments (\$200,000) in the current period.	(6,123,220)	-
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	<u>(902)</u>	<u>-</u>
Change in net assets of discretely presented component units	<u>\$ 107,900</u>	<u>\$ (25,807)</u>

CITY OF ROCKWALL, TEXAS  
COMPUTATION OF LEGAL DEBT MARGIN  
SEPTEMBER 30, 2005  
(Unaudited)

TABLE 9

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the year ended September 30, 2005 was:

Maximum rate per \$100 valuation	\$2.50
City of Rockwall 2004-2005 tax rate	<u>0.36</u>
Margin	<u><u>\$2.14</u></u>

# CITY OF ROCKWALL

at Rockwall CityPlace

April 5, 2005

To the Honorable Mayor,  
Members of the City Council,  
and the Citizens of the City of Rockwall, Texas:

The comprehensive annual financial report of the City of Rockwall for the fiscal year ended September 30, 2004, is hereby submitted. State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Rockwall. Consequently, management assumes full responsibility for both the accuracy of the data, and the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosure necessary to enable the reader to gain an understanding of the City's financial activities has been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) the valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by Fox, Byrd & Company, P.C., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2004, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent

auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2004, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Rockwall was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditors to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Rockwall's separately issued Single Audit Report.

In fiscal year 2003, the City implemented a dramatic change in governmental financial reporting. We believe this presentation provides valuable information to the readers of our comprehensive annual financial report. The new reporting model, issued by the Governmental Accounting Standards Board, requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Rockwall's MD&A can be found immediately following the report of the independent auditors.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, County Seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the east shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth Airport, one of the largest in the world, continues with expansion plans to meet the air transportation needs of the region. Love Field in Dallas and Alliance Airport near Fort Worth provide commuter air service and general aviation facilities for the area. Due to favorable economic conditions, excellent business climate, and desirable living conditions, corporate relocations to the area continue.

The City of Rockwall has operated under a council-manager form of government since 1985. Policymaking and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The Mayor and six Council Members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City currently has a land area of approximately 23.43 square miles and an estimated population of 25,200.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. Accordingly, the Rockwall Economic Development Corporation and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in the note disclosures.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the City of Rockwall operates.

**Local economy.** The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. Rockwall saw a relatively stable economic environment during the recent downturn in the national and regional economies. The City has a varied tax base including a mix of residential, commercial and light industrial properties. Property values have continued to rise at an average 14% per annum. The City's largest taxpayers include a number of commercial developments. The Rockwall Technology Park has welcomed a number of new companies to the City, including Col-Met Spray Booths, Ez-Flo, Inc., Graphic Microsystems, Inc. and Pilgrim's Pride Corporation's data processing center. The Rockwall Economic Development Corporation continues to market the City as an ideal community to locate a business.

**Long-term financial planning.** The City Council and staff have recognized the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

A number of long-range studies have been completed or updated recently. A Capital Improvement Task Force is meeting to update the City's Capital Improvement Plan which may result in a number of projects for voter consideration in 2005. The City formalized the Old Town Historic District in 2002 and continued our focus, with the support of a committee of area property owners in order to develop the Downtown Plan completed in 2004. City staff expects to complete the development of a Central Business District designation in 2005.

An economic analysis study was completed which correlates the City's operating budgets to daytime and evening populations and projects revenues and expenditures associated with different types of land zoning. The study required twenty years of financial data be accumulated as well as the tax years that each non-residential property was added to the tax rolls. The final report and associated "Development Simulation Model" allowed city officials to gauge the impact on revenues and expenditures for each of the different zoning categories. The City still has several thousand acres of agriculturally zoned land. This model will be a tool in the decision making process when city officials must determine the "highest and best" zoning categories for those acres.

Organizationally, the City is in the process of refining its strategic plan using the Balanced Scorecard Methodology. When the strategy map was completed in 2003, the City's strategic initiatives for the implementation of the City's goals were formalized within the organization. Departmental business plans were developed during 2004 and are being presented to City Council and the public. These business plans develop performance measures for the strategic initiatives for which each department is responsible.

**Future Development.** The City announced a private public partnership which began development in fiscal year 2004. "The Harbor," to be situated on the shores of Lake Ray Hubbard at I-30, will provide opportunities for new retailers as well as public open space. The largely undeveloped hillside will soon be the home of a twelve-screen Cinemark Theatre, full-service Hilton Hotel and Conference Center and approximately 222,000 sq.ft of retail, restaurant and office space. In conjunction with the private development, the City established a tax increment financing (TIF) zone in an approximately 103 acre area which will allow for the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The public area will include both passive and active event areas, a Harbor/Urban Court, spray plaza and large open areas suitable for a variety of outdoor events. The City has sponsored a very well attended "Concert on the Lake Series" which will use this public space as its venue in the future. The City will be partnering with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF and finance the public projects. This is expected to transform the area and spur development in the entire TIF zone. Construction on the private development has begun and will be followed shortly by public side construction. All phases are expected to take approximately 30 months to complete.

Design is underway on several road and drainage projects approved by voters in 2002. Construction has begun on the extension of Lakeshore Drive and the reconstruction of Clark Street is also underway.

The water and sewer rate study will be updated in 2005, ensuring that the City's goal of providing sufficient water and sewer rates to meet system needs is achieved. Construction work is concluding on the new two-million gallon water tower as well as design of a new pump station and ground storage facility. A number of main extension projects will be undertaken to increase system capacity and provide water and sewer service to outlying areas of the City.

#### Cash Management:

The City invests cash temporarily idle during the year in money market funds and short-term notes of the U.S. Government and its agencies.

Other cash classified as being not immediately needed is invested in longer-term obligations of the U.S. Government and its agencies. All of these investments are classified as "hold-to-maturity" investments. The City believes that it will not be required to sell these investments prior to maturity, barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no reverse repos nor has any other form of borrowing been used to finance the City's portfolio.

The City's investment policy is to safeguard the City's assets and maintain liquidity while enhancing the yield of its portfolio and ensuring public trust. All securities owned by the City were held in a financial institution trust department acting as an agent of the City, in the City's name.

#### Risk Management:

In fiscal year 1990, the City established a Self-Insurance and Risk Management Program. Under the terms of this program, the City is permitted by law and its home rule charter to insure itself against the various risks of liability and loss to which it is exposed. This may be done either through an insurance provider or through a defined self-insurance program. Other risks to which the City is exposed are covered by commercial insurance.

#### Retirement System:

The City of Rockwall provides pension benefits to all full-time employees through a nontraditional, joint contributory defined benefit plan administered by the Texas Municipal Retirement System, an agent multiple-employer public retirement system. Pension expense for the fiscal year ended September 30, 2004 (including prior service costs amortized over 25 years) was \$1,155,024. The City of Rockwall does not provide post employment health and dental benefits for retirees.

#### Debt Administration:

Outstanding General Obligation Bonds, Certificates of Obligation, and Contractual Obligations at September 30, 2004, totaled \$21,685,000 of which \$271,067 was issued for water and sewer improvements. The Rockwall Economic Development Corporation has outstanding \$4,295,000 in sales tax revenue bonds for development of the Rockwall Technology Park. In addition, the Water and Sewer Fund has outstanding, as of September 30, 2004, \$10,035,000 in revenue bonds. The City has an "A1" rating by Moody's Investor Services, Inc., and "A" by Standard and Poor's Corporation on its outstanding general obligation debt. The City's outstanding revenue bonds have an "A2" rating by Moody's and an "A-" from Standard and Poor's. The City's outstanding sales tax revenue bonds have an "A3" rating by Moody's and an "A-" from Standard and Poor's.

## OTHER INFORMATION

### Independent Audit:

State statutes require an annual audit by independent certified public accountants. The firm of Fox, Byrd & Company, P.C., was selected by the City Council. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Federal Single Audit Act of 1984 and the related U.S. Office of Management and Budget's Circular A-133. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. The auditors' report on the basic financial statements and combining and individual funds statements and schedules is included in the financial section of this report. The auditors' report on internal controls and compliance with applicable laws and regulations can be found in a separately issued Single Audit Report.

### Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2003. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This comprehensive annual financial report satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last fourteen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

Julie Couch  
City Manager

Mary Smith, CPA  
Director of Finance

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Rockwall,  
Texas

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended  
September 30, 2003

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditor's Report

To the City Council  
City of Rockwall, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of and for the year ended September 30, 2004, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas, as of September 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 11, 2005, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis on pages 10-20 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

February 11, 2005

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2004. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total combined net assets were \$123,397,695 at September 30, 2004.
- During the year, the City's expenditures were \$2,385,124 less than the \$28,992,382 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2004 by \$63,835,499 (net assets). Of this amount \$10,242,495 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the General Fund was \$6,860,155 or approximately 42% of the total General Fund expenditures and transfers out.
- The City issued general obligation refunding bonds during the fiscal year ended September 30, 2004, in order to defease three older debt issues. Total debt was reduced by \$2,587,184 during the fiscal year. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

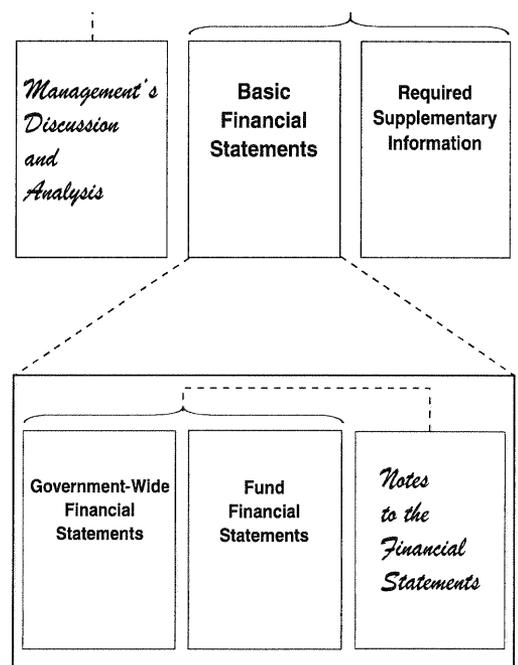

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-2. Major Features of the City's Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>			
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>	<b>Fiduciary Funds</b>
<i>Scope</i>	Entire City's government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary	Activities the City operates similar to private businesses.	Instances in which the City is the trustee or agent for someone else's resources
<i>Required financial statements</i>	♦ Statement of net assets	♦ Balance sheet	♦ Statement of net assets	♦ Statement of fiduciary net assets
	♦ Statement of activities	♦ Statement of revenues, expenditures & changes in fund balances	♦ Statement of revenues, expenses and changes in fund net assets	♦ Statement of changes in fiduciary net assets
			♦ Statement of cash flows	
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the City's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

## **Government-wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall's finances, in a manner similar to private-sector business. The statement of net assets presents information on all of the City of Rockwall's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Rockwall is improving or deteriorating. The statement of net assets combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health or financial condition of the City.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net assets and the statement of activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in prior reporting models.

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City's basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services finance most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system is reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units: the City's 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, the City of Rockwall is financially accountable for these component units.

The government-wide financial statements can be found on pages 21-22 of this report.

## **Reporting the City's Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. Funds are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information

presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 21 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund, the Debt Service Fund and the G.O. Bonds Capital Projects Fund, all of which are considered to be major funds. Data from the other 18 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the government-wide statement but provide more detail and additional information such as cash flows for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City's self insurance funds. The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City's intent is that all costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private business enterprise.

The City maintains two Internal Service funds to account for funds accumulated to self-insure for health and workers' compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

## **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Rockwall. This information is required by accounting principles generally accepted in the United States of America.

## CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION

At the end of fiscal year 2004, the City's net assets (assets exceeding liabilities) totaled \$123,397,695. This analysis focuses on the net assets (Table 1) and changes in net assets (Table 2).

By far the largest portion of the City's net assets reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Table 1**  
**Net Assets**

	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total Primary Government</u>	
	<u>2004</u>	<u>2003</u>	<u>2004</u>	<u>2003</u>	<u>2004</u>	<u>2003</u>

## ANALYSIS OF THE OVERALL FINANCIAL POSITION AND RESULTS OF OPERATION

### Expenses and Program Revenues – Governmental Activities

### Governmental Activities

Total revenues of governmental activities were \$28,124,882. A significant portion, 25.8%, of the City's revenues came from property taxes. Another 24.0% of revenue came from sales taxes. Ad valorem property tax revenues continue to increase each year primarily due to the addition of new property and increased valuation throughout the City. Assessed values of the properties in the City increased by \$159,844,421 or 8.69%. The City has maintained a property tax rate of 36 cents per \$100 of assessed valuation for seven years. Sales tax revenue has remained relatively stable for several years despite the general downturn in the national economy, and increased by more than 7% for fiscal year 2004. This is primarily due to continuing growth in the area's population.

The total cost of all programs and services was \$26,607,258; of these costs \$6,862,707 (25.8%) is for the Police Department. Administration related departments including Administration, Human Resources, and Internal Operations had combined costs of \$5,757,527 (21.6%). Approximately 76% of the City's costs for all programs and services are for payroll and benefits.

The overall economy in the City continues to show improvement in 2005 and beyond. Collection rates for services and property tax remains strong. No major negative events are expected for the next fiscal year. During 2003, Rockwall County, of which the City of Rockwall is the County seat, was named the fourth fastest growing county in America. Residential growth should remain strong. A major lakefront multi-use planned development is underway and is expected to have a positive effect on sales tax and property taxes in the area. A tax increment financing zone was established in 2004 to provide for public improvements in the area.

## Business-Type Activities

The City's business-type activities recorded an increase of \$7,455,351 in net assets. Total revenues were \$15,384,123. Sales continue to be strong despite the impact of the implementation of conservation water rates in 2001. The tendency to irrigate despite higher rates is seen as the norm across North Texas. The increase in revenues can largely be attributed to a substantial amount of impact fees collected on new commercial projects.

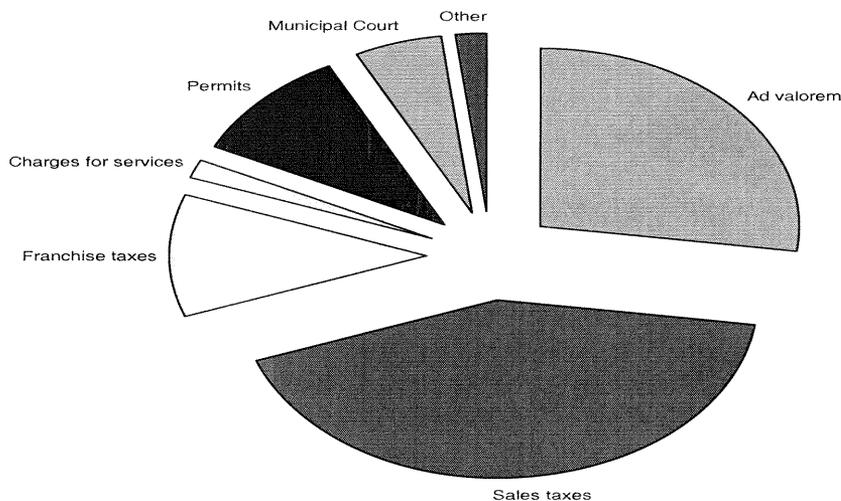

## Component Units

The Rockwall Economic Development Corporation (REDC) reported operating revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$2,225,368. Assets managed by the corporation include an inventory of land available for sale to business entities. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's General Fund reported an ending unreserved fund balance of \$6,860,155, a decrease of \$282,742 from the prior year. The main source of General Fund revenue is sales tax, accounting for \$6,593,226 (42.3%) of total General Fund revenue. Ad valorem property taxes account for \$4,247,724 (27.2%) of General Fund revenues. The decrease in fund balance was planned and expended for projects which the City Council and City Administration deemed appropriate for the use of "reserves."

**Revenues by Source – General Fund**

The City's Debt Service Fund reported an increase in fund balance of \$11,108. Property tax collections for debt service requirements were \$3,022,684.

Water and sewer charges were \$8,287,744. Ending working capital for the water and sewer fund was \$8,199,114. This increase over previously reported levels is due largely to the recognition of reserved funds which no longer needed to be reserved and could be made available for ongoing operations.

## GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2004, the City Council of the City of Rockwall amended the General Fund budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases in revenues beyond projections. With the adjustments made to the budget, the budgeted expenditures of \$14,544,890 increased to \$14,646,670, while revenues increased from \$14,201,000 to \$15,157,400. The City of Rockwall had originally estimated the ending General Fund balance to be \$6,590,207; however, due to the budget adjustments mentioned above, the fund balance was re-estimated to be \$6,314,027. The actual fund balance was higher due to management's conservative projections of both revenues and expenditures. City staff began incorporating the Balanced Scorecard methodology into the budget this year.

Actual General Fund revenues were \$15,589,465, an increase of \$432,065 over the final budget. Actual General Fund total expenditures were \$195,667 less than the revised budget. Total revenues exceeded total expenditures by \$1,138,462.

No significant budget shortfalls are noted.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At the end of fiscal year 2004, the City had \$119,543,383 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment, and water and sewer lines.

**Table 3**  
**Capital Assets at Year-End (net of depreciation)**

	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total Primary Government</u>

	<u>\$ 69,108,976</u>	<u>\$ 66,221,967</u>	<u>\$ 50,434,407</u>	<u>\$ 45,686,214</u>	<u>\$ 119,543,383</u>	<u>\$ 111,908,181</u>

The City's capital improvement program includes a number of voter authorized projects to construct new streets and reconstruct several older city streets. Many of those projects are under design at this time with construction beginning in 2004 on several of the road projects. Bonds will be issued in fiscal year 2005 to fund various voter approved projects. A number of drainage projects will be undertaken during the five-year planned capital improvement period. In addition, the City is completing acquisition of a trunked 700 MHz radio system to be utilized by City departments and an adjoining city. The project completion date is in mid-2005.

Construction in progress at September 30, 2004 for governmental activities included the remodeling of a Community Center and the radio system discussed above.

Notably, the construction in progress at fiscal year end for business-type activities includes the construction of a two-million gallon water tower and several water and sewer main extensions needed to increase system capacity. Several projects are approved in the City's capital improvement plan including participation in the joint construction of an interceptor sewer line, and a shared ground storage facility and pump station.

Additional information on the City of Rockwall's capital assets can be found in note 3C on pages 46-49 of this report.

Debt

At year end, the City had \$33,570,000 in bonds and capitalized leases, as shown in Table 4.

**Table 4  
Outstanding Debt at Year-End**

	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total Primary Government</u>

	<u>\$ 21,483,933</u>	<u>\$ 23,171,523</u>	<u>\$ 12,086,067</u>	<u>\$ 12,993,477</u>	<u>\$ 33,570,000</u>	<u>\$ 36,165,000</u>

The City of Rockwall's general obligation bonds carry an "A" rating from Standard & Poor's Corporation and an "A1" rating from Moody's Investor Services, both national rating agencies. The City's water and sewer bonds carry an "A-" rating from Standard & Poor's and an "A2" rating from Moody's. The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 1.04% or \$822 per capita.

Additional information on the City of Rockwall's long-term debt can be found in note 3E on pages 50-56 of this report.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials consider many factors when setting the fiscal year 2005 budget, tax rate and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the growth in our community and its population. The population growth experienced by the City helped to offset declines in spending seen regionally over the last few years. Building permits showed improvement over the prior year, and interviews with local builders project strong home sales continuing for the foreseeable future. The City of Rockwall's citizens enjoy above-average income levels per household. This in combination with the City's proximity to major highways, and the Dallas-Ft. Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and the

"hometown" atmosphere in Rockwall. The Rockwall Economic Development Corporation works diligently to attract businesses with relocation incentives as well as providing business retention incentives such as workforce training opportunities.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2005. The budgeted revenues for fiscal year 2005 total \$16,091,600 for the General Fund. Ad valorem tax revenue is determined by two major factors: (1) the total assessed value established by the Rockwall Central Appraisal District, and (2) the tax rate established by the Rockwall City Council. Due to the fact that property values have continued to rise, the City has been able to maintain the 36 cent tax rate for the next year. Due to a marked improvement in actual sales tax collections in 2004, City officials have projected a conservative 6.25% increase over the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. In addition, the policies set minimum, recommended and maximum fund balance levels for the City's fund types. The General Fund minimum fund balance is set at three months recurring operating expenditures. The recommended fund balance is five months of recurring operating expenditures and the maximum fund balance is seven months of recurring operating expenditures. The budget as adopted for fiscal year 2005 projects a fund balance of approximately five months of recurring operating expenditures.

A number of planning initiatives, including the completion of a Compensation Plan review and the implementation of a GIS pilot project, are planned for fiscal year 2005. In addition, the City will undertake a large number of improvements to existing City parks in order to better serve our citizens. The City will continue to offer training opportunities for all employees including Rockwall University, an education initiative for employees across the organization to learn about the work performed by other departments in a university style curriculum. In addition, the City plans to offer a "Citizen's Academy" to offer citizens the opportunity to learn more about city government here in Rockwall.

The water and sewer rates adopted in fiscal year 2002 are being reviewed by our rate consultant with his report to be issued in fiscal year 2005. The rates were designed to be adequate for approximately five years, and are being reviewed to confirm their sufficiency in light of a number of capital projects being studied.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. Email [msmith@rockwall.com](mailto:msmith@rockwall.com).

The accompanying notes are an integral part of this statement.

CITY OF ROCKWALL, TEXAS  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
SEPTEMBER 30, 2004

Net change in fund balances - governmental funds	\$ (2,059,139)
Amounts reported for governmental activities in the statement of activities are different because:	
The net revenue (expense) of internal service funds is reported with governmental activities in the statement of net assets.	(232,925)
Certain assets are not available to pay for current period expenditures and are not reported as revenues in the funds. The following amounts represent the changes in these assets during the year:	
Property taxes receivable	(4,460)
Assessments receivable	(104,133)
Franchise taxes receivable	74,250
Court fines receivable	16,140
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$3,523,417) and retirements (\$4,125,060) exceeded capital outlays (\$4,281,436) in the current period.	(3,367,041)
Donations of capital assets increase net assets in the statement of activities, but are not reported in the funds because they do not provide current financial resources.	6,254,050
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount by which debt issuance costs (\$99,311) exceeded amortization (\$69,040) in the current period.	30,271
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	28,279
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which repayments (\$5,711,984) exceeded proceeds (\$4,024,394) in the current period.	1,687,590
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	62,242
Change in net assets of governmental activities	\$ <u><u>2,385,124</u></u>

The accompanying notes are an integral part of this statement.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

---

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*

*Reporting Entity*

The City of Rockwall, Texas (the "City") was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer services as a proprietary function of the City.

The accounting policies of the City conform to generally accepted accounting principles issued by the Governmental Accounting Standards Board (GASB) which is the recognized financial accounting standard setting body for governmental entities. The notes to the financial statements are an integral part of the City's basic financial statements.

The City is a home rule municipality governed by an elected Mayor and six-member City Council who appoint a City Manager. The City's financial statements include its component units. The accompanying basic financial statements comply with the provisions of the GASB Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either: (1) the City's ability to impose its will on the organization, or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the City.

*Discretely Presented Component Units*

The Rockwall Economic Development Corporation (REDC) is governed by a five-member Board of Directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities. Stand alone financial statements for REDC as of and for the fiscal year ended September 30, 2004 are not prepared.

The Rockwall Technology Park (RTP) provides repair and maintenance of the common area within the park being developed by REDC. RTP's Board of Directors is composed of representatives of the landowners. At September 30, 2004, REDC owned the majority of the land and the Board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. Stand alone financial statements for RTP as of and for the fiscal year ended September 30, 2004 are not prepared.

The funds of both REDC and RTP are composed of governmental fund types.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Government-wide and Fund Financial Statements:*

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financial accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible with the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of general fixed assets.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance and workers' compensation coverage services provided to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. This fund is used to account for assets that the City holds for others in an agency capacity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Measurement Focus, Basis of Accounting, and Financial Statement Presentation – continued*

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, miscellaneous revenue, and interest income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer enterprise fund are charges to customers for sales and services. The enterprise utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

*Assets, liabilities, and net assets or equity*

1. Deposits and investments

The City maintains various accounts for each fund at its depository. The City also has cash maintained by agents for debt payments and reserves, construction reserves and workers' compensation claims. For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The City's investment policy authorizes the Director of Finance to invest in the following types of investments:

- a. Obligations of the United States or its agencies and instrumentalities with finite maturity dates, with a maximum maturity of not greater than five (5) years. Laddering of investments should be considered.
- b. Direct obligations of the State of Texas or its agencies and instrumentalities, with stated finite maturity dates.
- c. Other obligations, with finite maturity dates, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or their respective agencies or instrumentalities.
- d. Obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Assets, liabilities, and net assets or equity – continued*

- e. Certificates of deposit issued by a state or national bank domiciled in the State of Texas or a savings bank domiciled in the State of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items “a” through “d” above. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the State of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than “A-1” or “P-1” (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than “A-1” or “P-1” (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net asset value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Assets, liabilities, and net assets or equity – continued*

The City holds various mortgage-backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of one year or more, when purchased, are stated at fair value. Short term investments are stated at cost or amortized cost.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied on October 1<sup>st</sup> by the City based on the January 1<sup>st</sup> property values as assessed by the Rockwall County Central Appraisal District. Taxes are due without penalty until January 31<sup>st</sup> of the next calendar year. After January 31<sup>st</sup> the City has an enforceable lien with respect to both real and personal property. Under state law, property taxes levied on real property constitute a perpetual lien on the real property which cannot be forgiven without specific approval of the State Legislature. Taxes applicable to personal property can be deemed uncollectible by the City.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Assets, liabilities, and net assets or equity – continued*

3. Inventories and prepaid items

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted assets

Certain proceeds of enterprise fund revenue bonds are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Buildings	20 - 30 years
Building improvements	20 - 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 - 10 years

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued*

*Assets, liabilities, and net assets or equity – continued*

6. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of three days of sick leave to one day of vacation leave and shall be paid to the employee if he/she has ten or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

7. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

---

*NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY*

A. Budgetary information

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1<sup>st</sup>, the budget is legally enacted through passage of an ordinance.
3. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Therefore the fund level is the legal level of control.
4. Formal budgetary integration is employed as a management control device during the year. The legally adopted budgets for the General Fund, certain special revenue funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During the year ended September 30, 2004, individual amendments were not material in relation to the original appropriations. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.
6. The City did not adopt budgets for certain special revenue funds. The Drug Grant Fund is used to account for revenues and expenditures relating to federal criminal justice and drug abuse resistance education program grants with a fiscal year which does not coincide with that of the City. This makes any comparison of program expenditures to the grant allocations confusing and misleading. A budget was also not adopted for the Emergency Siren Fund, the Kidzone Fund, and the Sesquicentennial Fund.
7. Capital project funds were not budgeted. Since project-length financial plans usually extend into two or more fiscal years, annual comparisons would be confusing and misleading.

B. Excess of expenditures over appropriations

Expenditures exceeded appropriations by \$965,352 in the Debt Service Fund as a result of a bond refunding transaction during the year.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY - continued

C. Deficit fund equity

The following funds had deficit fund balances at September 30, 2004:

Capital Projects Funds:	
Equipment Acquisition	\$ 179,386
Harbor/TIF Projects	\$ 593,471
Internal Service Funds:	
Employee Benefits	\$ 79,371

The deficits in the Equipment Acquisition and Harbor/TIF Projects funds were caused by expenditures made in advance of anticipated bond issuances. The deficit in the Employee Benefits fund was caused by unanticipated health care cost increases, and will be covered by additional transfers from the General Fund.

---

NOTE 3: DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Cash

At year end, the carrying amount of the City's deposits was \$1,383,848 (including restricted cash of \$166,248) and the bank balance was \$1,568,914. These bank balances were entirely covered by federal depository insurance and collateral pledged by the depository in the City's name and held by the City's agent.

Under a contractual agreement with North Texas Municipal Water District (NTMWD), depository accounts are maintained by NTMWD for interest and sinking, debt, and construction reserves totaling \$961,749, which are separately insured or secured by collateral pledged by NTMWD's depository. This amount is included in restricted cash on the statement of net assets.

At year end, the carrying amounts of deposits for REDC and RTP, discretely presented components units, were \$(3,729) and \$44,272, respectively, and the bank balances were \$3,904 and \$44,223, respectively. The component units' cash balances are covered by the City's depository contract and, therefore, these bank balances were entirely covered by federal depository insurance and collateral pledged by the depository in the City's name and held by the City's agent.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 3: DETAILED NOTES ON ALL FUNDS – continued

A. Deposits and investments – continued

Investments

The City's investments are categorized into the following three categories of credit risk: (1) insured or registered, or securities held by the City or its agent in the City's name, (2) uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name, or (3) uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the City's name.

At year end, the City's investments were as follows:

	Category			Carrying Amount	Fair Value
	1	2	3		
<b>Primary Government</b>					
U.S. government securities:

NOTE 3: DETAILED NOTES ON ALL FUNDS – continued

B. Receivables

In the Water and Sewer Fund, accounts receivable and revenues are reported net of uncollectible amounts. For the year ended September 30, 2004, the uncollectible amounts related to accounts receivable totaled \$171,276, and the uncollectible amounts related to revenues of the current period totaled \$43,645.

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable:		
General Fund	\$ 125,823	\$ -
Debt Service Fund	94,247	-
Assessments receivable not yet due:

E. Long-term debt

General obligation debt

The City issues general obligation debt (in the form of general obligation bonds, certificates of obligation, contractual obligations, and notes payable) to provide funds for the acquisition and construction of major capital facilities. General obligation debt has been issued for both governmental and business-type activities. These issues are direct obligations and pledge the full faith and credit of the City. General obligation debt outstanding as of September 30, 2004 is as follows:

<u>Purpose</u>	<u>Original Amount</u>	<u>Year of Issue</u>	<u>Final Maturity</u>	<u>Interest Rates</u>	<u>Balance 9/30/04</u>
Governmental Activities:

Total revenue bonds	\$ 9,977,201		

Advance and current refundings

In December 2003, the City issued \$4,325,000 of general obligation refunding bonds. A portion of the proceeds was used for a current refunding of \$1,110,000 of general obligation bonds. The remaining proceeds were used to purchase U.S. Government securities that were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments on \$2,880,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability for those bonds has been removed from the City's statement of net assets. These refundings were undertaken to reduce total debt service payments over the next twelve years by \$225,043 and resulted in an economic gain of \$191,151. At September 30, 2004 the amount outstanding on the defeased bonds was \$2,880,000.

Conduit debt obligations

Certain revenue bonds have been issued in the past to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial and housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2004, there were two series of revenue bonds outstanding. The aggregate principal amount payable for the two issues was \$1,721,574.

Authorized and unissued debt

The following table details the status of all authorized and unissued debt as of September 30, 2004:

Year Authorized	Amount Authorized	Amount Issued	Balance Unissued 9/30/04

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 4: OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of City employees and their covered dependents and minimize the total cost of annual medical insurance to the City. Medical claims in any one year exceeding \$35,000 per covered individual, or approximately \$1,003,217 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2004.

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers' compensation plan. Under this plan, workers' compensation insurance is provided in accordance with state statutes to all City employees. To protect the assets of the plan from a catastrophic claim, the City has purchased stop loss coverage in the amount of \$200,000 per occurrence with a cap of \$600,000 per year.

The Workers' Compensation Fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported are not believed to be significant to the City's financial statements. Changes in the balances of claims liabilities during the past two years are as follows:

	<u>Employee Benefits</u>		<u>Workers' Compensation</u>	
	<u>2004</u>	<u>2003</u>	<u>2004</u>	<u>2003</u>
Claims payable, beginning of the year	\$ 193,309	\$ 139,415	\$ 15,554	\$ 21,334
Claims incurred	1,232,390	870,879	131,433	187,474
Claims paid	<u>(1,260,778)</u>	<u>(816,985)</u>	<u>(133,062)</u>	<u>(193,254)</u>
Claims payable, end of the year	<u>\$ 164,921</u>	<u>\$ 193,309</u>	<u>\$ 13,925</u>	<u>\$ 15,554</u>

Commercial insurance is purchased for the other risks of loss to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 4: OTHER INFORMATION – continued*

B. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52<sup>nd</sup> Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney and Royse City (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment, processing, and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to: (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams, and underground water for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest, equity investments, and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of water consumption of past years. The City owns one sewage treatment facility, Squabble Creek, and in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable the District to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the annual budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the paying agent and the registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2004, is \$1,780,000. See Note 3E for the annual requirements to amortize the bonds as of September 30, 2004.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

*NOTE 4: OTHER INFORMATION – continued*

C. Contingent liabilities and commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 3 above, the general revenues of the City are contingently liable in the amount of \$271,067 for general obligation bonds which are currently outstanding and recorded as obligations of the Water and Sewer Fund.

The City contracts for garbage disposal with a third party. Under the terms of the agreement, the City bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2004, these commitments totaled \$919,300.

D. Employee retirement systems and pension plans

Texas Municipal Retirement System

Plan Description – The City provides pension benefits for all of its full-time employees (except firefighters) through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of over 794 administered by TMRS, an agent multiple-employer public employee retirement system. Each of the 794 municipalities has an annual, individual actuarial valuation performed. All assumptions for the December 31, 2003 valuations are contained in the 2003 TMRS Comprehensive Annual Financial Report which can be obtained by writing to P.O. Box 149153, Austin, Texas, 78714-9153.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%) of the employee's accumulated contributions. In addition, the City can grant as often as annually another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 4: OTHER INFORMATION – continued

D. Employee retirement systems and pension plans – continued

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. Plan provisions for the City were as follows:

Deposit rate: 7%

Matching Ratio (City to Employee): 2 to 1

Members can retire at ages 60 and above with five or more years of service or with 20 years of service regardless of age. A member is vested after five years.

Contributions – Under the state law governing TMRS, the actuary annually determines the City contribution rate. The rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period. The unit credit actuarial cost method is used for determining the City contribution rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect, i.e. December 31, 2003 valuation is effective for rates beginning January 2005.

A schedule of funding progress as of the three most recent actuarial valuation dates is as follows:

	Actuarial Valuation Date		
	12/31/03	12/31/02	12/31/01
Actuarial value of assets (a)	\$ 14,356,528	\$ 11,949,020	\$ 10,215,762
Actuarial accrued liability (AAL) - unit credit (b)	19,724,820	15,905,584	13,833,397
Unfunded (over-funded) AAL (UAAL) (b-a)	5,368,292	3,956,564	3,617,635
Funded ratio (a/b)	72.8%	75.1%	73.8%
Annual covered payroll (c)	8,808,639	7,833,164	6,830,978
UAAL as a percentage of covered payroll ((b-a)/c)	60.9%	50.5%	53.0%

CITY OF ROCKWALL, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 4: OTHER INFORMATION – continued

D. Employee retirement systems and pension plans – continued

A summary of the City’s net pension obligation (NPO) and annual required contributions for the last three fiscal years is as follows:

	Fiscal Year Ended September 30		
	2004	2003	2002
NPO at the beginning of the period	\$ -	\$ -	\$ -
Annual required contribution	1,155,023	1,023,494	890,635
Contributions made (100%)	<u>(1,155,023)</u>	<u>(1,023,494)</u>	<u>(890,635)</u>
NPO at the end of the period	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

A summary of the actuarial assumptions used is as follows:

Actuarial Cost Method	Unit Credit
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	25 Years - Open Period
Asset Valuation Method	Amortized Cost
Investment Rate of Return	7%
Projected Salary Increases	None
Includes Inflation At	None
Cost-of-Living Adjustments	None

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the “Fund”) which is a component unit of the State of Texas. The City reimbursed the Fund \$48,774 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a Board of Directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 35 active participants currently covered by the Fund and payments are being made to eight retirees or their survivors. The Fund does not prepare separate financial statements for participating departments; however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P.O. Box 12577, Austin, Texas 78711.

E. Prior period adjustment

In the City’s financial statements for the year ended September 30, 2003, accrued interest receivable and interest revenue were overstated. The correction of this error decreased accrued interest receivable and fund balance by \$283,011.

Fund balances, October 1, as restated	<u>926,507</u>	<u>2,413,382</u>	<u>3,339,889</u>
Fund balances, September 30	<u>\$ 1,358,357</u>	<u>\$ 1,033,669</u>	<u>\$ 2,392,026</u>

## ***SPECIAL REVENUE FUNDS***

**Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.**

Cemetery – established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation – established to account for donations, court security fees, and forfeitures.

Recreational Development – established to account for the annual lease income from marinas and golf course.

PID Special Revenue – established to account for the receipt and disposition of all revenues received from assessments levied for the Heritage Heights Public Improvement District.

Street Improvements – established to account for the proceeds of street improvement assessments.

Hotel Motel Tax – established to account for the annual income from hotel/motel taxes.

Fire Equipment – established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation – established to account for funds received from airport operations and related expenses.

Recycling – established to account for funds to be used for the City's recycling program.

Emergency Siren – established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Kidzone – established to account for revenues and expenditures related to a joint project with the Rockwall Breakfast Rotary and Kiwanis clubs to construct a playground.

Drug Grant – established to account for revenues and expenditures related to a multi-jurisdictional drug task force.

Sesquicentennial – established to account for revenues and expenditures related to the one-day event celebrating Rockwall's Sesquicentennial.

## ***CAPITAL PROJECTS FUNDS***

**Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.**

Capital Projects – established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund.

Equipment Acquisition – established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

Harbor/TIF Projects – established to account for revenues and expenditures related to the Tax Increment Financing District and the associated public improvements within the Harbor development.

G.O. Bonds Capital Projects – established to account for equipment acquisition and street and drainage projects using proceeds from the issuance of bonds.

Ralph Hall Parkway Capital Improvements – established to account for the construction of the new Ralph M. Hall Parkway currently in progress.

1995 G.O. Bonds Capital Improvements – established to account for street and drainage improvements, road improvements, and expansion of the City's service center using proceeds of the 1995 General Obligation Bond Issue.

Fiscal charges	3,321	-
Total debt service	<u>414,594</u>	<u>-</u>
Total expenditures	<u>1,445,857</u>	<u>108,956</u>
Excess (deficiency) of revenues over (under) expenditures	779,511	136
Fund balances, October 1	<u>8,268,882</u>	<u>75,705</u>
Fund balances, September 30	<u>\$ 9,048,393</u>	<u>\$ 75,841</u>

CITY OF ROCKWALL, TEXAS  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF DISCRETELY PRESENTED  
COMPONENT UNITS TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2004

	<u>Rockwall Economic Development Corporation</u>	<u>Rockwall Technology Park</u>
Net change in fund balances - discretely presented component units	\$ 779,511	\$ 136
Amounts reported for discretely presented component units in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$7,535) exceeded capital outlays (\$998) in the current period.	(6,537)	-
Governmental funds report debt issuance costs as expenditures. However, in the statement of activities these costs are allocated over the term of the underlying debt and reported as amortization expense. This is the amount of amortization expense in the current period.	(3,043)	-
Accrued interest payable on long-term debt does not require the use of current financial resources and is not reported in the funds. This is the amount of the change in accrued interest payable during the year.	771	-
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount of principal repayments during the year.	190,000	-
Compensated absences payable do not require the use of current financial resources and are not reported as expenditures in governmental funds. This is the amount of the change in accrued compensated absences during the year.	<u>(8,004)</u>	<u>-</u>
Change in net assets of discretely presented component units	<u>\$ 952,698</u>	<u>\$ 136</u>

CITY OF ROCKWALL, TEXAS  
COMPUTATION OF LEGAL DEBT MARGIN  
SEPTEMBER 30, 2004  
(Unaudited)

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the year ended September 30, 2004 was:

Maximum rate per \$100 valuation	\$2.50
City of Rockwall 2003-2004 tax rate	<u>0.36</u>
Margin	<u><u>\$2.14</u></u>

*Introductory Section*

The City of Rockwall's financial statements have been audited by Rutledge, Crain & Company, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2003, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2003, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Rockwall was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Rockwall's separately issued Single Audit Report.

In the current year's financial statements the City implemented a dramatic change in governmental financial reporting. We believe this new presentation will provide valuable information to the readers of our comprehensive annual financial report. The new reporting model issued, by the Governmental Accounting Standards Board, requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Rockwall's MD&A can be found immediately following the report of the independent auditors.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, County Seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1851. The unusual rock formations are found throughout the county. The City is located on the east shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort Worth Airport, one of the largest in the world, continues with expansion plans to meet the air transportation needs of the region. Love Field in Dallas and Alliance Airport near Fort Worth provide commuter air service and general aviation facilities for the area. Due to favorable economic conditions, excellent business climate, and desirable living conditions, corporate relocations to the area continue.

The City of Rockwall has operated under a council-manager form of government since 1985. Policymaking and legislative authority is vested in the City Council, which consists of a mayor and six council members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms.

Organizationally, the City is in the process of refining its strategic plan using the Balanced Scorecard Methodology. When the strategy map was completed in 2003, the City's strategic initiatives for the implementation of the City's goals were formalized within the organization. Departmental business plans are being developed as well as performance measures for the strategic initiatives.

**Future Development.** The City has announced a private public partnership which will begin development in fiscal year 2004. "The Harbor" will be situated on the shores of Lake Ray Hubbard at I-30. The largely undeveloped hillside will soon be the home of a twelve-screen Cinemark Theatre, full-service Hilton Hotel and Conference Center and approximately 222,000 sq.ft of retail, restaurant and office space. In conjunction with the private development, the City expects to establish a tax increment financing (TIF) zone in an approximately 103 acre area which will allow for the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line. The public area will include both passive and active event areas, a Harbor/Urban Court, spray plaza and large open areas suitable for a variety of outdoor events. The City has sponsored a very well attended "Concert on the Lake Series" which will use this public space as its venue in the future. The City will be partnering with Rockwall County, and the Rockwall Economic Development Corporation to establish the TIF and finance the public projects. This is expected to transform the area and spur development in the entire TIF zone. Groundbreaking ceremonies will be held in Spring 2004 with phase I of the retail area to be open near Christmas 2004. All construction on both the private and public improvements is expected to take approximately 30 months to complete.

Design is underway on several road and drainage projects approved by voters in 2002. Debt will be issued in Spring 2004 and construction will begin on several roadway projects.

The water and sewer rate study will be updated in 2004, ensuring that the city's goal of providing sufficient water and sewer rates to meet system needs is achieved. Construction work continues on the new two-million gallon water tower as well as design of a new pump station and ground storage facility. A number of main extension projects will be undertaken to increase system capacity and provide water and sewer service to outlying areas of the City.

#### Cash Management:

The City invests cash temporarily idle during the year in money market funds and short-term notes of the U.S. Government and its agencies.

Other cash classified as being not immediately needed is invested in longer-term obligations of the U.S. Government and its agencies. All of these investments are classified as "hold-to-maturity" investments. The City believes that it will not be required to sell these investments prior to maturity, barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no reverse repos nor has any other form of borrowing been used to finance the City's portfolio.

The City's investment policy is to safeguard the City's assets and maintain liquidity while enhancing the yield of its portfolio and ensuring public trust. All securities owned by the City were held in a financial institution trust department acting as an agent of the City, in the City's name.

Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2002. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This comprehensive annual financial report satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last thirteen consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgement:

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

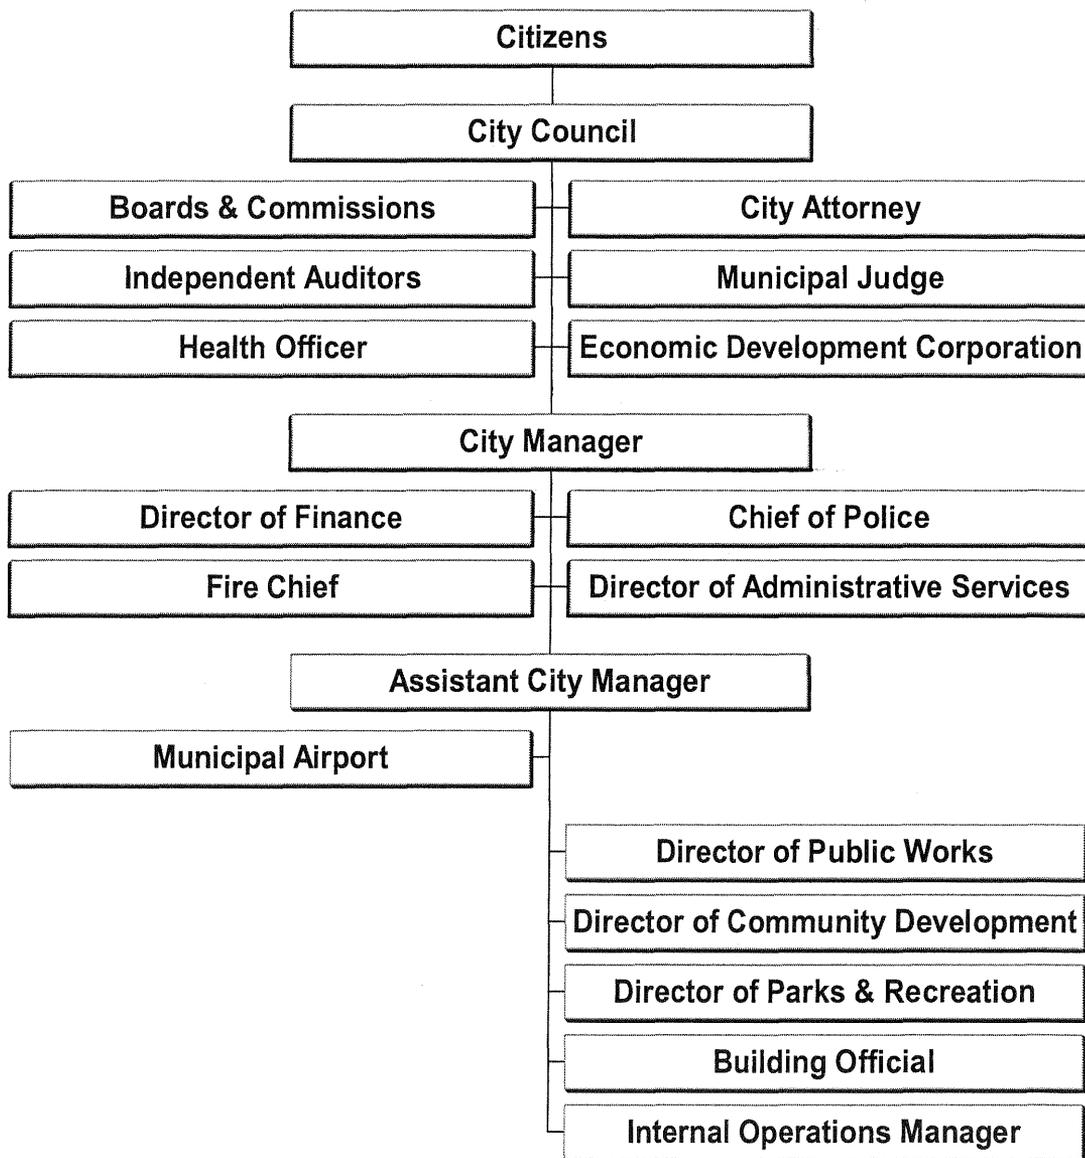

Julie Couch  
City Manager

Mary Smith, CPA

**Independent Auditors' Report on Financial Statements**

To the City Council  
City of Rockwall, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas as of and for the year ended September 30, 2003, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Rockwall, Texas' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas as of September 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in note 1 E, the City has implemented a new financial reporting model, as required by the provisions of GASB Statement 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as of September 30, 2003.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2003, on our consideration of the City of Rockwall, Texas's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis identified as Required Supplementary Information in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements which collectively comprise the City of Rockwall, Texas' basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

*Rutledge Crain & Company, PC*

December 12, 2003

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2003. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total combined net assets were \$113,888,414 At September 30, 2003.
- During the year, the City's expenditures were \$2,077,115 less than the \$20,263,958 generated in taxes and other revenues for governmental activities.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities at the close of the fiscal year ending September 30, 2003 by \$61,651,917 (net assets). Of this amount \$10,176,859 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- At the end of this fiscal year, unreserved fund balance for the general fund was \$7,235,979 or approximately 49 percent of the total general fund expenditures and transfers out.
- The City did not issue bonds during the fiscal year ended September 30, 2003. Total debt was reduced by \$2,577,184 during the fiscal year. More detailed information is given in the notes section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

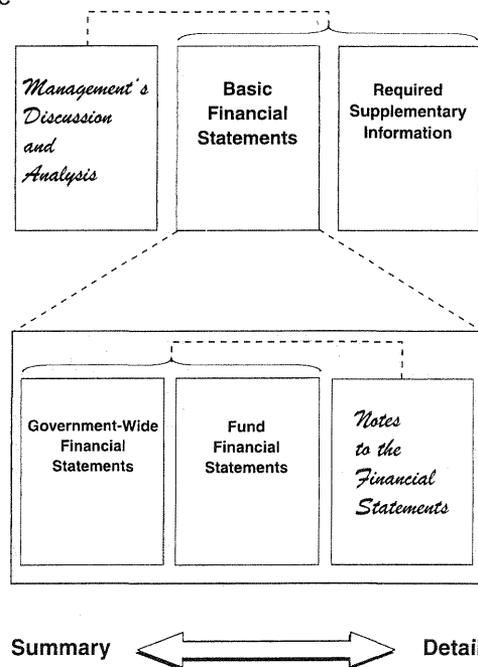

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the City's Annual Financial Report

In the Statement of Net Assets and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City's basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services finance most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system are reported here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City's 4A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units.

The government-wide financial statements can be found on pages 23-25 of this report.

## **Reporting the City's Most Significant Funds**

### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. Funds are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains 17 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund and the G.O. Bonds Capital Projects fund, all of which are considered to be major funds. Data from the other 14 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the governmental-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City's self insurance funds. Because these services benefit both governmental as well as business type functions, they have been included in both the governmental and business-type activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing

Governmental activities increased the City's net assets by \$2,077,115. The key elements of this increase are as follows:

**Table 2**  
**Changes in Net Assets**

	<b>Governmental Activities 2003</b>	<b>Business-type Activities 2003</b>	<b>Total 2003</b>
Revenues:			
Program revenues:

Net assets, September 30	<u>\$ 61,651,917</u>	<u>\$ 52,236,497</u>	<u>\$ 113,888,414</u>

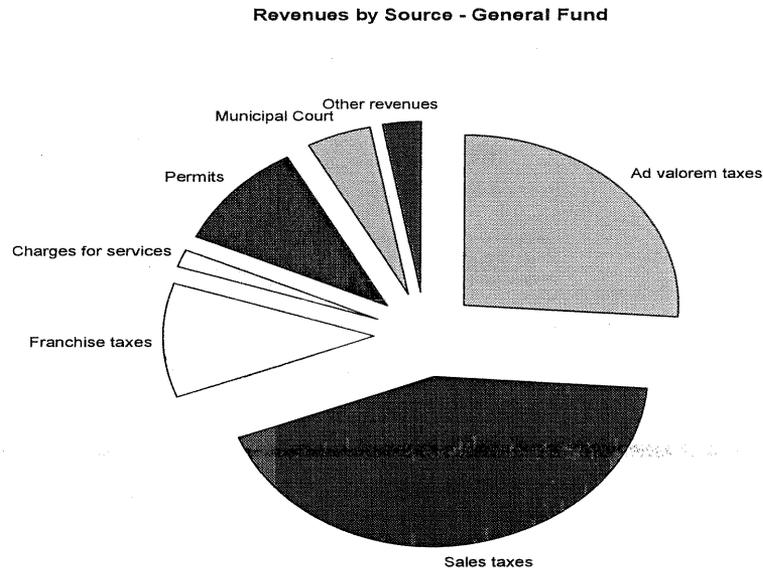

Note: The City did not restate its 2002 financial statements in this first year of implementation of GASB 34. Comparative information will be provided in future years.

## Component Units

The Rockwall Economic Development Corporation (REDC) reported operating revenues primarily from a ½ cent sales tax, authorized under the 4A Corporation statutes, of \$2,094,670. Assets managed by the corporation including an inventory of land available for sale to business entities. During the fiscal year ended September 30, 2003; the corporation sold a speculative building constructed in 2002 and held for lease and future sale. All associated debt for the building was extinguished.

## ANALYSIS OF INDIVIDUAL FUNDS

The City's General Fund reported an ending unreserved fund balance of \$7,235,979 (25.3%); a decrease of \$342,477 from the prior year. The main source of general fund revenue is sales tax, it accounted for \$6,138,437 (43.0%) of total general fund revenue. Ad valorem property taxes account for \$3,707,621 (26.0%) of general fund revenues. The decrease in fund balance was planned and expended for the purchase of equipment typically financed with contractual obligations.

The City's Debt Service Fund reported an increase in fund balance of \$131,897. Property tax collections for debt service requirements were \$2,970,545.

Water and sewer charges were \$8,138,036. Ending working capital for the water and sewer fund was \$1,930,978. No new debt was issued during the fiscal year ended September 30, 2003.

## GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2003, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases in revenues beyond projections. With the adjustments made to the budget, the budgeted expenditures of \$13,391,745 increased to \$14,084,950 while revenues increased from \$13,163,500 to \$13,799,200. The City of Rockwall had originally estimated the ending general fund balance to be \$6,897,711 however due to the budget adjustments mentioned above, the fund balance was re-estimated to be \$5,798,156. The actual fund balance was higher due to management's conservative projections.

Actual general fund revenues were \$14,262,632, an increase of \$463,432 over the final budget. Actual general fund total expenditures were \$981,891 less than the revised budget. Total revenues exceeded total expenditures by \$1,159,573.

No significant budget shortfalls are noted.

The City of Rockwall's general obligation bonds carry an "A" rating from Standard & Poor's Corporation and an "A1" rating from Moody's Investor Services, both national rating agencies. The City's water and sewer bonds carry an "A-" rating from Standard & Poor's and an "A2" rating from Moody's. The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported debt to assessed value of all taxable property is 1.22% or \$981 per capita.

Additional information on the City of Rockwall's long-term debt can be found in note IV-F on pages 54-59 of this report.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials consider many factors when setting the fiscal year 2004 budget, tax rate and fees that will be charged for the business-type activities. The major factor affecting all decisions has been and will continue to be the national and regional economies. The population growth experienced by the City has helped to offset declines in spending seen regionally. While building permits were somewhat lower for fiscal 2003 than previous years, interviews with local builders project strong home sales continuing for the foreseeable future. The City of Rockwall's citizens enjoy above-average income levels per household. This in combination with the City's proximity to major highways, and the Dallas-Ft.Worth SMSA make Rockwall an attractive city in which to locate. The Rockwall Economic Development Corporation works diligently to attract businesses with relocation incentives as well as providing business retention incentives such as workforce training opportunities.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2004. The budgeted revenues for fiscal year 2004 total \$14,201,000 for the general fund. Ad valorem tax revenue is determined by two major factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. Due to the fact that property values have continued to rise, the City has been able to maintain the 36 cent tax rate for the next year. Due to an uncertain economic recovery and the volatility of sales tax revenues, city officials have chosen to be very conservative in projecting sales tax revenues, projecting them to be at the same level as the prior fiscal year.

The City adopted written financial policies in 2001 which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. In addition, the policies set minimum, recommended and maximum fund balance levels for the City's fund types. The general fund minimum fund balance is set at 3 months recurring operating expenditures. The recommended fund balance is 5 months of recurring operating expenditures and the maximum fund balance is 7 months of recurring operating expenditures. The budget as adopted for fiscal year 2004 projects a fund balance of approximately 5 ½ months of recurring operating expenditures.

A number of planning initiatives including the completion of the Comprehensive Plan and Zoning Ordinance and a study of GIS systems are planned for fiscal year 2004. In addition, the City will design and implement a new website for improved citizen, visitor and business information, as well as e-commerce opportunities. The City will continue will training opportunities for all employees including Rockwall University, an education initiative for employees across the organization to learn about the work performed by other departments in a university style curriculum. An economic analysis and forecasting study will allow the City to project revenue and expenditure levels for the various zoning categories as applied to currently zoned agricultural land. This will allow city officials to determine the "highest and best" use for tracts of land being rezoned. In addition, the City began incorporating the Balanced Scorecard methodology into the budget.

The water and sewer rates adopted in fiscal year 2002 will be reviewed by our rate consultant during the coming fiscal year. The rates were designed to be adequate for approximately five years, and will be reviewed to confirm their sufficiency.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances. For more information contact the City's Director of Finance, Mary Smith at (972) 771-7700; Finance Department; City of Rockwall; 385 South Goliad Street, Rockwall TX 75087. The accompanying notes are an integral part of this statement.

segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic *resources measurement focus* and the accrual *basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *G.O. Bonds Capital Projects Fund* accounts for the acquisition or construction of general fixed assets.

The City reports the following major proprietary fund:

The *Water and Sewer Fund* operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

Internal Service Funds account for employees' health insurance, and worker's compensation coverage services provided to other departments or agencies of the government, or to other governments on a cost-reimbursement basis.

The Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects).

**CITY OF ROCKWALL, TEXAS**

- e. Certificates of deposit issued by a state or national bank domiciled in the state of Texas or a savings bank domiciled in the state of Texas provided that they are:
  - (1) Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor,
  - (2) Secured by obligations outlined in items 1 – 4. The market value of all collateral must be marked to market on a daily basis and shall not be less than 102% of the principal amount of the certificate plus accrued interest, or
  - (3) Secured in any other manner in an amount provided by law for deposits of the City.
- f. Repurchase agreements which are fully collateralized by obligations of the United States or its agencies and instrumentalities, marked to market on a daily basis with a market value of at least of the 102% of the principal invested, including accrued interest. The securities being purchased must be pledged to the City and held in the City's name by a third party selected and approved by the City. The repurchase agreement must have a defined termination date and be placed through a primary government securities dealer or a financial institution doing business in the state of Texas. The repurchase agreements should be secured by obligations approved in this policy.
- g. Banker's acceptances having a stated maturity of 270 days or less, to be liquidated in full at maturity, which are rated not less than "A-1" or "P-1" (or an equivalent rating) by at least one nationally recognized credit rating agency provided that it is eligible for borrowing from a Federal Reserve Bank.
- h. Commercial paper having a stated maturity of 270 days or less and rated not less than "A-1" or "P-1" (or an equivalent rating) by at least two nationally recognized rating agencies or one nationally recognized rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States.
- i. No-load money market mutual fund registered with and regulated by the SEC, which has a dollar-weighted average stated maturity of 90 days or less. It must have included in its investment objectives its intent to maintain a stable net assets value of \$1 for each share. The fund must provide the City with a prospectus and other information required by the SEC.
- j. No-load mutual funds, registered with and regulated by the SEC, having weighted maturity of less than two years, and which invests exclusively in investments approved by this policy.
- k. Investment pools which are approved by the City Council, provided they meet all the criteria for investment pools outlined in Chapter 2256, Texas Local Government Code, and maintain a continuous rating not lower than AAA or AAA-m (or an equivalent rating) from at least one nationally recognized rating service.

The City holds various mortgage backed securities that offer higher yields but are sensitive to changes in interest rates and other market conditions. Timely payment of interest and principal are guaranteed by federal agencies. The City will not be required to sell these securities prior to maturity barring an event that would be isolated, nonrecurring, unusual, and could not reasonably be anticipated by the City. The City has no borrowed funds used for investing or reverse repurchase agreements.

Investments having a maturity of 1 year or more, when purchased, are stated at fair value. Short term investments are stated at cost or amortized cost.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter fund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances

6. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 1.25 days per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of 3 days sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall be converted to vacation leave at a ratio of 3 days sick leave to one day vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of 3 days sick leave to one day vacation leave and shall be paid to the employee if he/she has 10 or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

7. Long-term obligations

In the government-wide financial statements, and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method which approximate the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

E. Implementation of Governmental Accounting Standards Board Statement 34 and 37

In June 1999 and June 2001, the GASB issued Statement No. 34, Basis Financial Statements - and Management's Discussion and Analysis for State and Local Governments, and Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments - Omnibus, respectively. These statements provide for the most significant change in financial reporting in over twenty years. As a part of these statements, there is a new reporting requirement regarding the City's infrastructure.

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets - governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and are deferred in the funds." The details of this \$225,185 difference are as follows:

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2003

C. Deficit fund equity

The following funds had deficit fund balances at September 30, 2003:

Drug Grant Special Revenue Fund	\$17,239
Employee Benefits Internal Service Fund	\$26,971

The deficit in the Drug Grant fund was caused by unanticipated expenditures, and will be covered by additional transfers from the general fund. The deficit in the Employee Benefits fund was caused by unanticipated health care cost increases, and will be covered by additional transfers from the general fund.

**IV. DETAILED NOTES ON ALL FUNDS**

A. Deposits and investments

Cash

At year end, the carrying amount of the City's cash on hand and deposits was \$1,312,214 (including restricted cash of \$302,771) and the bank balance was \$2,079,432. All of the bank balance was covered by federal deposit insurance and collateral pledged by the depository in the City's name and held by the City's agent.

Under a contractual agreement with North Texas Municipal Water Department (NTMWD), depository accounts are maintained by NTMWD for interest sinking, debt and construction reserves totaling \$965,490 which are separately insured or secured by collateral pledged by NTMWD's depository. This \$965,490 is included in restricted cash on the statement of net assets.

The carrying amount of deposits for REDC and RTP, discretely presented components units, was \$356,550, and the bank balance was \$531,408. The component units' cash balances are covered by the City's depository contract and therefore, all of the bank balance was covered by federal deposit insurance and collateral pledged by the depository in the in the City's name and by the City's agent.

Investments

The City's investments are categorized into these three categories of credit risk: (1) insured or registered, or securities held by the City or its agent in the City's name, (2) uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name or 3) uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in he City's name. At year end the City's investments were:

**CITY OF ROCKWALL, TEXAS**

Year Ended September 30, 2003

B. Receivables

Receivables as of year-end for the government's individual major funds and nonmajor, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Debt Service	G.O. Bonds Capital Projects	Water and Sewer	Nonmajor and Other	Total
Taxes receivable - delinquent	\$145,453	\$108,953	\$ --	\$ --	\$ --	\$254,406
Accrued Interest	\$100,801	\$6,250	\$44,086	\$169,934	\$14,575	\$335,646
Accounts receivable	\$762	\$ --	\$ --	\$1,209,789	\$105,514	\$1,316,065
Allowance for uncollectibles	--	--	--	(127,809)	--	(127,809)
Net other receivables	\$762	\$0	\$0	\$1,081,980	\$105,514	\$1,188,256
Assessments receivable	\$ --	\$ --	\$ --	\$ --	\$190,016	\$190,016
Other receivables	\$17,898	\$ --	\$ --	\$ --	\$666	\$18,564

Revenues of the Water and Sewer Fund are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period were \$32,562.

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unavailable	Unearned
Delinquent property taxes receivable (General Fund)	\$129,035	\$ --
Delinquent property taxes receivable (Debt Service Fund)	95,495	--
Assessments receivable not yet due (PID Special Revenue)	105,804	--
Assessments receivable not yet due (Street Improvements)	84,212	--
Grant drawdowns prior to meeting all eligibility requirements	--	112,058
Total deferred/unearned revenue for governmental funds	\$414,546	\$112,058

V. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of the City employees and their covered dependents and minimize the total cost of annual medical insurance to the municipality. Medical claims in any one year exceeding \$35,000 per covered individual or, approximately \$1,089,236 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2003.

**CITY OF ROCKWALL, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
Year Ended September 30, 2003

construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable NTMWD to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the Annual Budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the Paying Agent and the Registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related sewage treatment facilities have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the bond issues as of September 30, 2003, is \$2,150,000. See Note IV E for the annual requirements to amortize the bonds as of September 30, 2003.

C Subsequent Events

December 1, 2003, the City issued \$4,380,000 of general obligation refunding bonds, series 2003 to provide resources to purchase U.S. Government securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments on \$4,325,000 of refunded debt. As a result, the refunded bonds are considered to be defeased and the liability will be removed from the books of the City. This advance refunding was undertaken to reduce total debt service payments over the next twelve years by \$225,043 and resulted in an economic gain of \$191,151. At September 30, 2003 the amount outstanding on this refunded issue was approximately \$4,380,000.

D. Contingent Liabilities and Commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

As described in Note 5 above, the general revenues of the City are contingently liable for the \$288,477 payable in General Obligation Bonds which are currently outstanding and recorded as obligations of the Enterprise Fund.

The City contracts for garbage disposal with a third party. Under the terms of the agreement the city bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

The Rockwall Economic Development Corporation provides monetary incentives to companies to relocate within the City of Rockwall. At September 30, 2003, these commitments totaled \$1,012,300.

E. Employee retirement systems and pension plans

The City participates in the Texas Municipal Retirement System

Plan Description - The City provides pension benefits for all of its full-time employees (except firefighters) through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal

Texas Statewide Emergency Services Personnel Retirement Fund

The City acts as agent for the Texas Statewide Emergency Services Personnel Retirement Fund (the "Fund") which is a component unit of the State of Texas. The City reimbursed the Fund \$56,260 for benefits paid on a pay-as-you-go basis during the year in recognition of services provided to the City by volunteer emergency services personnel. The Fund has a board of directors not designated by City officials and is administered by the State Fire Fighters' Pension Commissioner. There are 37 active participants currently covered by the Fund and payments are being made to 9 retirees or their survivors. The Fund does not prepare separate financial statements for participating departments, however, financial statements for the Fund as a whole may be obtained from the administrator at Fire Fighters' Pension Commissioner, P. O. Box 12577, Austin, Texas, 78711.

*Combining Statements and Budget Comparisons  
as Supplementary Information*

This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

## *Special Revenue Funds*

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Cemetery - established to account for the annual income from the sale of plots and cemetery maintenance costs.

Police Investigation - established to account for donations, court security fees, and forfeitures.

Recreational Development - established to account for the annual lease income from marinas and golf course.

PID Special Revenue - established to account for the receipt and disposition of all revenues received from assessments levied for the Heritage Heights Public Improvement District.

Street Improvements - established to account for the proceeds of street improvement assessments.

Hotel/Motel Tax - established to account for the annual income from hotel/motel taxes.

Fire Equipment - established to account for funds to be used for the purchase of fire equipment for the volunteer fire department.

Aviation - established to account for funds received from airport operations and related expenses.

Recycling - established to account for funds to be used for the City's recycling program.

Emergency Siren - established to account for revenues accumulated and expenditures to add emergency sirens within the City.

Drug Grant - established to account for revenues and expenditures related to a multi-jurisdictional drug task force.

### *Debt Service Fund*

The Debt service Fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources.

## *Capital Projects Funds*

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Capital Projects - established to account for miscellaneous street and drainage projects which are financed with contributions from the General Fund.

Equipment Acquisition - established to account for capital equipment acquisition using operating transfers from benefiting funds and residual proceeds from miscellaneous debt.

G.O. Bonds Capital Projects Fund - established to account for equipment acquisition and street and drainage projects using proceeds from the issuance of bonds.

Ralph Hall Parkway Capital Improvements - established to account for the construction of the new Ralph M. Hall Parkway currently in progress.

1995 G.O. Bonds Capital Improvements - established to account for street and drainage improvements, road improvements, and expansion of the City's service center using proceeds of the 1995 General Obligation Bond Issue.

### *Discretely Presented Component Units*

The Rockwall Economic Development Corporation (REDC) represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half cent sales tax to support its activities.

The Rockwall Technology Park (RTP) provides repair and maintenance of the common area within the park being developed by REDC.
